I was running for U. S. Congress in PA-13 and they have hacked my phone, credit cards and stalk me. I live near Rave Rock Facility and believe they have installed MK Ultra/ Voice to Skull Technology in me. They show me pornographic images in my mind, move my penis to ejaculation and play recordings in my head torturing me. They have turned me in to robot without my consent.

I've asked for help and have been unsuccessful. I'm searching for a lawyer and an honest government official to help get my life back. My phone is hacked my address is 645 Mengus Mill Rd Littlestown, PA17340. Will you please share my story?
