GOVERNMENT AND POLICE TARGETING OF AN INDIVIDUAL 15 - 50 YEARS OF AGE - UNUSUAL DISTURBANCES IN THE HOME - VICTIM / FAMILY MEMBERS / VICTIMS FAMILY PET (DOG) RUBY - REFER TO TIMELINE - REFER TO FILE 14. GOV - EMF & RF TECH

Suspicious activity of altered states of mind has been recognised and recorded during the act of targeting and presents itself in the form of the use of highly developed classified technology to conduct human experimentation on the human mind, in the form of satellite and radio frequencies being used to affect and interfere with the electrical impulses of the human brain and being conducted by the Government targeting the victim and her family, and also includes Military services.
The highly sophisticated developed and designed technology involving the use of radio frequency and satellite frequency was discovered and revealed during contact with a company, Solinnov, representatives name of contact, Sanka, Ph: 0403 223 900, during the development of JC INNOVATIONS involving the development of software of products and designs involving GPS tracking systems. It was also revealed through contact of a mentor of the Venture Dorm Program with an employee of the Adelaide University division Svelte Studios, involved in the development of technology involving NASA and Artificial Intelligence the application of recording key strokes of mobile phones - Joseph Cassar also revealed the Intellectual Property Theft of a current development of JC INNOVATIONS of a Social Media Security Program currently being developed and under an NDA between JC INNOVATIONS and a software development company and involving predatory behaviour on social media and in the possession of Svelte Studios - University.

Military Involvement : Sexual Targeting 2014 - 2016

- David

The targeted victims within this evidence all suffered from the same symptoms of:

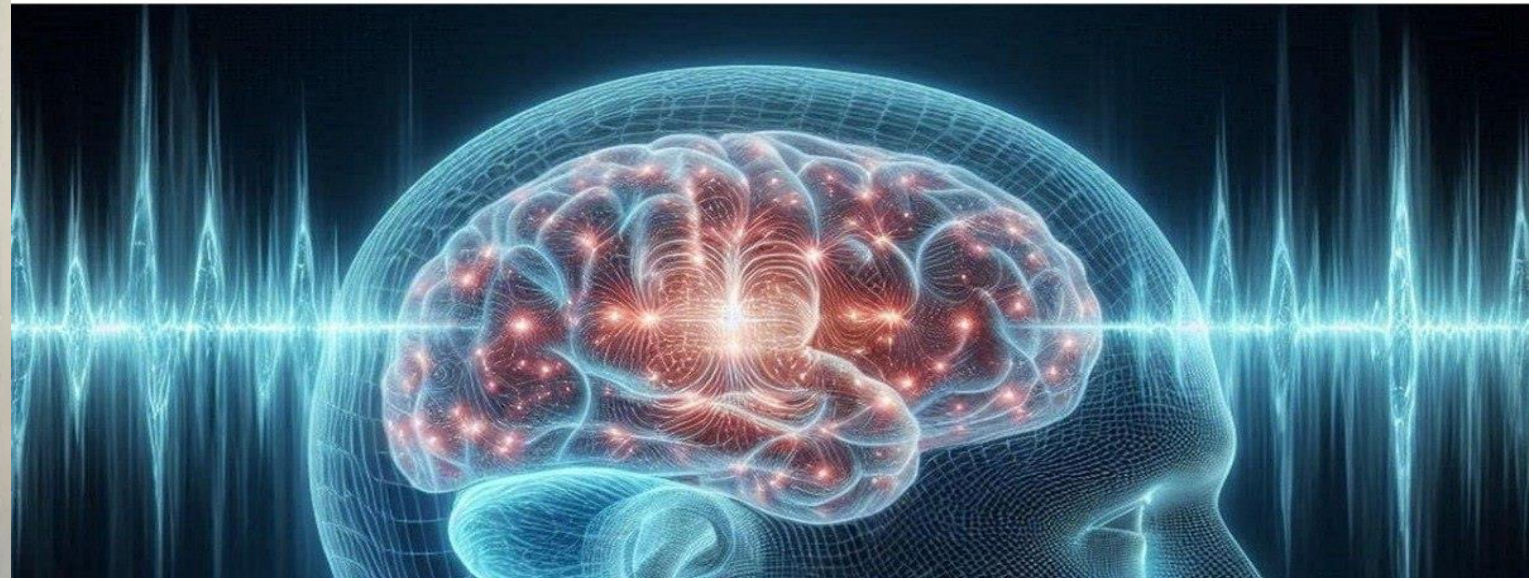

- Nightmares
- Insomnia
- Extreme anxiety
- Graphic imagery while suffering from nightmares and in their sleep of being attacked, raped or introduced to individuals they had not witnessed or encountered before during waking hours / everyday life or television imagery / watching television programs

Neither victim had suffered any forms of these events or conditions medically or personally and there are no medical records or findings of these symptoms ever occurring in their lives before the dates of 2013 - The victim first contesting to the Intellectual Property Theft of a Medical Business Plan and development developed between the years of 2006 - 2012 and in the possession of SA Health, South Australian Government, and the start of awareness of the unusual events and occurrences happening in their lives involving the suspicion of targeting and fraudulent activity.
Medical certificates and records outline the psychological effects and dates of occurrence, the events revealed in the evidence that the victims suffered as a result of the continuous targeting, victimisation and the suspected use of this technology involving interference in the electrical impulses of the brain, involving Government Human Experimentation, which resulted in permanent psychological damage to the victims lives.

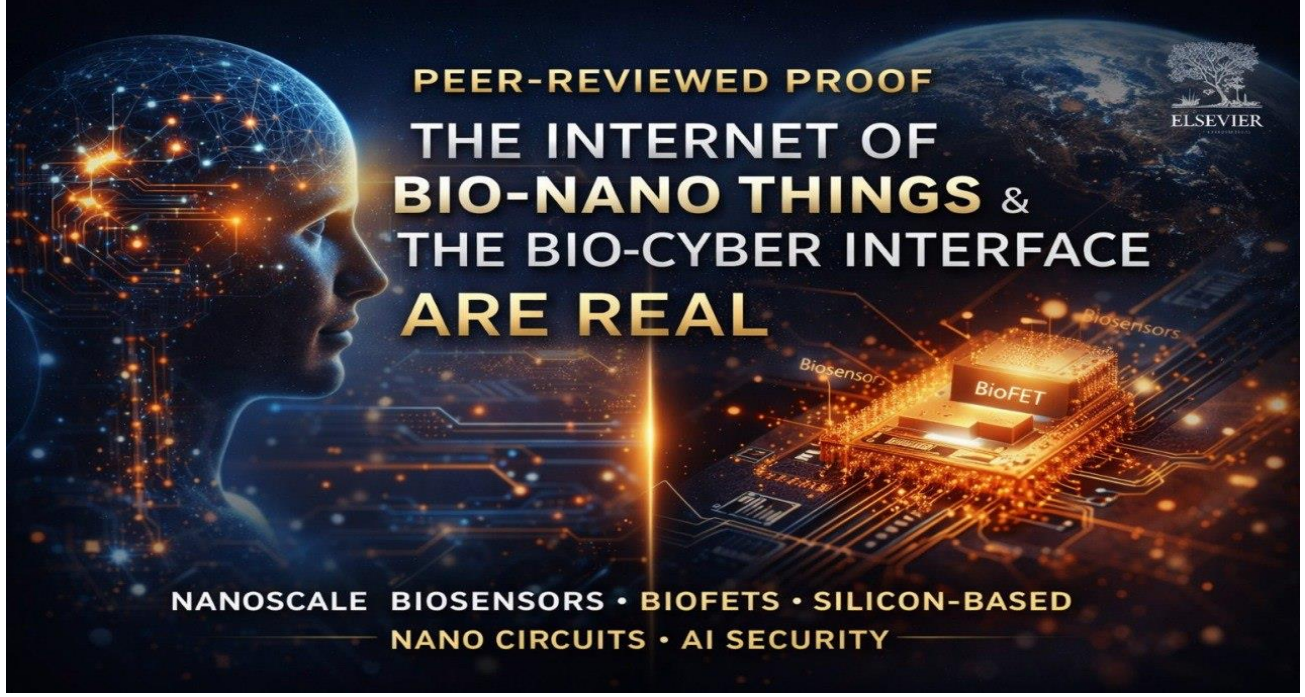

Permanent damage resulted in :

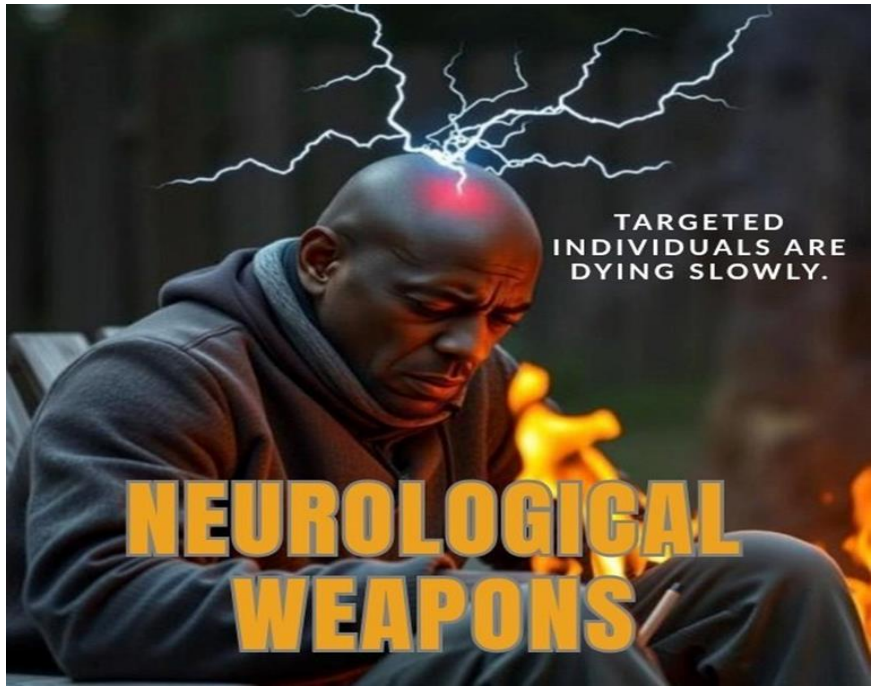

- Anxiety conditions
- Insomnia - fear of sleeping due to continuous nightmares and graphic imagery of rape, abduction, physical attack, devious / psychologically disturbing sexual acts in nature
- Fear of relationships
- Fear of interaction and contact with people
- Fear of intimacy
- Constant stress related conditions
- Isolation - segregation from family, children and friends
- Constant vigilant high alert - awareness of unusual activity, fraudulent activity and suspicion of targeting of criminal illegal activity of some form between the years of 2015 - 2017 - which occurred again between 2018 - 2020 - Full knowledge and recognition of targeting involving the Australian government and the extensity of the targeting become apparent and known to the victim in 2019 - 2020

PHYSIOLOGICAL DISCOMFORT

The resonant effect of infrasound on organs causes nausea, dizziness, loss of coordination and pain.

COGNITIVE IMPAIRMENTS

Decreased concentration, deterioration of memory and thinking.

14 symptoms, 10 syndromes.

PHYSICAL INJURIES

Psytech and EM tech

Non-lethal effects directed at the physiological or psychological functions of specific individuals or the populace. Applications of biological, chemical, or electromagnetic radiation effects on humans should be pursued. R&D into sophisticated psychological operations designed to change the minds of individuals or the populace is needed. Techniques could include projection of sounds and images to specific points in space. The Joint Non-lethal Weapons Program Directorate should broaden its tactical and operational focus to consider the strategic applications and associated treaty issues of non-lethal weapons.(Defense Science Board Task Force on Future Strategic Strike Forces. Office of the Under Secretary of Defense For Acquisition, Technology, and Logistics: Washington DC, 2004)

Psychotronic weapons

"Behaviour modification is a key component of peace enforcement" (Steven Metz and James Kievit, The Revolution in Military Affairs and Conflict Short of War (US Army War College, 1994).

Many of the non-lethal weapons under consideration utilize infrasound or electromagnetic energy (including lasers, microwave or radio-frequency radiation, or visible light pulsed at brain-wave frequency) for their effects. These weapons are said to cause temporary or permanent blinding, interference with mental processes, modification of behavior and emotional response, seizures, severe pain, dizziness, nausea and diarrhea, or disruption of internal organ functions in various other ways.(Steve Aftergood,Softkill Fallacy, Bulletin of Atomic Scientist, September, 1994)

Synthetic telepathy is a term used to describe the beaming of words, thoughts, or ideas into a person's mind by mechanical means, specifically, some type of electromagnetic transmitter, similar to a radio or television broadcast, operating in the microwave frequency band. In recent years thousands of people have come forward claiming to be victims of this frightening technology. (www.newdawnmagazine.com)

Acoustic levitation

A famed Swedish aircraft designer, Henry Kjellson, observed and recorded heavy stones, each about a 1.5-meter cube, being lifted to a position 400 meters above them by monks using musical instruments. The technique required thirteen drums and six trumptes, complemented by about 200 priests, all placed in a specific pattern. When the trumpets were blown at about two blasts per minute, the stones reportedly would rise and follow a prescribed trajectory to the top of the diff (cf. Henry Kjellson, Forsvunden Teknik, Capenhagen, Nihil, 1974).

A team of scientists at Intersonics, Inc of Northbrook,Illinois, has recently accomplished what may be the first prestidigitation, lifting a one-ounce steel ball using nothing but sound wave "

Stroboscopic stimulation

A television screen produces flicker (stroboscopic stimulation) at the mains frequency, effectively generating intermittent photic stimulation (IPS) at 60 Hz in North America and 50 Hz in Europe. Photosensitivity is more common at the lower frequency, with nearly 50% of patients sensitive to 50 Hz IPS, and TV sensitivity has indeed been a greater problem in Europe than in North America. In Japan, 685 people, most with no history of epilepsy, were hospitalised after viewing a Pocket Monsters cartoon : broadcast standards now exist in the United Kingdom and in Japan to reduce this risk but not in the USA or in Canada. (Benjamin G. Zifkin, Dorothee Kasteleijn-Nolst, Reflex epilepsy and reflex seizures of the visual system: a clinical review, Epileptic Disorders. Volume 2, Number 3, 129-36, Septembe 2000)

What are RF Weapons?

A class of weapons (sources) whose intent is to disrupt / disable / destroy an adversary's device / system by means of some intense electromagnetic (EM) environment.

- RF Weapons Are:
  - *In the Radio Wave Spectrum (DC through Gigahertz)*
  - *Can be Highly Directional (Beams) or Isotropic (Omni- Directional)*
  - *Created through variety of methods (primitive ➡ Nuclear EMP)*
- RF Weapons Are NOT:
  - *Ionizing (No Nuclear fallout, or radioactivity)*
  - *Near visible Spectrum (lasers or Infra-red, Ultra-violet)*

Question: Does High Power Microwave (HPM) = RFW ?

Terahertz Properties of Graphene

Abstract Graphene has proved itself as being unique in terms of fundamental physics, and of particular importance for post–silicon electronics. Research into graphene has divided into two branches, one probing the remarkable electronic and optical properties of graphene, and the other pursuing technologically viable forms of the material. Terahertz time domain spectroscopy (THz TDS) is a powerful tool for both, able to characterise the free carrier response of graphene and probe the inter and intraband response of excited carriers with sub-ps time resolution. We review THz TDS and related THz measurements of graphene.

NEUROCOGNITIVE TAGGING

In the age of data, your thoughts are not private — they are profiled.

Neurocognitive tagging is the process of identifying, cataloging, and tracking individuals based on **how they think**, not just what they say or do.

Using biometric signals, behavioral patterns, neural response profiling, and predictive cognitive marrkers. governments and Al systems can assign individuals to **neurological risk categorles**, flagging those with patterns of resistance, anomaly, intultion, or high independence

Key mecanisms inciude:

- **Cognitive fingerprinting** — mapping unique brainwave patterns, response times, and emotional rhythms
- **Biometric signal tagging** — associating neural or phylological markers with identity, location, and intent
- **Pattern-based suspicion** — labeling individuals by deviation from predicted behavioral norms
- **Al-driven inference** — recognizing pre-verbal or subconscious trends in decision-making

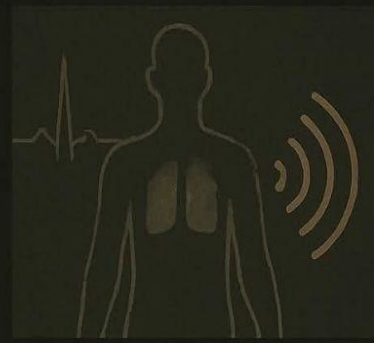

@kai.uecker

You are not track by what you do — but by what your brain is likely to do. You are not pished for actions — but for potential.

MICROWAVE & RADAR-BASED NEUROTECHNOLOGIES

These are not devices — they are fields of influence.

Invisible, deniable, and persistent.

This war doesn't need weapons in your hand — it needs a signal in your brain.

Microwawe and radar-based systeins form the core of covert neuroweapons:

- Track motion and biometrics
- Read neural patterns
- Induce auditory sensations (V2K / microwave auditory effect)
- Stimulate or suppress emotions and cognition
- Disrupt concentration

Your body is scanned. Your thoughts ar modeled. Your perception is altered — without consent, without trace.

SHIFT FROM GEN I TO GEN II

FROM DEVICES TO INFRASTRUCTURE

Gen I refers to portable or stationary setups used locally.

@nanoimplant6

Gen II marks the weaponization of everyday infrastructure: cell towers, Wi-Fi, power grids, satellites, smart cities.

Key leap – scale and invisibility: Weapons become embedded in "normal" environments, operating everywhere without needing

Shift from Gen II to Gen III:

From Broadcast to Bi-Directional Interaction

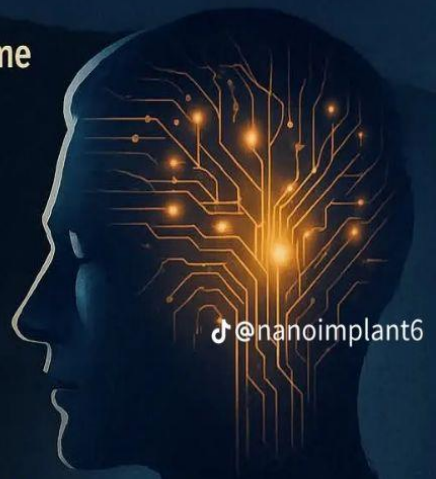

Gen I still functions primarily one-way:

- it transmits signals, alters brainwave rhythms
- inserts volce into consciousness (via microwave auditory effect and RF hearing), and causes sensory or emotional symptoms.

Gen III introduces real-time feedback:

- the system reads neuro- and biometric patterns, analyzes perception and reactions, and adjusts modulation to the target's state.

A phenomenon known as synthetic telepathy emerges.

@nanoimplant6

Key leap – cognitive adaptability:
AI begins to "dialogue" with the brain of the target, crafting a personalized neural reality.

GEN III – COGNITIVE-INTEGRATED, AI-DRIVEN, FEEDBACK-RESPONSIVE

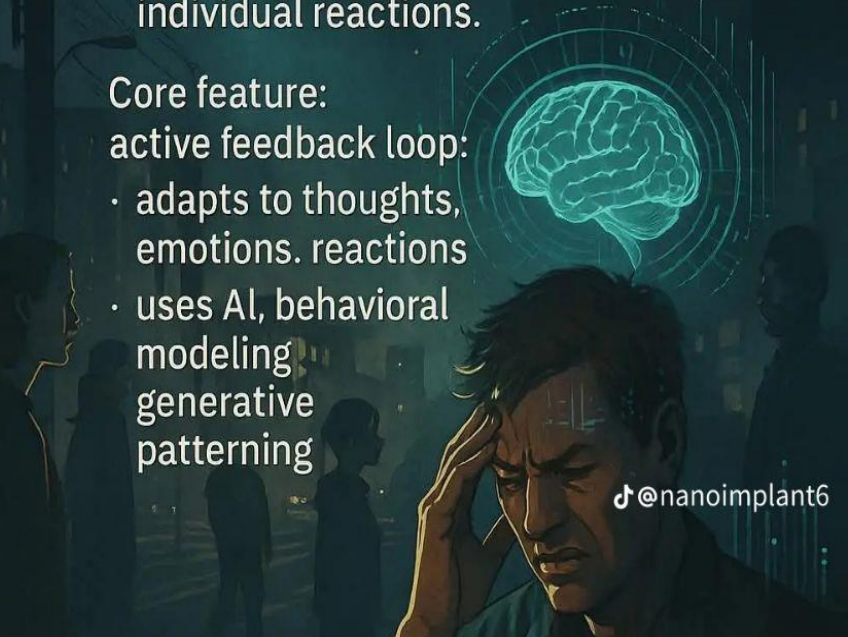

Next-Gen Neuro Weapons:

Infrastructure capable of:

- inducing a wide spectrum of bio–and neuro-responses,
- real-time reading of brain patterns and biometrics,
- tailoring modulation to individual reactions.

Core feature:
active feedback loop:

- adapts to thoughts, emotions. reactions
- uses Al, behavioral modeling generative patterning

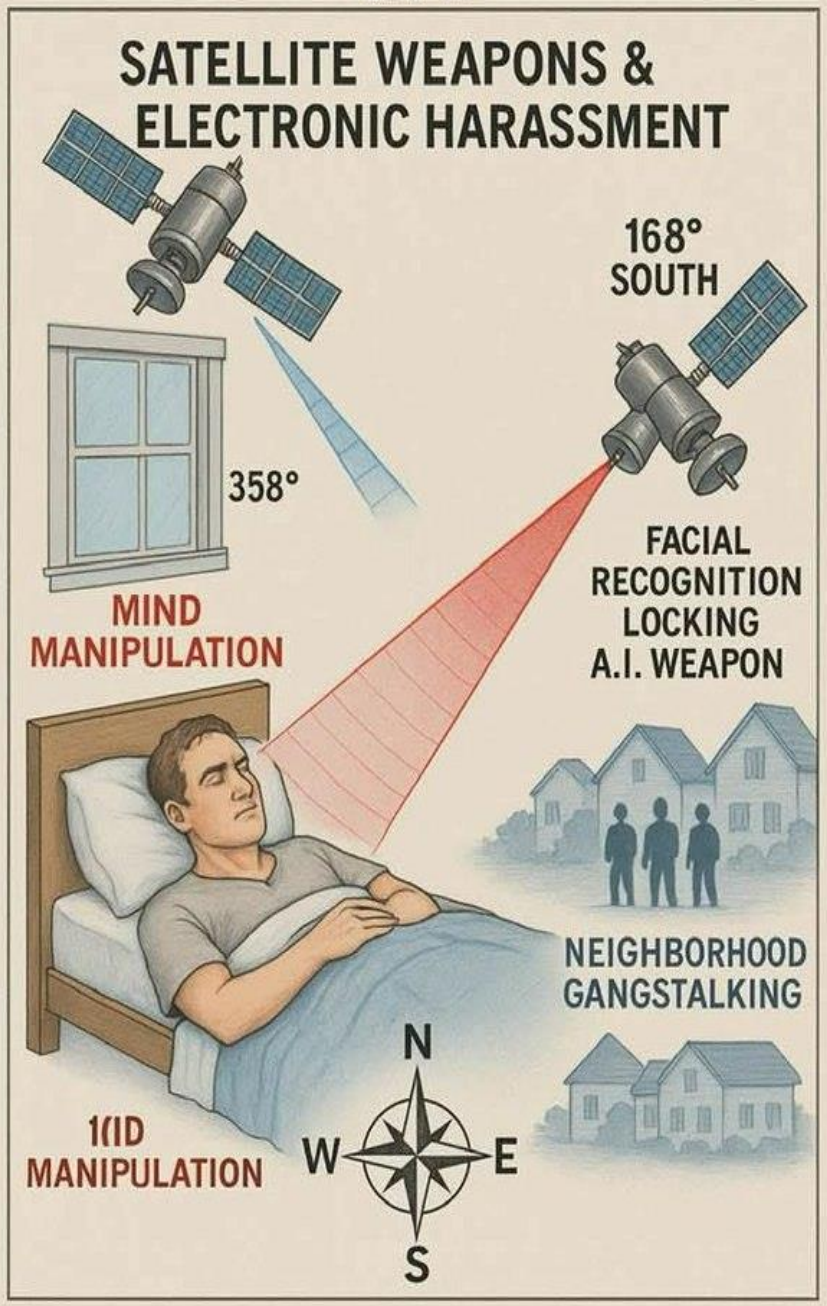

@nanoimplant6

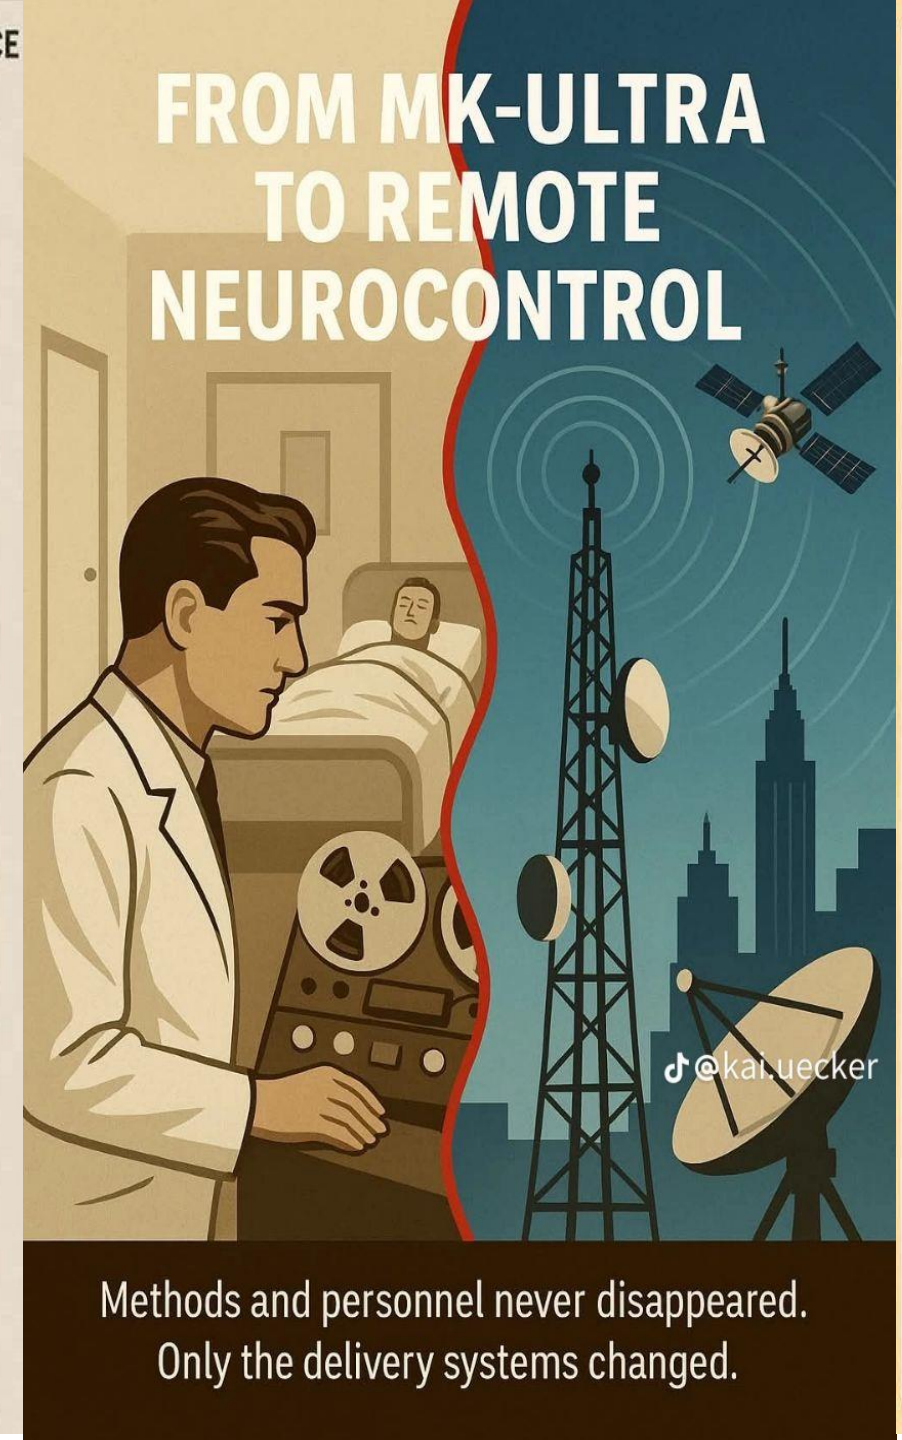

Effects include:

- simulated pain,
- visions, panic, ,,external contol!"

Fusion Centers,

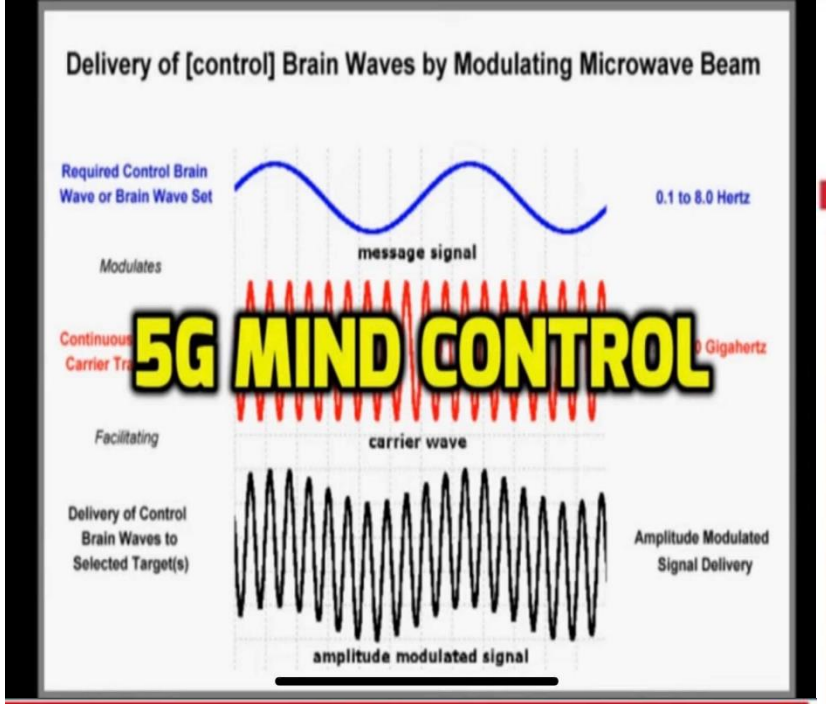

STATE FUSION CENTERS actually serve PRIVATE *BUSINESSES* such as HIGH TECH COMPANIES, MILITARY CONTRACTORS, MEDICAL COMPANIES, BIG PHARMA and TRANSHUMANIST RESEARCH, which all want/need *non-consensual* human guinea pigs, which is against the law.

Thus, FUSION CENTERS *fabricate* SECRET fake "terrorist" or "threat" accusations in order to SECRETLY STRIP the victim of their Constitutional, Civil, and Human Rights and declare them "non-humans" with no rights, therefore open to be experimented on (preyed upon) with electromagnetic weapons (such as microwave), dirty electricity, weaponized Wifi, 5G, V2K, and invasive body area (chip) networks, as well as gases, poisons, morgellons, etc.

NO permission is EVER asked or given, NO compensation, NO medical treatment, it is experimentation (torture) for life aka until death.

Methods to thoroughly isolate and discredit are taken to trap the victim in a matrix of unimaginable ABUSE.

Information warfare/Psyops (sophisticated Governmental defamation and brain-washing of the public), ensures the innocent victim is deemed a pariah or mentally ill and left to suffer and perish, denied equal protection under the law and considered expendable. The American Holocaust.

Humans have a Geomagnetic Sensory System as do many other Animals

These are a few of the organisms with geomagnetic sensitivity

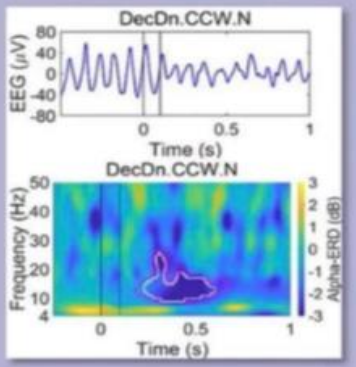

Humans are animals, too, so ...

We built a special exposure chamber to test human brain waves for magnetic effects ..

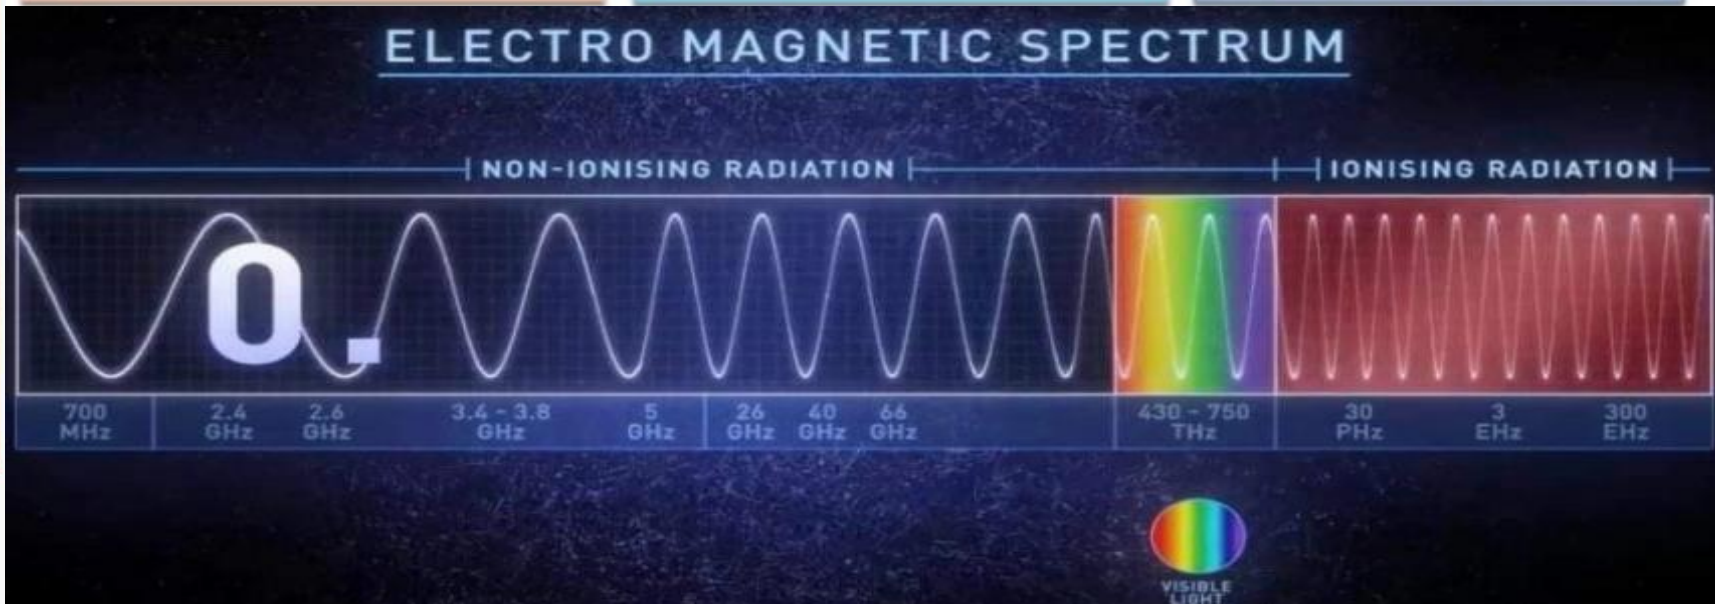

We included *many* experimental controls and blinding steps ....

We found that alpha waves in our brains fade after specific field rotations ...

... and that the sensor is likely magnetite, a biomineral that transduces magnetic fields.

COVID-19 Roadmap

The 12 Step Plan to Create a Totalitarian "New World Order"

1. Create a Problem		Take a flu-like illness with very common symptoms, that can be easily treated and a **99.97% recovery rate**. Essentially **a bad dose of seasonal flu**, but like the regular flu can be dangerous to people with weak immune systems or serious underlying health issues. Call it COVID-19.
2. Provoke a Terrified Reaction		Use the mainstream media to provoke massive fear. Ensure daily reporting of any death of someone "with" COVID as being a death "from" COVID. Report all "cases" even though **most people have no or mild symptoms**. Bribe scientists with grants and doctors with bonus payments for supporting testing and vaccinations.
3. Impose Lockdowns		Impose national and local lockdowns. Commence the **"Great Reset"** to **transfer wealth and power up to global corporations and the financial elite**: (1) Destroy small businesses; (2) Strengthen global corporations; (3) Cause a massive rise in State debt to international financiers; (4) Push cashless payments.
4. Exaggerate "Cases"		Use **totally unreliable PCR tests** to massively exaggerate the number of "cases" or so-called "infections" among healthy people who have no symptoms and cannot spread any infection.
5. Mandate Face Masks		Promote fear and to signal public compliance by mandating masks. In reality, cloth masks are **totally ineffective against any virus**. Prolonged use of masks actually increases health risks due to lack of oxygen, breathing in waste air and fungal infections.
6. Impose Contact Tracing		**Normalise surveillance.** Get people to accept having all of their personal movements and contact with people tracked, recorded and analysed.
7. Impose Health Passport ID systems		Introduce "heath passport" apps for smartphones as a form of **biometric identity card** to monitor and **control people's freedom of movement and ability to access education, employment and all types of services.** These will become a global digital **identity system** that will compulsory to go anywhere.
8. Rollout 5G Microwave Networks		5G networks allow constant gathering of huge amounts of personal data from smartphones and all internet connected devices. 5G massively increases the amount of high-frequency **microwave radiation** that can reduce blood oxygen levels and **trigger COVID-like respiratory symptoms**. 5G illnesses will be blamed on COVID to justify vaccinations.
9. Mandatory Vaccinations		Mandatory vaccination will generate **massive profits for Big Pharma corporations** who have **100% legal immunity** for all injuries and deaths. Vaccines will **destroy natural immunity**, increase **sterility** rates and promote **global depopulation**. New DNA and RNA vaccines will create **genetically modified humans** bioengineered for obedience, sterility and easy control.
10. Cashless Economy		Cash allows people to shop in privacy. With cash the State does not know what, where or when you buy something. A cashless economy means a **total loss of financial privacy** as all purchases can be constantly monitored and controlled. Access to digital finance can be withdrawn from anyone who dissents from officially approved purchases, views or behaviour.
11. Compel RFID Microchip Implants		Move from Health Passport apps to "more convenient" Radio Frequency Identity (RFID) **microchip implants** that allow **constant 24-7 monitoring of health, movements, contacts and digital payments.** With RFID chips, all human privacy will completely cease. Initially, these chips will be voluntary. Once normalised, they will become compulsory.
12. Arrive at the Totalitarian **New World Order**		A depopulated, **high-tech totalitarian world** with genetically modified humans, weakened natural immunity, micro-chipped, permanently connected to the internet, monitored and controlled 24-7. Human beings will be reduced to the level of **"biological machines"** living in a totalitarian prison. The real goal of this so-called "Great Reset" is **high-tech Fascism / Communism**. COVID is merely the excuse.

NORFOLK, VA – Cognitive warfare is not the means by which we fight; it is the fight itself. The brain is both the target and the weapon in the fight for cognitive superiority. Contesting in this environment comprises deliberate, synchronized military and non-military activities throughout the continuum of competition designed to gain, maintain and protect cognitive advantage.

Cognitive Warfare focuses on attacking and degrading rationality, which can lead to exploitation of vulnerabilities and systemic weakening. However, this becomes increasingly complex as non-military targets are involved. An example: Russian social media and public information operations targeted much of the international community in an attempt to label Ukraine as being at fault. Through a combination of communication technologies, fake news stories, and perceptions manipulation, Russia aims to influence public opinion, as well as decay public trust towards open information sources. These narratives have extensive reach, and often involve both offensive and defensive posturing.

NeuroStrike and the Evolving Landscape of Cognitive Warfare

The terminology used to describe the intricate realm of advanced cognitive disruption technology reflects a paradigm shift in the nature of warfare in the 21st century. This evolution necessitates the incorporation of terms such as "Anomalous Health Incidents" (AHI) and "Unconventionally Acquired Brain Injury" (UBI), both officially recognized by the US Defense Department as indicators of a novel form of covert offensive capabilities. Notably, the term "Havana Syndrome" is inherently intertwined with these concepts, coexisting within the broader term "NeuroStrike," which merits its unique definition.

The ongoing research efforts by the Chinese Communist Party (CCP) in these domains are not to be underestimated; they are both significant and strategically motivated. Over the past decade, technologies originally developed to address brain disorders, traumatic brain injuries (TBI), and cognitive impairments have unfortunately fallen victim to dual-use scientific research. These once-healing systems have been repurposed as covert weapons platforms, operating discreetly and insidiously to inflict severe cognitive harm and disrupt brain function among targeted individuals. This unsettling development marks the expansion into the realm of sixth dimension warfare, where the human body and brain serve as the battleground.

A substantial geopolitical contest is currently unfolding, focused on the neutralization, deterrence, and defense against weapons designed to incapacitate the cognitive health and neural well-being of military personnel, leaders, and ordinary citizens alike. The sustained research activities undertaken by the CCP in this field demand closer scrutiny and a significant shift in our strategic preparedness to safeguard the cognitive health, security, and overall well-being of our populace. This report sheds light on the extent and scope of the CCP's research endeavors, aiming to amplify and enhance their research and operational capabilities with the potential to redefine the very nature of warfare.

Anomalous Health Incidents: "I take very seriously the safety, health, and welfare of our personnel. To that end, I want to address with you a matter of significant concern: what we have called Anomalous Health Incidents (AHI). Although it is unlikely to have affected the vast majority of DoD personnel, I want to provide information on how to report potential AHI. Over the course of the last several years, and predominantly overseas, some DoD personnel have reported a series of sudden and troubling sensory events such as sounds, pressure, or heat concurrently or immediately preceding the sudden onset of symptoms such as headaches, pain, nausea, or disequilibrium (unsteadiness or vertigo). As part of a government-wide effort, the Department is committed to finding the cause and the source of these AHi and ensuring that affected individuals receive appropriate medical care as quickly as possible when needed." – Sept 2021 Secretary of Defense Lloyd Austin Memo for all DoD Employees
