Re: Targeted Individual by Multiple Directed Energy Weapons Systems
Victim Statement (Revised May 2, 2023)

Years targeted with (war grade) directed energy weapons: 35

Dear Sirs:

I became a victim of electromagnetic directed energy weapons attacks, for the second time in my life, 35 years ago after being sold out to the infamous CIA-FBI-USAF Military Industrial Complex experimental torture program as a newly hired California Department of Corrections Correctional Officer in 1986. I can say without hesitation, these attacks resembled those experienced by our diplomats in Cuba and China, and now by government workers in Washington D.C. and Miami.

Your recent interest in the microwave attacks on our diplomats overseas, and now on Americans in Washington D.C. and Miami, has encouraged me to reach out to tell you that it is not just diplomats on foreign soil, nor government workers on American soil who are being attacked, harmed and murdered. These instances only scratch the surface of the hundreds of thousands of victims over a four-decade reign of terror that I pinned twenty years ago in a state Whistleblower Complaint as "The 21st Century Genocide-The American Holocaust deeming the US Constitution nothing more than words on paper."

I can attest to a program of deliberate assaults upon certain groups of Deep State "chosen targeted individuals" of which I have had personal knowledge and experience (military, para-military, government public employees, government whistleblowers, children of government employees and whistleblowers, hospital workers, low-income, mentally ill, conservatives, Christians, retirees, senior citizens, and a list that has no end) that 35 years ago, although a continued covert operation carried over from the 1970's, had the appearance of early experimental stages, as the assaults were much more sporadic. However, with each passing year, I have witnessed the intensity and severity of the directed energy microwave assaults and the sophistication of technology increase to a daily living nightmare from hell for countless victims. The weaponization of technologies goes well beyond government agencies and the military. Corporate giants such as utility companies and telecommunication conglomerates also play a major role in these crimes against humanity and the targeting of individuals. I possess years of documented proof of injuries which includes medical documentation. The most recent documented medical proof is that of the brain and heart injury I sustained by my apartment complex SmartMeters from 2013-2019. This injury ongoing, I contacted PG&E and filed a second complaint in April 2023.

"Targeted Individuals" refers to the Hate Crimes orchestrated and conducted by the CIA, FBI, US Air Force, and DHS globally affecting hundreds of thousands of people and their families. Targeted Individuals, their loved ones and innocent pets are being tortured and murdered daily. These Hate Crimes are a violation of fundamental human rights, International Treaties and the US Constitution. Article 32 of the Geneva Convention prohibits scientific and medical experimentation and torture of civilians, as well as their pets. For Air Force and CIA Officers- it is an act of TREASON. The following are only a few of the technologies being used against targeted individuals and the general population. The five types of technology of which I have many years of personal knowledge and experience are:

1) SmartMeters
2) Microwave Satellites
3) Cell Towers
4) Drones
5) Portable Units

The CIA and the Air Force operate the microwave weapons program through the underground complex at Schriever Air Force base near Colorado Springs. The microwave weapons being used are known as Vircators manufactured by Lockheed Martin and patented by Donald J. Sullivan (US

Patent #4345220) prior to be assigned to the US Air Force. The Vircator satellite weapon is one of the microwave weapons known to cause Havana Syndrome. These weapons are mounted on US Space Force GPS satellites and are responsible the latest of deadly technologies known as Microwave Scalar Wave Beams. Scalar beam technology is used to deliver microwaves and millimeter wave frequencies across great distances to target people on the ground. Navigation satellites are often equipped with this military weapon as well. Equally as harmful are high power magnetrons that are mounted in cellphone towers. MQ9 drones with magnetrons are also increasingly being used. The microwave beams generally target the head causing long-term brain damage via white matter deterioration.

Another directed energy assault weapon widely used by the USAF (US Patent # 8,453,551) "an enhanced ruggedized version of the initial Active Denial System" issued to the USAF and Law Enforcement in August 2007 for crowd control is the Active Denial System2 (ADS) manufactured by Raytheon originally created for combat. The ADS emits a focused beam of millimeter wave energy that penetrates the skin producing an intolerable heating sensation that causes targeted individuals to flee. It has also been reported when aimed at a victim it causes a sudden increase of one's heart rate, high anxiety while forcing the brain into "fight or flight syndrome." This along with the manipulation of one's frequencies it is believed this technology is to blame for the widespread debilitating insomnia.

The High-frequency Active Auroral Research Program (HAARP) was initiated as an ionospheric research program jointly funded by U.S. Air Force, the U.S. Navy, the University of Alaska Fairbanks, and the "Defense Advanced Research Projects Agency (DARPA). It was designed and built by BAE Advanced Technologies. Its original purpose was to analyze the ionosphere and investigate the potential for developing ionospheric enhancement technology for radio communications and surveillance.

Watching a video several years ago, a HAARP geoengineer expert explained how HAARP was discovered. He alleged that upon scientists shooting electromagnetic charges at the earth's ionosphere, it resulted in electromagnetic directed energy shockwaves being fired back to earth with such force it astounded the scientists. It was then decided HAARP could be used as "crowd control" technology admitting it would adversely affect 75-80 percent of the population. There is ample proof this estimation is simply not true. It adversely affects all human and animal life. A video entitled Jessie Ventura vs HAARP reveals how HAARP is used to manipulate the weather causing deadly earthquakes, tornados and tsunamis and is considered a bioweapon weather warfare in violation of signed treaties.

After running HAARP for several months beginning October 2020 and days in succession prior to causing severe rain storms and flooding in December 2020, I suffered severe brain swelling, debilitating headaches, seizures, tinnitus, heart palpitations, and disorientation. On Christmas Eve driving to pick up my autistic son the assault was so severe I could not read street signs and my adult son was so mentally impaired he was unable to effectively communicate. He left me in a shopping parking lot and vanished on foot. My cats also suffered internal injuries and seizures.

My cat SplitPea, upon us being hit yearly with directed energy weaponry assault would urinate blood all over the apartment floor. I have pictures. Ultrasounds of her bladder and urinary tract were negative. As soon as the directed energy assault stopped so did her hematuria. December 2020, the month from hell she became lethargic began dragging her hind leg, stopped eating, drinking water, becoming emaciated with labored breathing. By January 8, 2020, I was forced to euthanize her. SplitPea's daughter Tiger, on February 28, 2021, upon being hit with directed energy during a deadly HAARP operation, let out a screech, arched her back and died instantly. I also took a picture of her fixed cloudy eyes and lifeless body on my couch. My older dog was hit with directed energy on March 19, 2021, suffering a severe seizure she also had to be euthanized. With these injuries ongoing two years later in May 2023, research indicates the HAARP Assasination program as reported by Edward Snowden in 2013, is being run simultaneously with harmful corporate entity technologies such as utility companies SmartMeters and telecommunication cellphone towers.

This is happening to thousands of targeted individuals here in California and across the United States. Year after year pleading for help, we targeted individuals have suffered aggravated assaults for daring to speak up. We then have suffered further assault witnessing our elected officials looking the other way. We are begging for your immediate action in these genocidal crimes against the human race and our beloved animals! Since sending the first letter to you in May 2021 through the infamous US Postal Service my directed energy assaults have caused brain and heart damage requiring me to apply ice packs to my head and be bedridden due to staggering when I walk. Time is of the essence. A special task force and an emergency hotline for victims to call is critical.

Sincerely,

JeanAnn Hurst
