5G, NextG: Weapons, Surveillance, Humans as Controllable Radio Receivers, Vaccinations by Drone, and SOLUTIONS

5G/nextG Towers. Are you seeing what scientists clearly tell us is remote-killing, remote-vaccinating, and remote-bio-robot-control technology every few miles where you live? Please read and share this flyer, which is a tip of the iceberg.

See side 2.

- But did you know people worldwide are setting up *locally*-controlled SAFE-G broadband fiber networks and choosing *safe alternatives*?
- Did you know *safe*-G guidelines are being added to municipal codes so cities have a safe alternative to remote-source 5G/nextG signal?

Are you seeing towers like these where

WHAT DO INDUSTRY LEADERS THEMSELVES SAY ABOUT 5G/nextG?

1/ "5G Systems Are Critical for the Use of Hypersonic Weapons"
https://www.asdnews.com/news/defense/2021/07/09/5g-systems-are-critical-use-hypersonic-weapons
https://web.archive.org/web/20230129133536/https://www.nationaldefensemagazine.org/articles/2022/9/1/upcoming-darpa-program-to-allay-5g-security-concerns
Excerpts: 5G "has the ability to build a centralized infosphere with ... targeting, surveillance, and signals intelligence. ... smart hypersonic missiles with ... quick access to ... the frontline of the battlefield, and unmanned aircraft that can fly safely alongside passenger aircraft in commercial airspace ... critical for the use of hypersonic weapons, [ie] missiles that fly faster than Mach 5 and can carry nuclear warheads. ... to guide them on unpredictable trajectories, changing direction in a split second to avoid interceptor missiles ... In the event of attack ... the only option is ... 5G automatic systems. ... in ... the future war network. ... 5G would combine fragmented networks into a single network, allowing soldiers to be more aware of their position and make better decisions. ...Secret services and special forces are expected to benefit greatly from 5G. ... It will increase the lethality of killer drones and war robots by allowing them to recognize, track, and target people based on facial recognition and other characteristics. As a high-tech arm, the 5G network is also expected to be a target for cyber-attacks and wars [with] next-generation weapons..."

The cryptocurrency system ... may verify if the body activity data satisfies ... conditions ... and award cryptocurrency to the user whose body activity data is verified."* 29/ https://gangstalkingmindcontrolcults.com/?s=5g

Who Owns the 5G Cellular Towers in the United States? https://dgtlinfra.com/who-owns-the-5g-cellular-towers (Also see ee.co.uk/our-company)
https://AmericanTower.com NYSE, ticker AMT. 40.6k US towers; 179k global.
https://SBASite.com NASDAQ, ticker SBAC. 16.5k US towers; 32.7k global.
https://CrownCastle.com NYSE, ticker CCI. 40.1k US towers; 0 global.
Without local oversight, companies like these find and privately buy or rent small squares of land on which to build a tower. Data-transmission equipment is stacked on different levels at the tops of the towers. Each level is rented out to carriers like T-Mobile and Verizon. The higher the level, the higher the rent.

**Contending With Reality.** Is our neighborhood being transformed into a remote-weapon battlefield that people we don't know control? What's being done here—without our knowledge, consent, or participation? Do we want remote automated-surveillance, kill-tech, and human radio-signal transceivers in our area? In our bodies? Who controls this tech? Where are they? What are their names? Are local authorities and qualified engineers aware of and responding to what's happening? Would people who work in robo-kill tech choose safe alternatives if they could? Who can you pass this flyer on to? (Be ***create*-ive!**).
