FALL OF 2024:

I am being subjected to scalar wave microwaves and scalar wave sleep deprivation frequencies all night and morning long. Additionally, I am being hit with DARPA's High-frequency Active Auroral Research Program (HAARP) Extremely Low Frequencies also known as "ELF" considered to be the most harmful. Allowed to doze off as part of the CIA-FBI-USAF Military Experimental Torture Program, I was jolted by extreme body temperature, dry swollen nasal passages, tinnitus, head, brain, neck, and shoulder pain with radiating pain down both arms and numbness of both hands.

In spite of doubling upon numerous sleep supplements including CBD drops and prescribed sleep medication, I was kept awake by scalar wave sleep deprivation frequencies. In addition to these Deep State patented depopulation torture technologies, PG&E continues to pump high levels of EM Radiation (dirty electricity) into my apartment in the 500-600+ Hz range according to my Stetzerizer Microsurge Meter. (any level above 50 Hz is considerable unsafe) radiating my apartment making it dangerously unsafe for me and my animals. High levels of dirty electricity are common when HAARP is being run. It has been reported PG&E loans out it electrical grid to DARPA and telecommunication conglomerates.

With 2025 around the corner with all of these assaults ongoing for more than 35 years, I suspect nothing will change because the US has to keep up with all the other countries in their advanced technologies
