

TI One Voice

Community Overview Report

Generated on 19 July 2026 at 02:09 UTC

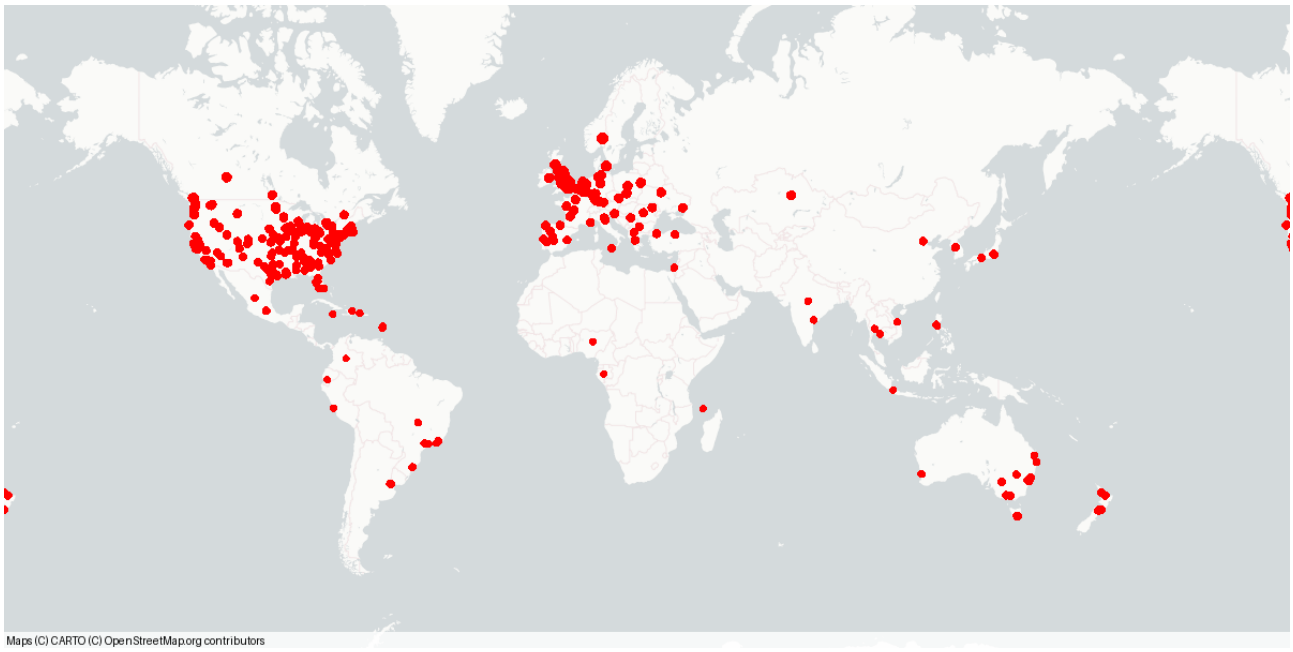

Total Signatories: 373

This document lists every signatory of the TI One Voice Declaration together with their reported manifestations of targeting, geographic location, and the year their targeting began. The aggregate statistics that follow demonstrate the striking consistency of reported symptoms across independent individuals worldwide — evidence that the Targeted Individual phenomenon is real and systematic.

Names are shown only for signatories who have opted in to sharing their real name in the platform's privacy settings. All other signatories are identified by username only.

1. Signatory World Map

The map below shows the geographic distribution of all signatories. Red markers indicate signatories with city-level location data; purple markers indicate approximate locations based on country only.

Map tiles © CARTO. Marker positions may be approximate.

3. Reported Manifestations

The following table shows how many signatories independently report each type of manifestation. The convergence of reports across unrelated individuals in different countries is a strong indicator that these experiences are not isolated.

Manifestation	Reports	% of Signatories
Electronic Harassment	323	86.6%
Directed Energy Weapons	307	82.3%
