Exposed cells (of all kinds targeted in the human body) react by producing a cascade of protective immunological substances.

These substances are conditioned in an intracellular structure called endosome.

The endosome is expelled from the cell, thus becoming an exosome (Nobel Prize in Medicine 2013).

The exosome circulates and binds to ACE2 receptors in the lung, intestine and heart.

"HAVANA SYNDROME" being used on U.S. Civilians

https://www.targetedjustice.com/dr-len-ber-md.html
https://www.targetedjustice.com/qeeg.html

"Havana Syndrome", correctly called NKBI (Non-Kinetic Brain Injury) which means that there is no concussion. The damage is done by "Directed Pulsed Energy in the Microwave Range".

Anomalous Health Incident is correctly called NeuroStrike, which is an attack by a weapon causing neurocognitive disruption leading to NKBI, and serious irreversible Cognitive Damage.

We are aware of at least seven diagnosed domestic civilian cases of "Havana Syndrome". One of them is on disability due to NKBI, despite the fact that the US Government doesn't recognize any domestic civilian cases. What most people and physicians don't understand, is the degree of irreversible brain degradation that these daily NeuroStrike cause, besides being extremely painful and incapacitating.

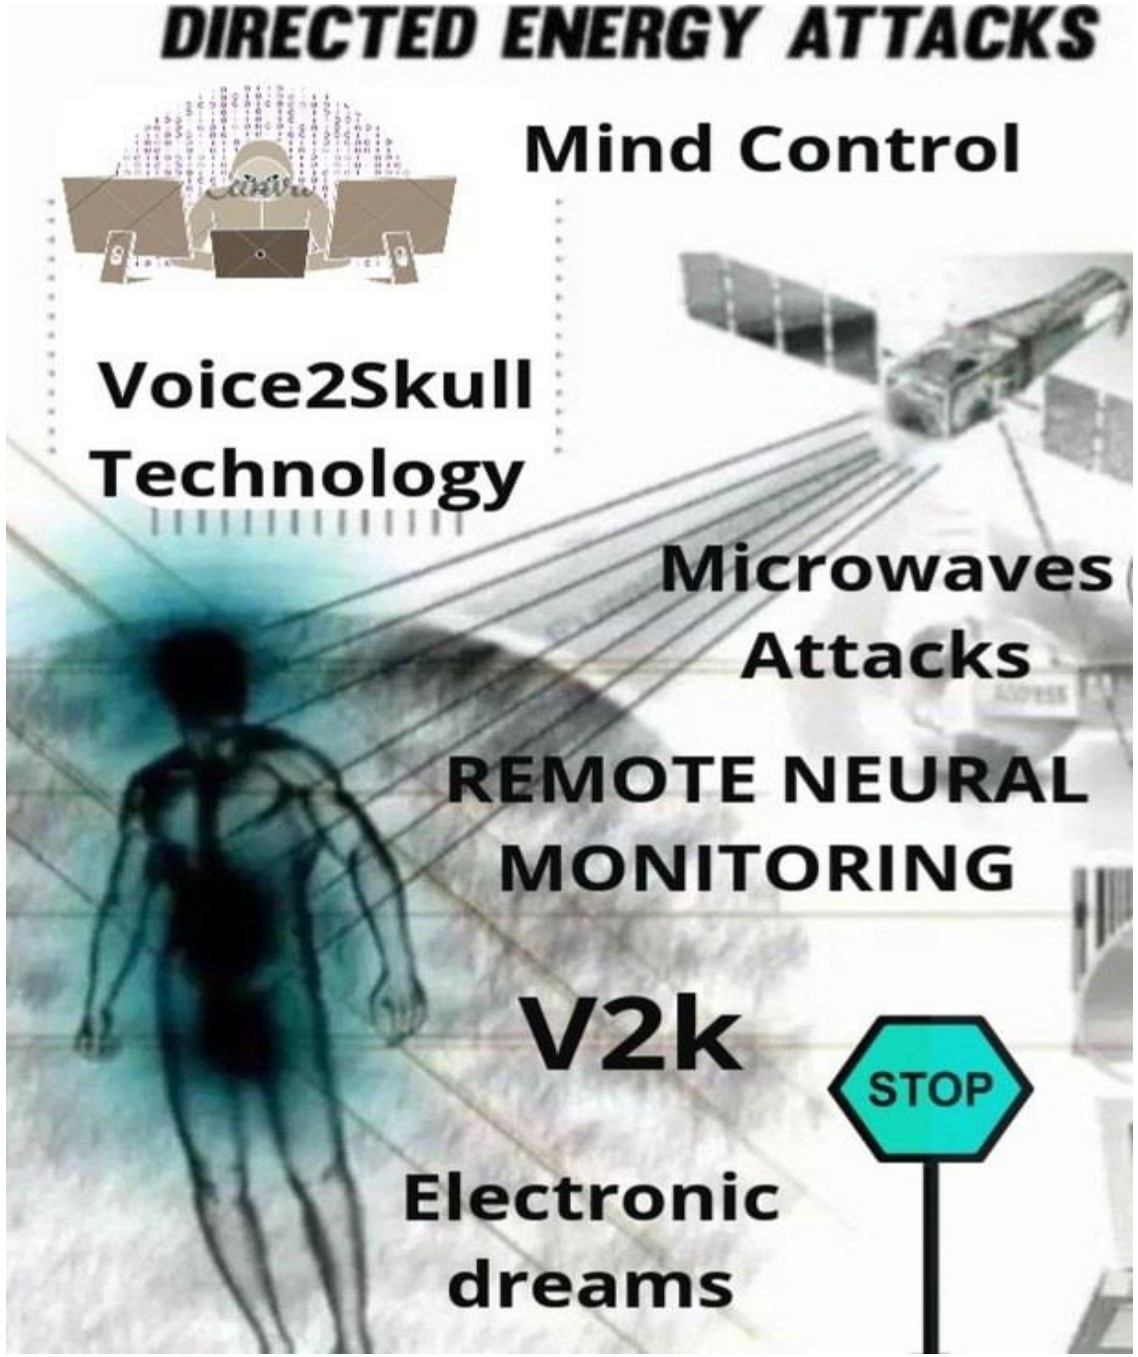

Below is a neuroimaging of the brain of a civilian with daily reoccurring Neurostrikes (sometimes multiple times a day), and "pre-morbid" dementia due to NKBI.

Using this direct method, there shouldn't be any lines in the normal awaken brain. Both blue and orange lines represent broken neuronal connections. Taken 6 months apart, the increase in broken neural connections is 400%.

"Havana Syndrome" is a serious public underreported, underdiagnosed public health issue, that according to a DC Attorney Mark Zaid representing government employees afflicted by NKBI, is a "government cover up"

ON INTERNATIONAL HUMANITARIAN LAW

Prohibition and punishment of torture and other forms of ill-treatment

There is an absolute ban on torture and other cruel, inhuman or degrading treatment and outrages upon personal dignity under international humanitarian law (IHL) and international human rights law (IHRL). The prohibition of torture and other forms of ill-treatment derives from the Geneva Conventions of 1949, their Additional Protocols of 1977, the Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment of 1984, and other international instruments. Both IHL and IHRL converge and complement each other in establishing a comprehensive legal framework for the prevention and punishment of acts of torture and other forms of ill-treatment.

We urge States to:

- Prohibit the use of unpredictable autonomous weapons.
- Ensure human control over the use of force.
- Conduct legal reviews of AI military applications.

Оружие направленной энергии

54. Оружие направленной энергии включает в себя системы, излучающие концентрированную энергию в заданном направлении без использования поражающих элементов. В военной сфере в таком оружии для нейтрализации или уничтожения цели используется не кинетическая энергия, а электромагнитный импульс или воздействие частиц. В таком оружии используются лазеры, излучение в СВЧ- и миллиметровом диапазоне и пучки частиц. Эти средства предназначены для достижения нелетальных целей, например для оглушения или ослепления противника или выведения из строя техники и электронных систем[55]. При использовании в военных целях оружие направленной энергии способно повреждать физические цели на расстоянии нескольких километров с высокой точностью и с низкой погрешностью.

55. По мере развития технологий оружия направленной энергии системы вооружений становятся все более мощными, широко распространенными и интегрированными в воздушные, наземные, морские и космические платформы. Благодаря способности действовать со скоростью света, точности, масштабируемости, удобной логистике и низкой стоимости выстрела такие системы могут эффективно применяться как в гражданском, так и в военном секторе[56].

56. В военном контексте оружие направленной энергии может затрагивать гражданское население. И хотя перспективы полного развертывания такого оружия пока туманны, последние прототипы и практические испытания указывают на переход от теории к практике[57]. Такое оружие может причинять серьезные повреждения, включая слепоту и ожоги. Например, лазеры высоких энергий могут обжигать ткани, а микроволновое оружие причиняет сильную боль, нагревая биологические жидкости организма, что может приводить к серьезным травмам, требующим длительного восстановления[58]. Учитывая эти последствия, такое оружие и воздействие направленной энергии вызывают серьезную озабоченность с точки зрения прав человека, включая права на здоровье и на телесную неприкосновенность и даже права на жизнь и на здоровую окружающую среду. Дополнительный протокол к Конвенции о запрещении или ограничении применения конкретных видов обычного оружия, которые могут считаться наносящими чрезмерные повреждения или имеющими неизбирательное действие (Протокол IV, озаглавленный «Протокол об ослепляющем лазерном оружии»), запрещает применение лазерного оружия, специально предназначенного для того, чтобы причинить постоянную слепоту.

What is a Targeted Individual?

A Targeted Individual (TI) is someone that has been selected by the Deep State (usually FBI, DHS, or CIA) to unwillingly participate in an experimental CIA torture program. This program was developed under the CIA's MK-Ultra project and is designed to break down the individual and "neutralize the person," using psychological, physical, and emotional stress. The ultimate goal of this program is to control the entire population, through intimidation, fear, and threats. Political activists, Labor Union leaders, Scientists, and Whistleblowers are some of the main targets of the program. However, some people are randomly chosen. Family and spousal relationships are usually destroyed, as part of this psychological torture.

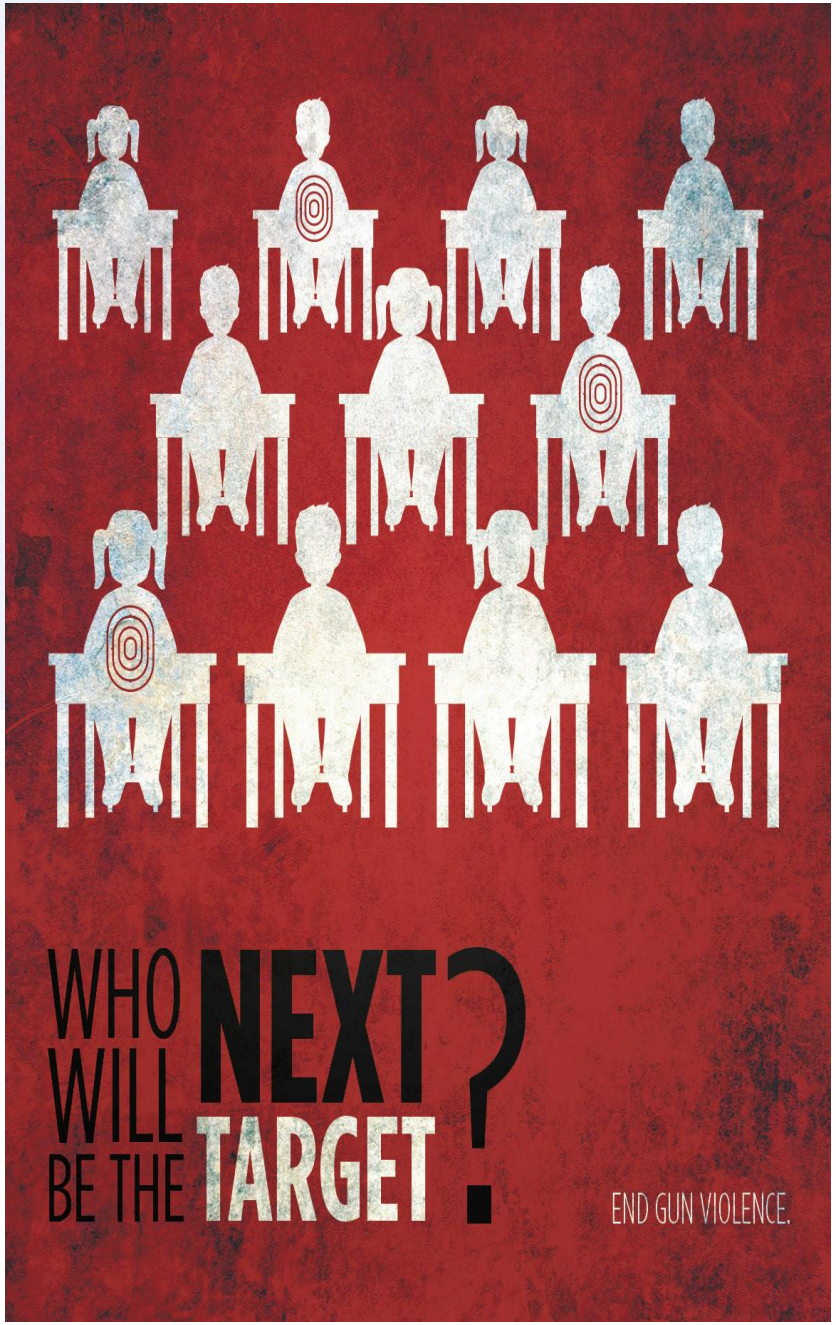

The FBI & DHS Fusion Centers run the global gangstalking program, which is designed to harass, intimidate, and break down the target. The FBI outsources much of the local harassment to community groups, such as Infragard, Citizen Corp, and Neighborhood Watch. Targeted Individuals are placed on the Terrorist Watchlist and tracked as "Non-Investigative Subjects (NIS)," so that local police and ambulances can be instructed, not to assist with their emergency calls, through FirstNet.com, which is run by AT&T.

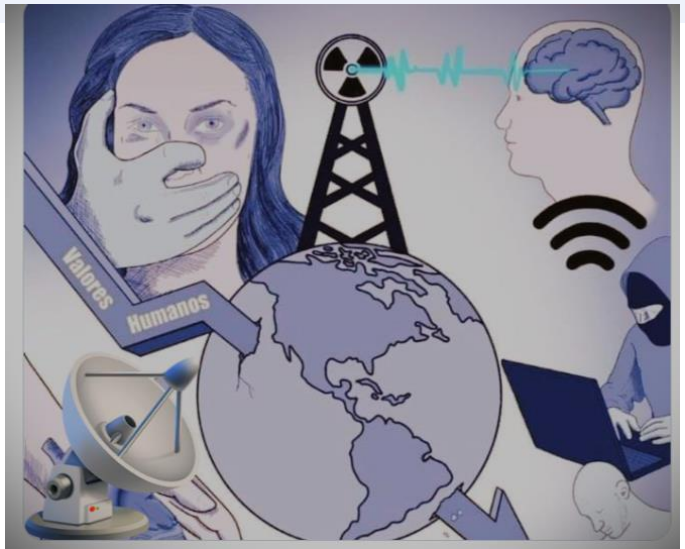

The CIA and Air Force operate the Microwave Weapons program through the underground complex at Schriever Air Force Base, near Colorado Springs. The Vircator microwave satellite weapon, and digital beamforming from cell phone towers are used. The microwave beams generally target the head and cause long-term brain damage. See the recent brain trauma's of the Cuban Diplomats - also caused by microwave weapons, according to Dr Douglas Smith, M.D., at the University of Pennsylvania, and Dr Beatrice Golomb, MD, PhD at the University of California, San Diego. State Department signals expert, Mark Lenzi, has also confirmed that the diplomats were definitely attacked with microwave weapons. Dr David Relman led an investigation at the National Academies of Science, and determined that Havana Syndrome is likely caused by microwave weapons.

Voice-To-Skull (V2K) signals can be embedded in the microwave frequency (450 - 700 MHz) which allows the government criminals to send constant, hate-filled messages at the target. It is called the "Frey effect", or microwave auditory effect, after Dr Allan Frey. There are numerous U.S. Patents on these technologies. It is likely that most of the mass shooting events are orchestrated by the CIA and FBI, using the techniques developed under the CIA's MK-Ultra program. David Steele, former CIA officer, has confirmed this.

Covert, non-consensual experimentation is being carried out on Americans.

THE AGE OF VALIDATION

HOW MAINSTREAM DISCLOSURES ARE VALIDATING THE TARGETED INDIVIDUAL EXPERIENCE

(2024–2026)

For decades, Targeted Individuals were told their experiences were "impossible," "imagined," or "insane." But the landscape has shifted. The same technologies, operations, and systemic cover-ups that TIs have survived are now being admitted, debated, and documented in the public record.

THE ARC IS BENDING TOWARD ACCOUNTABILITY.

1 MARCH 2024 — MAINSTREAM MEDIA VALIDATES THE WEAPONIZATION OF THE INVISIBLE

CBS's 60 Minutes aired a groundbreaking investigation into Havana Syndrome, explicitly tying anomalous health incidents scoviet, directed-energy attacks—even pointing toward elite, hostile military units.

GANG STALKING & TARGETED INDIVIDUALS

IT'S NOT A THEORY. IT'S A REALITY.

REAL PEOPLE. REAL LIVES. REAL CRIMES.

WHAT IS IT?

Gang stalking is a **coordinated,** long-term campaign of harassment, surveillance, intimidation, and psychological warfare, carried out by multiple people, sometimes with the involvement of government agencies, law enforcement, and private entities.

Targeted individuals (TIs) are ordinary people who become the focus of this illegal operation — often without any legitimate reason.

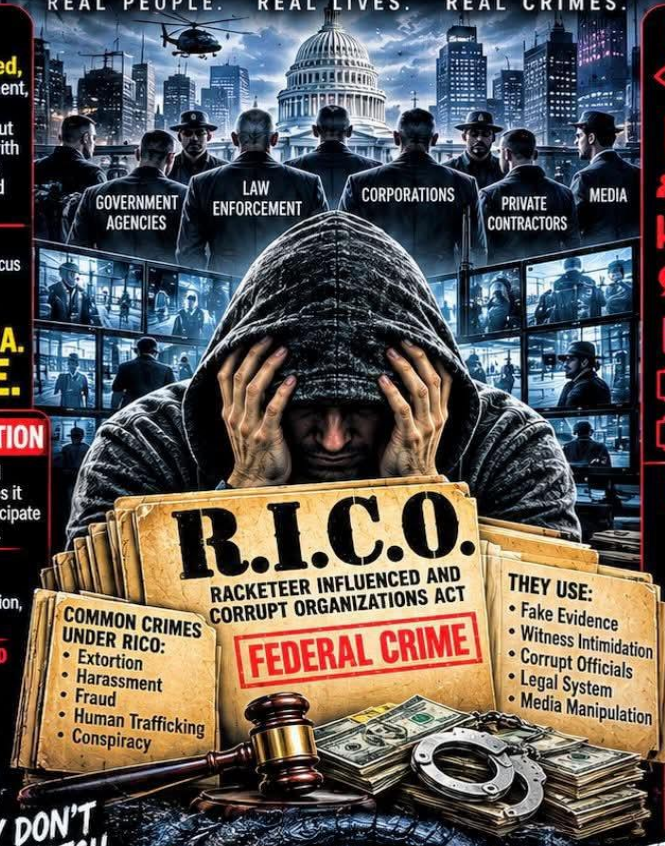

IT'S NOT PARANOIA. IT'S A CRIME.

THE R.I.C.O. CONNECTION

RICO (Racketeer Influenced and Corrupt Organizations Act) makes it a **federal crime** to conduct or participate in an ongoing criminal enterprise.

It can be used against organized groups — including gang stalking networks, human trafficking, extortion, fraud and other serious crimes.

IT ALLOWS FOR CRIMINAL AND CIVIL PENALTIES, INCLUDING PRISON TIME, FINES AND THE SEIZURE OF ASSETS.

HOW IT HAPPENS

- **Constant surveillance** (in person, online, and through technology)
- **Electronic harassment** (phones, GPS, hacking, fake accounts)
- **Stalking, following, and intimidation**
- **Sleep deprivation** (loud noise, lights, targeted attacks)
- **Social isolation** (character assassination, false reports)
- **False information** (police, CPS, medical, financial)
- **Medical and chemical attacks** (poisoning, EMF, etc.)
- **Financial sabotage** (job loss, account fraud, debt)

THE EFFECTS

- Severe anxiety, depression, and PTSD
- Sleep deprivation and exhaustion
- Physical health problems (chronic pain, headaches, immune system damage)
- Cognitive decline (memory loss, confusion)
- Loss of income and career
- Social isolation
- Legal and financial ruin
- **In extreme cases — suicidal ideation**
