YOU HAVE PURPOSE

Life is what you make of it, it can be anything you want it to be.
A human being enters this realm of experience to fully live his/her life according to given purposes that are sacred.
Two main types of purposes exists within the field of human intellectual experience.

Identical Purposes and Unique Purposes.

What I have for you is a design that embraces the substance and potential posited in Identical Purposes first, as the governor design of a human being, as a complement.

What I have for you is a design that embraces the substance and potential posited in Unique Purposes second, as the governor design of a human being.
These two principal purposes manifests in the form of a complete holistic purposeful defined design that is definite in its purpose. This is what is identical to every individual human being and what is unique to the human specie within this realm of multifarious species that coexist, are interdependent and exists in symbiosis.

This design is a business structured design, is an activities design, an activities structured design. Life is an activity filled with activities.
As this Human Civilization, we have a need to develop and establish The Activities Structured Design of Identical Purposes.
The Activities Structured Design of Identical Purposes is the core knowledge system that gives rise to all unique possibilities: Unique Purposes.
You and I, each one of us is an individual and each individual is unique.
As this Human Civilization, we have a need to develop and establish both The Activities Structured Design of Identical Purposes and The Activities Structured Design of Unique Purposes, simultaneously and respectively, as a complement to The Highest Vision of Humankind.
You ad I, We celebrate the Identical Purpose and the Unique Purpose within this creative potential field of experience, individually, in combination, collectively and simultaneously.

I have a better option for a better type of lifestyle for You!
I and You, WE have a better option for a better type of lifestyle for You and I!

1st Purpose of this document

This is a success story.
I am making multiple business propositions.
I am presenting a criminal complaint that must be resolved, immediately.
I am a problem-solver and innovator, here-with I present solutions.
Genre: Business Administration. I am doing business consulting.
My copyright for this administrative purpose is:
Ingenuity © Business Architecture 2025.
The art of manifestation where you self-recognize you: the co-creator that is lightful, enlightened and connected to the Life Source Energy of Creation itself.
I Love the Word: Gift, reason be it, life itself is a gift filled with magnificent truths.
Everything I write about is presented as a complement in an all-round manner.
I complement the subject I write about, I complement the scious aware thoughtful individual that reads the complement, I complement you: the eternal light being.
I am inspired in every moment, and I always write a complement when I have received beautiful impressions given by another individual.
This is my complement for you!

Interpretation of this document

Know-how, insight and confidence posited in a complement.
Activities: activity cycles and actions; activity cycle flow processes and actions; actors and actions.
The focus is on the activities: activity cycles and actions plus activity cycle flow processes and actions that is defined as the situation. The reasons, causes and the effects observed. None of the statements is aimed at a specific person or actor, only the role and actions by principle of the actor in this situation, and the actor is referred to as a perpetrator/wrongdoer. The persons or actors are an integral part of the inevitable conclusions, because this situation is confined within the human world. The information sources that I have included as research materials is an accurate correct account of statements about specific points of inquiry that are factually correct in nature, to which I apply the experiential method of interpretation and inquiry as a researcher and student.
The subject of conscious concern for all people.
The situation is critical but few people seem to be thinking critically about it. Or are you? We must do revision of what we think we know.
Education: The best educator is life itself; the role and responsibility you step into as your own educator to become educated; your own education is the best education for you; you self-educate. The know-how is inside of you. You are a source of inspiration.

2nd Purpose of this document

Know this outcome: The manifestation of the highest vision of humankind.
I employ critical thinking and logical reasoning skills as a researcher.
This document is written in the genre: solution-oriented sociology, written in the style of writing: positive constructive epistemology. This document has multiple purposes as an actual account of statements. This document can be used as a complement in support of the situation presented within the analysis itself.

Assignment of cause: attribution to publication before publication: in order

1. This document is used for the purpose of research and education, if and when I choose to do so, first. I am using it for this purpose.
2. I am providing this document to the Administrative, Executive and Judicial Branch of The USA Military Industrial Complex and Earth Military Industrial Complex, respectively, as my actual evidence. Within this report I identify multiple crimes that must be investigated, corrected and remedied.
I am using it for this purpose.
3. This document can be used for the purpose of an executive guideline and instruction in practice within the field of community and health science, sociology, economics and justice, if and when I choose to do so.
Research based on factual evidence is actionable.
I am using it for this purpose.

Note: I put emphasis on the two causes that are underlined.

BUSINESS STRUCTURED DESIGN | THE PEOPLE'S VICTORY

The following list of business proposals are on the director's table for consideration and activation.
Each respective business proposition bares the quality of character: Permanent product and service provision. Meaning: These products and services are necessary, useful, beneficial, important, authentic and they instil the principles of unity within humanity, the value of the meaning of the highest vision of human civilization.

1. My TimeWAVER Wellness Attribution and Proposal of Support

Two health and wellness self-heal arts platforms are adequate as a modality that can be implemented where each individual participant in each respective activity perform the following important action: you heal yourself and you get to know yourself better.

TimeWAVER | Information Field Medicine Practice
This instrument is multi-functional and very useful as an all-round knowledge-based analytical tool, diagnostic tool and remedy tool. Human beings can greatly benefit from the multiple applications within this technology, provided person to person as a first aid, systemic aid and holistic aid approach to self-healing.

I'd like to introduce, develop, and establish this wellness attribution platform first, followed by the second.

▪ Please read this introduction document:
Wellness Industry Business Proposal for the Earth Military Industrial Complex
https://drive.google.com/file/d/1ve96OlSDBZB4scgmMlHgjrBHM-BHIyWE/view?usp=sharing
Note: I am offering these two remedy solutions as high quality modalities that can be integrated into the existing health and wellness provision for the entire worldwide military organization. We will write a health plan portfolio in partnership and provide this health support provision.

2. My Biomagnetism Wellness Attribution and Proposal of Support

BIOMAGNETIC ENERGY MEDICINE Service
Qualities of character that give meaning to the art of energy healing with magnetic positive energies within the Earth's magnetic field of resonance, innate within you. Healing Activities and Modalities that are essential for well-being in singular form standalone and in a combined manner make a difference for the betterment of the human condition, the human experience and the remedial process outcome: the art of self-healing using magnets.

This introduction is included in the Wellness Industry Business Proposal for the Earth Military Industrial Complex document. See above.

3. The Unacknowledged Special Access Targeted Individual Program

Complaint and Notice of Liability - Compensation for Disability
Plaintiff/Benefactor: Mr Nicolas Jean-Pierre du Plessis
Country: REPUBLIC OF SOUTH AFRICA – South African Citizen
Identification number: 7612115019080

Ingenuity © Knowledge Architecture 2025

My Request:
I am reporting a crime perpetrated by the USA Military Industrial Complex.
Kindly investigate this incident, multiple incidents spanning the course of my entire lifetime.
I am seeking legal and financial assistance for my personal injury situation.
Within this report I identify and define the problem for which I provide the solution.
Here is my testimony:
▪ Targeted Justice - Neuro-Strike Weapon System - PROOF
https://drive.google.com/file/d/1pvFkiLtREJKB6sYilD5nJp-s6wbGZef5/view?usp=sharing
Note: My Targeted Individual Testimony – PROOF that I am a targeted individual that is actively being abused and tortured. I have many scars that prove these facts.
▪ Executive Letter to the Advisory Board at Targeted Justice
https://drive.google.com/file/d/16iHbuNzEhB4yg3Etmy9dI7ThtQHSM_IJ/view?usp=sharing
Note: This is my proposition for the targeted individual program that can be brought to a complete halt, here and now.

Ask yourself this question:
ARE YOU MAKING THE SITUATION BETTER, OR, ARE YOU MAKING THE SITUATION WORSE?
Here is a problem and I have the solution to this problem.
I am making an Agreement that is best suited and most appropriate, that addresses the Targeted Individuals' and the Perpetrators' dilemma, respectively, simultaneously in a holistic manner.
First and foremost above all: stop doing these acts of abuse and torture in relation to me. Thank you kindly.
Included in this body of text is what I expect the outcomes are, what it is I need from you, provided by the Schriever Military Base Executive Team and by extension The United States of America Military Industrial Complex and Earth Military Industrial Complex, in its totality.

4. Justice For Humankind | Divine Justice On Earth

The means to correct the wrongdoings perpetrated on myself by the Earth Military Industrial Complex.
Take on this point of view:
We know that the existing establishment tricked everybody alike, set-up this design of tyranny that tricked us all into doing the unthinkable.
This trick is treacherous, it is a trap, you are the target trapped by the trick.
I have a solution that is the highest vision, the exception above and beyond all man-made fiction-based visions that are artificial realities, produced and presented in a virtual reality and mixed reality format, a real-time live alternative reality show that no human being wants. The information is fiction, the situation it imposes is real.
I: The Natural Justice Prosecutor provide the best suited solution for all parties within this equation: the design of destruction.
This is what I offer as my solution, from me to you. I know every person on Earth does not want any of the destruction, we all want a better beautiful world where every person's wishes are fulfilled. You want to step into a new reality that is your unique dream life reality perfect for you. Yes, this is possible and here it is.
This outcome is ultimately a universal manuscript publication that includes written attributions provided by multiple authors, formulated as the standard benefits package per person as a compensation package for all wrong-doings imposed on and perpetrated unto every human being, the total result, the final result. All human beings are recipients of this compensation package, including you.

5. Product and Service | Business Communication Learning Programme

Communicative Language Skills Training in Business English Education | Activity.

Area of expertise: Communication and Self-expression in the Arts.

Business Communication Learning Platform

The main theme is Communication: written communication and verbal

communication, the practical application of the fine arts through self-expression, utilizing technology based information tools, knowledge systems and software; and actual art-oriented activities that are tactual, together form a cohesive unit that help the participant develop multifarious skill-sets in their own capacity during leisure time.

An activity that integrates the fine art of writing, elocution and illustration.

I have written a full document collection that compose this learning programme.

Recruitment and training of employees is one of the employer management tools and content management tools that are inseparable tools that has an organic synergy.

This project is a publication in knowledge systems, a learning activities programme, employer of large groups of people, provider of skills training modalities and publications to a large group of people, profitable business prospect, and the cherry on the cake is: a new software can and will be developed for this platform.

I will be developing a new software for this specific purpose.

All types of knowledge systems can be communicated using this mechanism. Potential and Opportunity for You and Me, and every person we involve in this cycle of activity of knowledge creation: the emerging software and knowledge system archive.

Quote

I am interested in: current and future student engagement platforms.

I have formulated and refined a Business English Learning Program that integrates Learning Methods, Language Tools and Business English Learning Materials that “hit the sweet spot” in respect of the provision of an interactive education program designed for the virtual classroom setting. This modality is a perfect fit for face-to-face lessons inside the Earth Military Industrial Complex Organisation and/or at selected venues in all regions worldwide. The greater purpose of this communication learning program is to bring together active and retired and prospective military personnel from all divisions everywhere on Earth as participants and benefactors within one complete coherent interactive platform.

I am offering this speciality learning program as the writer, co-author, publisher and educator, as the director of education that directs and manages this education product and service provision.

Quote
About languages: 7,000 languages.
There are approximately 7,000 languages spoken in the world today. Estimates vary slightly, with sources reporting between 7,139 and 7,164 languages currently in use. According to the World Atlas of Languages, there are 8,324 languages documented, but around 7,000 are actively spoken. This statistic is provided by the Microsoft Search Engine on this calendar date: Sunday 30 March 2025.
Observation: I did a similar search on the internet 4 to 5 years ago and that result showed approximately 6,500 languages in total. Think about the leap in numbers and what the obvious implication of this result is. How can 500 new languages come into existence in the short term timeline of 5 years?
All data is manipulated to a varying degree.
The Internet: World Wide Web: The Net is a Military-Source Intranet, one of many types of Intranets that exists, within the archive of all information within this Earth Realm. The entire Military-Source Archive is based in the fiction genre, and it is totally unnecessary, it need not exist.
Here is a URL link for more information:

Ask this question: Is there a need for this type of learning program for this organization of people that receive an education and participate in many types of learning and skills training programs throughout the course of enrollment in the military?
Answer: Yes you do have a need for this learning program. Communication is one of the main tools in the toolbox. Within the archive of knowledge systems, the subject of information and communication, respectively, has room for improvement on every level of development in education. You and I, We all need to communicate directly, be straightforward, get our messages across clearly, share ideas, be creative, be supportive and provide complements as communicators.
Reason: We live in a world that currently accommodates around 7,000 languages spread across all languages and alphabets on record within the archive of all information. Each respective individual knows and applies his/her first language, and the majority of people are multi-lingual, we live and express: communicate in a multi-lingual civilization setting that is dynamic. Language is an art, is a design that is developing, growing and is in use for all intended purposes.
In any language, how many words does any individual know and actually use/apply in that language?
Probably around 7,000 words on average.
Think about this result and its implication as it pertains to the acquisition of information and knowledge systems and the communication of information and knowledge systems.
I think it is a great idea to develop and implement my learning program platform for best results. Initially it is written in the ABC Alphabet, in the English Language, and all other widely spoken alphabet languages will be included for further development of this platform.

6. Product and Service | GENRE | Humanity Learning Programme

This is an introduction to an education modality that complements the humanity genre. The field of knowledge, the knowledge system that composes and complements the word: humanity.
In-method of making and establishing the emerging knowledge economy with the addition of the existing knowledge economy.

Ingenuity © Knowledge Architecture 2025

Bright ideas that make-up the complete vision of a human being

Making sense of the meaning of humanity, the human social living system and human civilization as a whole. You: the individual give meaning to the word: humanity.
The meaning you attribute to life where you recognize your true innate-self.
Method and approach: the practical application of knowledge by means of the arts.
The holistic method of thinking applied looking at the in-method of making a perceived reality through multiple perspectives posited in know-how.
Recognize that you are a co-creator within this Earth Realm and Beyond.
We exist within this realm and we exist beyond this realm.
We initially exist beyond this realm. This is a perceived reality. Direct you perception.

This project is a publication in knowledge systems, a learning activities programme, employer of large groups of people, provider of skills training modalities and publications to a large group of people, profitable business prospect, and the cherry on the cake is: a new software can and will be developed for this platform.

I will be developing a new software for this specific purpose.

All types of knowledge systems can be communicated using this mechanism. Potential and Opportunity for You and Me, and every person we involve in this cycle of activity of knowledge creation: the emerging software and knowledge system archive.

This learning program complements the above-mentioned: Product and Service | Business Communication Learning Programme.

Prospective students can enrol in any of these two learning programs, or students can start with the Business Communication Learning Programme first, followed by the GENRE | Humanity Learning Programme. I recommend that the entire group of participants embrace both learning programs in this sequential order.

7. GENRE | Humanity PUBLICATIONS

The task:
The author as the publisher.
My written proposition, this introduction that is the overview of my first set of publications. Any original written essay, can be written into any and all types of genres, sub-genres and styles of writing, including all arts presentations, all media and multi-media formats. I am writing and completing these two sets of bundles.
Two phases and two sets of publications.

First phase and publication: my exemplar individual actual story in a series of chronicles. Written by me as an individual author. This is a compiled bundle of original text. A singular form publication.
Second phase and publication: the compilation of individual actual stories in a series of chronicles.
The text presented are written and provided by many individual authors, including you. This is a compiled bundle of original text. A plural form publication.

Provisional publication titles:
1. The highest vision of humankind COMPLEMENT
Title: THE AGE OF THE INDIVIDUAL

2. Self Governance Document Bundle
Title: THE INDIVIDUAL YOU

Ingenuity © Knowledge Architecture 2025

Description of the outcome:
The first two publications as a set of interrelations, two publications that complement each-other as standalone publications, to be made complete in the Humanity Genre.
The second bundle is posited in the first bundle, it is a publication and it is a learning programme that fully addresses the ingenuity and meanings presented within the first bundle that is the source manuscript.
Prospective students can enrol in the GENRE | Humanity Learning Programme (as defined above), and if they so choose attribute to this publication.

Following next is my knowledge economy proposition to all human beings, that can attribute written text throughout the course of their lifetimes for this knowledge archive.

8. The Activity of Information Governance | Gatherer of Ingenuity

This activity is meant for all people of this Earth, the entire human family.
I can start with the Earth Military Industrial Complex Organisation and/or the circle of originators of information – authors, and then set forth to expand this provision to provide it to all people of this Earth.

My written recommendations take-on many forms for the complete makeover of governance that complements ingenuity and the use of information governance within the context of: **'You The Individual Self-Govern and We The People | Human Civilization Governs Humanity'**.

Quote
Recognize that The Individual: You are Important, Divine and Loved by Creation and all of Existence!

- Nicolas | The People's Victory

End quote

My Recommendation
Writing The Story Of Humanity
Where is the humanity in Society? When did it disappear?
Has anyone written the manuscript that define humanity for humanity?

Writing Task: Genre | Humanity
The proposed 3-volumes writing task for human beings:
1. You the individual human being need to write your own unique life story.
2. You the individual human being need to write your attribution about humanity for humanity, for this human civilization.
3. You the individual human being need to write your civilization design attribution for humanity, for this human civilization.
You define yourself, you tell your unique story, do so in writing.
Every story is a success story attributed to a genre of your choice.
The humanity genre is appropriate and definite in its purpose for you and humankind as a civilization.
I think it is a bright idea for every individual person to write these three defined stories to establish the sense of Self within each divine human being that give meaning to life, to humanity.
A meaningful interpretation of what it is like to be a human being, what the meaning of humanity truly is, the mirror image of self that is you: the individual human being.

Ingenuity © Knowledge Architecture 2025

What To Do and How To Do: Direct Your Mental Energy

Visualize a round table.
This is the round table for human civilization: the round table of human beings.
You are a human being, you have a chair at this table.
You sit in your chair.
Three defined manuscript provisions are on the table for you.
▪ In front of you on the table is what you write into existence, this is your attribution of ingenuity for the archive of all information for humankind.
▪ In front of you on the table as a complement to your written ingenuity, is a bundle of manuscripts that define what a human being is, the actual story of this human civilization, the meaning of humanity: the highest vision of humankind for humanity as a complement.
▪ In front of you on the table as a complement to your written ingenuity, is a bundle of manuscripts that I wrote for you.

Next I want to address specific matters of importance within the list of business proposals, for which I provide the best option as a means to establish harmony within the social sphere of this human civilization. This is for you!

My intention is to share ideas that are helpful in the effort to make life better for all people everywhere
Main points:
1. Do know that everything on Earth that we need exists, is written and we must take stock of it all, select what we want and give it to everybody.
We let go of what we do not want.
2. Remedies take on many forms in respect of wellness, a better type of lifestyle and economic value system, the outcome we all seek.
3. I propose the development and establishment of the value system of abundance inside my documents.
4. Forthcoming, I will publish and provide my solutions to communities. My publication outline is unique in that I publish worldwide and every person on Earth is a direct recipient benefactor.
5. My solutions are written products and services where I recognize you as a sovereign divine human being.

You can read the multiple documents I have sent your way that I wrote to make sense of the situation we are facing as a civilization.
I am a provider of solutions.

We Are Making A New Divine Agreement For Human Civilization!

As a community of health conscious and aware human beings, we have a lot to be grateful for, this is an exciting time to be alive and well.
Let’s work together and start this journey, here. I value your input, feedback and guidance. Have a great day filled with miracles and joy!

Think: The Obvious Method Of Thinking
People through wilful ignorance and lack of interest to subjectively analyze any phenomenon are missing out on all the gifts that are miracles within existence itself!
Free Will is strong-willed: you are wilful as an individual that practice and live a life of free will!

All is well, it is individuals such as You and I that Make The Difference!
THE OUTCOME IS SELF-EVIDENT!

You are the source of knowledge, you are a knowledge barer and you share the knowledge you have, you are knowledgeable, knowledge is actionable, put your knowledge to task: in-method of making knowledge definite in its purpose and intention.
The Intentionality Of Creative Energies In Symbiosis!

9. The Value System of Abundance Publication and Abundance Economy Design

I have my own authentic archive of ingenuity.
This is a value system manuscript that I am writing for publication.
I have my own complete financial administration bundle of documents that compose a treasury business model design and value system with a standard trade and exchange information framework structure.

Introduction to The Abundance Economy Design PROVISION
TRUTH | LOVE-BASED INTEGRATED FREE WILL SYSTEM, you start out having everything and you will always have everything. This system is benevolent, life-giving, creative and abundant.

Given Standard Livelihood Gift For Humanity
The new 'Exponential Economy Design For Humankind'.

Exponential ECONOMY | Accumulate

A thought that is an idea: first aid economics solution: a bag full of cash for every human being, here and now. This bag full of cash is always full. You and I, We can take care of ourselves on our individual paths in this life: life is a gift: this gift is the actual value: the value of life itself complemented by the language of mathematics: economics is a language in mathematics, finite, correct and complete, here and now. I am the author of this economic model for this purpose.
The Abundance Economy Design itself is a standalone economy and is an inherent and integral source of actual value in abundance that can be considered as a new economy to be established where every human being is a recipient benefactor of these resources, that are active during the individual person's entire lifetime on Earth.

10. The USA Military Industrial Complex - Employer
I'd like to explore job opportunities provided by your organization.
You are welcome to present an offer for a suitable position for me on the executive board of directors. Provisional position and task title: Change Director.

BUSINESS STRUCTURED DESIGN | THE PEOPLE'S VICTORY

My Bookkeeping System for this purpose:
All transactions will be actuated within the domain of the Positive Economy.
Only plus + (positive numbers) are applied within these calculations; there are no minus – (negative numbers).
The mathematical equation is composed of number totals of prospective clients, that will receive my products and services. The estimated worldwide total number of military employees is 250,000,000 (million) people. Included is a selected price per product or service as an example. You do the mathematical calculation. This group of people will receive benefits posited in these products and services in a permanent capacity, according to each respective business model design. Each individual person will enjoy the benefits and values given. The estimated totals that are indicators used to calculate the quantity of products and services needed for these respective

provisions. The multiplier applied renders results that give you a clear indication of the proportions of provisions of products and services, respectively. This is useful for designing and planning the workbook for these respective projects, in-method of making, where I involve each recipient in this process, within this activity cycle. Within these multipliers I use the world monetary system reserve currency: US$.
This is a portfolio of benefits that will be manufactured and delivered directly to the recipients.
The following set of provisions compose a complete knowledge system development with its own unique progression in the generation of knowledge in the arts.
These are standalone knowledge generation, education and publication projects, and they form a cohesive synergy in any combination and as a whole. I am an employer and I offer these employment opportunities to your entire organization of employees.
These projects are business models that are long-term life skills activities.
Knowledge system development – set of provisions:
4. Product and Service │ Business Communication Learning Programme
5. Product and Service │ GENRE | Humanity Learning Programme
6. GENRE | Humanity PUBLICATIONS
7. The Activity of Information Governance | Gatherer of Ingenuity

Full list of provisions:

1. My TimeWAVER Wellness Attribution and Proposal of Support

Example Price Plan per Person: Per annum calculation: 12 instalments
E. $1,560/year divided by 52 weeks of the year, per month fee is $130, per week fee is: $32.5; per day fee is: $4,64
Multiplier per annum: 250,000,000 people times $1,560 per annum price plan = $390,000,000,000 (billion)

2. My Biomagnetism Wellness Attribution and Proposal of Support

Example Price Plan per Person: Per annum calculation: 11 instalments
44 sessions times $50 per year = $2,200 in total
$2,200/year divided by 44 weeks of the year, per month fee is $200, per week fee is: $50
Multiplier per annum: 250,000,000 people times $2,200 per annum price plan = $550,000,000,000 (billion)

3. The Unacknowledged Special Access Targeted Individual Program

The amount of $14 million in compensation will be given to victims of these targeted directed energy weapon attacks. To be calculated per person. The total will vary according to the targeted individual’s profile.
My provisional total is: $28,000,000 (million).

4. Justice For Humankind │ Divine Justice On Earth

Here are two multipliers that are applied within this equation.
This publication: this is a portfolio of benefits provided as a standard livelihood package per person.
This outcome is ultimately a universal manuscript publication that includes multiple authors, formulated as the standard benefits package per person as a compensation package: the existing debt economy value system final outcome + the newly established abundance principle value system final outcome that complements the positive economy. The result is, there are no debts whatsoever, we null and void the

Ingenuity © Knowledge Architecture 2025

debt economy value system in its entirety. We have the positive economy value system that is posited in the abundance principle value system.
The recipient group of people is the entire human population on Earth.
Estimated total of people: 8,000,000,000 (billion)
The portfolio of benefits: multiplier calculation once off per person: 8,000,000,000 people times the total monetary amount for the complete portfolio of benefits to be calculated and provided.
To be established in permanence as a sacred agreement for human civilization.
The universal given standard livelihood package: multiplier calculation per person per annum: 8,000,000,000 people times $1,000,000 per package = $8,000,000,000,000,000
The universal manuscript publication: multiplier calculation once off per person: 8,000,000,000 people times $100 per manuscript = $800,000,000,000 (billion)

5. Product and Service | Business Communication Learning Programme

Applying the worldwide total number of military employees is 250,000,000 (million) people within this equation.
Price per learning program publication per person is $1,260 as per my initial budget plan formulation. We can increase this total to an appropriate new total, for example: $3,000.
Multiplier calculation once off per person: 250,000,000 people times $3,000 per person price plan = $750,000,000,000 (billion)

6. Product and Service | GENRE | Humanity Learning Programme

Applying the worldwide total number of military employees is 250,000,000 (million) people within this equation.
Price per learning program publication per person is $3,000.
Multiplier calculation once off per person: 250,000,000 people times $3,000 per person price plan = $750,000,000,000 (billion)
I will be expanding this provision to include the entire human population on Earth.
The universal learning program publication: multiplier calculation once off per person: 8,000,000,000 people times $3,000 per manuscript = $24,000,000,000,000 (trillion)

7. GENRE | Humanity PUBLICATIONS

Applying the worldwide total number of military employees is 250,000,000 (million) people within this equation.
Price per learning program publication per person is $3,000.
Multiplier calculation once off per person: 250,000,000 people times $3,000 per person price plan = $750,000,000,000 (billion)
I will be expanding this provision to include the entire human population on Earth.
The universal learning program publication: multiplier calculation once off per person: 8,000,000,000 people times $3,000 per manuscript = $24,000,000,000,000 (trillion)

8. The Activity of Information Governance | Gatherer of Ingenuity

Applying the worldwide total number of military employees is 250,000,000 (million) people within this equation.

10. The USA Military Industrial Complex - Employer

A request: You are welcome to present an offer for a suitable position for me on the executive board of directors. Provisional task title: Change Director.
What type of remuneration employment package do you offer, provide to the individual business consultant: me?

This Human Civilization – How Many People Exist Inside Earth Today
What is the correct total number of human beings within this human civilization.
Ask the question: How many people are alive today, on this day: 15 April 2025?
The holo-intelligent answer is: 5,950,000,000 to 6,000,000,000 (billion) in total.

Overview of BUSINESS STRUCTURED DESIGN | THE PEOPLE'S VICTORY

HIGH STANDARD | HIGH QUALITY | HIGH QUANTITY PRODUCTS AND SERVICES

What you can expect to receive and enjoy when you embrace these opportunities:
Recognize that the nine business proposals are 'high standard - high quality - high quantity' products and services that make a positive difference in the lives of people that choose to participate in these activities. Each respective capital investment turnover economic result, ranges from millions to billions to trillions of US Dollars.
If and when the Earth Military Industrial Complex makes the decision to employ and invest in my business proposals, it will be noted that my portfolio of resources is worth many trillions of US Dollars.
I have provided the basic multiplier totals as an estimated total. We will finalise the actual price plans, financial management portfolio and exchange of capital investments during our meetings.
This portfolio of business opportunities stimulates growth that enable the personal development of people, it promotes a better type of balanced lifestyle, stimulates multiple respective markets, economies and industries as a support structure and complement.

Ingenuity © Knowledge Architecture 2025

We have a lot to look forward to when we Recognize, Design and Actuate this portfolio of business opportunities! This is a success story and you: the individual are the most important source of inspiration that attribute to and celebrate this activity!
I manufacture and provide the complete product and service as a designer.
The provision of high quality products and services in high quantity.
I am the originator of many designs that I establish in multifarious proportions.
I am the barer of products, services, markets, economies, industries that are benefits that You and I have, that We make and provide to everybody within this equation, to you, directly.

Outcomes and Continuity
We have this new better multifaceted option on the director's table and this is a success story. Please let me know what you think of this overall proposal filled with business opportunities, nine opportunities in total. Each respective opportunity is on the drawing-board for further development and completion.
Let's start this journey here and now.

ALL THE BEST FOR YOU AND WE AS A COLLECTIVE HUMAN CIVILIZATION!

2. THE UNACKNOWLEDGED SPECIAL ACCESS TARGETED INDIVIDUAL PROGRAM

Problem-Solution Situation

The military industrial complex, this industry: malevolent structured design, this activity stands in the position of contradiction in direct relation to the benevolent structured design of creation within this Earth Realm.
My message to you: I am being attacked by the military industrial complex and its associated clandestine network through multiple vectors.
This must stop immediately and this will never happen again. Thank You!
The solution: Be kind, do the necessary, do like you are supposed to do, embrace your God-given benevolent purposes and gifts, always make the situation better, never worse.

Next I share bright ideas that make the situation better for You and I.

Know The Outcome

WE HAVE EVERYTHING WE NEED to bring about immediate changes, here and now.
We must formulate, produce, package and deliver the complete solution for all people everywhere.

Key Note for the Divine Justice Manifestation

Judgement day is forthcoming.
Meaning of Judgement within this context of interpretation and comprehension:
We simply let go of everything we do not want, clean-up the waste products and focus our attention on what we want for everybody.
My intention is to bring about the highest humanity and health sovereignty standard and justice that recognizes the unalienable natural human rights of bodily autonomy and informed consent of the individual human being that respects the highest standard of natural human rights, lifestyle activities, health-care and health-freedom for all individuals. You are important, you are divine and you are loved.
We have a reason to celebrate: humanity!

The Earth Incorporated Military Industrial Complex

What is next and how to best approach this group of people: you, with loving-kindness and understanding what you are doing, what you must never do, what changes you need to act upon to make the situation better, what other options are available for you to embrace as a new beginning after you let go of and purify the wrongdoings.
I intend to expand the initial point of induction at the Schriever Military Base, from here coordinate and organize the entire USA Military Complex and then the remainder of the Earth's Complete Military Network.

The design of destruction value system defined

The business model: the design of destruction industry: the Earth Incorporated Military Industrial Complex generates its economic revenue by means of the manufacture and sale/deployment/use of anti-life destruction tools and services that destroy everything in its path.
The truth is this industry has absolutely no value whatsoever.
Ever heard of the expression: "all wars are banker's wars?" In reality, there is no such thing as a war, this is merely a psychological mind control program narrative of abuse and its product is destruction. It is a fact that this mechanism and approach is used for population control, depopulation and distraction/cover-up of what is actually happening, actual phenomenon is actively being manipulated, concealed and erased, hidden from people, out of reach. Through deception that are lies, narratives are written in all media and distributed to feed the flow of open source information, that takes on the form of false information as propaganda, is provided to people for consumption. This process of information generation, provision and adoption of information becomes a real-time phenomenon in the mind of a person.
Life itself, our collective reality as is, is scripted, to make it worse not better, and a second layer of deception is overlaid on-top of this reality in the form of the Internet: Cyberspace domain, that is a mere copy of the real-life reality. This is a type of mind control program and its purpose is to confuse and brainwash people by means of an information overload.
The word: soldier, what is the meaning of this word? Meaning: people are bought and sold as slaves to die in the name of a lie, sold to die for no cause, no reason.
This business model is human centered, generates labour intensive and capital intensive revenue on top of humans, uses humans as objects, use, consume, exterminate, take and sell human body parts that is one of the most expensive and highest earning products in the world. Did you know that?
Warfare takes on many forms.
Furthermore, this malevolent tool destroys economies and this process of destruction, reconstruction and expansion of products and services give rise to more malevolent business models that is an extension of this main industry. These plans are written, constructed over the course of time, to be deployed in the future. A 'play-book workbook' activity with products and services are brought into the public sphere from the background where it is initially created, long before it is released.
This industry literally behaves like a parasite that consumes its host and ultimately self-destructs in the end. Multiple economies are interwoven.
One such economy is the money magic spell trust game economy: the financial system, that is a debt-based economy that creates money out of thin air.
Many economies exist that are overt and many that are covert/clandestine, some economies are hidden in plain sight, are kept secret.
The Unacknowledged Special Access Targeted Individual Program Offenders/Abusers business model creates even more revenue out of thin air. The amount of $14 million in compensation given to victims of these targeted directed energy weapon attacks is

Ingenuity © Knowledge Architecture 2025

a screaming example of how sinister and evil these people: you are. Do the mathematical calculation: for every hit delivered to a victim, the military industrial complex has to payout $14 million per hit to the victim/recipient. In the background, people's lives are hanging in the balance, they are being gambled upon like a game at the casino. This is outrageous, ridiculous, unnecessary and fortunate for victims. Thankfully victims are guaranteed a full payout. With this result in hand, as is, it is fortunate the monetary value was produced for the victims.
As a complement, in support of the health benefit plan to be considered for victims: My wellness business proposition complements the health support provision needed for each respective individual within this equation, including You.
This fictional man-made artificial reality game has no value whatsoever.
In reality, parallel to this fictional man-made artificial reality game, actual value exists untouched.
I am the originator of the abundance principle, the abundance economy system.
This proposition is on the director's table. Business Is Benefits!
We can explore this opportunity forthcoming.

The situation explained

The United States of America Military Industrial Complex and other military/clandestine/intelligence/law enforcement factions within the worldwide network has been targeting me for many years, starting at birth, and this has intensified over the years up to today. I caught this industry doing it to me. This will stop in its tracks, effective immediate. Thank you for caring and understanding.

I am making a business proposition and I present this proposal to you: military personnel for consideration.
I am a targeted individual and I personally take responsibility for this situation, I provide the adequate solution for every individual person involved, including you.
I am the author of my own authority, I write and manage my own administration, I manage my own data. I am a responsible individual.
I am injured and I need help in the form of remedies that support my self-healing journey to full recovery, perfect health, wellness and longevity. I do research and development in the field of community and health science, the real science, the actual knowledge systems that are correct and useful in its application, that makes the health condition better, always, with no exception.

This is what I expect the outcomes are, provided by the Schriever Military Base Executive Team and the entire USA Military Complex Executive Team

First and foremost above all: stop doing these acts of abuse and torture in relation to me. Thank you kindly.
I expect the following:
1. The data information record that was written about me is done without my knowledge or consent. I know. This is a crime and I forgive you: the individuals that has done this. To finalise this wrongdoing I simply want the data controller to provide a complete master copy of this content bundle, give it to me stored on a hard drive. Furthermore, the data controller must then delete/erase the entire record about me. No new record of me will be created. I will present and attribute my own record for this archive. I recommend: you can do so in and of yourself for yourself too. This is a significant decision that affects change, that all individuals must embrace in respect of the highest standard of information use, respect and privacy.

Ingenuity © Knowledge Architecture 2025

2. The multiple directed energy weapon attacks that occurred, the individuals that committed this crime, I forgive you. This military base and its infrastructure is equipped to help me identify the internal and other external criminals in relation to me, worldwide. I ask that you assist me with the analysis, investigation and solution to this problem, as well as your own problem, respectively. I am willing to wave this criminal act, meaning: I will not file an administrative criminal complaint for prosecution and punishment within the The United States of America Military Industrial Complex Justice System or The United States of America Justice system, respectively. In doing so I provide the best option: a clean slate for all perpetrators in relation to me. This is a civil matter, so let's keep it civilized amongst each other with the highest moral and ethical excellence standard. Love yourself and love existence.

3. I want a written letter of acknowledgement given by the Commander in Chief of The United States of America Military Industrial Complex, the individual whom is responsible for the organisation of people within the confines and under the auspices of The United States of America Military Industrial Complex Corporation. Within this letter you must recognise the facts that I present as my agreement in relation to The United States of America Military Industrial Complex Corporation, and acknowledge the wrongdoings perpetrated on me. Kindly include a complement in a positive light that is supportive of my individual divine sovereignty as a respected and loved human being. Thank you kindly.

4. The Financial Conclusion:
As a targeted individual victim I am entitled to monetary compensation.
Acts of Torture: how much is it worth?
Example:
Quote
CACI was ordered to pay each of the men $3 million in compensatory damages and $11 million in punitive damages.
End quote
Note: I am of the volition that when we stop this type of abuse and torture in its tracks entirely, remove all these destructive tools from the face of this Earth, we do need to help the victims in a holistic manner. Provide the remedies, social experiences, holistic counselling and monetary compensation. A compensatory damages package payable to targeted individuals is a necessity. As with the example provided above, victims were given $14 million each. This seems to be a fair monetary total. I am entitled to this amount in monetary compensation, for each respective attack that I suffer. I recall two separate heavy and damaging attacks, there are more, and I expect compensation for each and all attacks.
The sum total compensation for these two attacks amount is: $28 million.
I am happy with this total amount as a once off payment to me. Thank you!
You can write the financial transaction document and conduct the transaction.
Please send this financial document together with your letter of acknowledgement to me in print via a courier delivery service, or an actual US Military personnel member can deliver the documentation in person. Also, I can visit you at your military base. You decide.
In respect of the personal injuries that I am suffering, you must acknowledge the fact that I have a disability.
THE RIGHTS OF PERSONS WITH DISABILITIES APPLIES TO MY SITUATION.
The monetary capital total amount payout administered by the United States of America Government: The United States of America Military Industrial Complex Corporation, transferred directly into the disabled person's bank account can be applied, effective immediate.
Provisional total monetary amount: $28 million.

Ingenuity © Knowledge Architecture 2025

You must consult the financial department: bookkeeper, responsible for this administrative solution, decide what the appropriate total amount is, affirm and complete this transaction, effective immediate.
Kindly communicate the outcome in writing, bring the final decision to my attention. Then I will make my final decision and confirm my acceptance of the compensation package offered.

I am the author of my own authority:
To streamline and speed-up this legal-financial administrative task and process, kindly forward: send the administrative document to me that I have to fill-in that is used for the purpose of the provision of compensation for disability (if this applies in my situation). I will gladly assist you with the administrative tasks.

5. The defined four outcomes as stated above, are the utmost best manner to package this agreement in writing, to provide it to everybody concerned, to finalise the outcomes, recognize the truth. We have a reason to celebrate life.

6. For continuity of this agreement and the many propositions on the table for development and completion, here-with where I provide products and consultation services, I need you to provide a computer workstation unit that is directly connected to the USA Military: Schriever Military Base Intranet. For the purpose of information generation and information communication, from me to you as an organisation.

In view of this successful outcome for all individuals concerned, every person that is included within my agreement proposal, every person that formally enters into this agreement with me, everybody that helped me in this regard, I thank whole-kind-heartedly, and I want to provide a treat as a gift, a joyous celebration of life for all reasons. I propose that we organize an event where we can come together to become friends and have a good time. We can book a hotel or resort somewhere in any state in the USA, for this gathering. You decide and organise.
I will personally make all the arrangements in collaboration with an appointed team: everybody, to actualise this gift from me to you.
I will pay for all the expenses.
What are your thoughts about this proposition?
I value your input, feedback and guidance.

3. JUSTICE FOR HUMANKIND | DIVINE JUSTICE ON EARTH

This is my preliminary agreement draft:

In-Method Of Making An Agreement

SACRED AGREEMENT WRIT | Mr Nicolas Jean-Pierre du Plessis

THE DECLARATION OF HUMANKIND
Justice For Humankind | Divine Justice On Earth
ACTIVE AFFIRMATION

Information is neutral.
Information was never a problem, information is the solution.
The solution for you, the individual: be kind, do the necessary, do like you are supposed to do, embrace your God-given benevolent purposes and gifts, always make the situation better, never worse.
Have peace of mind and know that not one single person can be blamed for this phenomenon: the design of destruction: making the situation worse.
All people are victims of this master control plan that is a trick, is an illusion.
I forgive myself, I forgive you and I forgive all wrong-doings.
Every Human Being on Earth has a clean fresh start to a new life: Anew.

Justice For Humankind | Divine Justice On Earth ACTIVE

I here-with recognise this absolute truth: truths are what we have.

I acknowledge and confirm that I (your name) _____

will adhere to this agreement, I accept the natural justice business proposal offer provided by Mr Nicolas Jean-Pierre du Plessis. A complete neutral term, condition and state of fair affairs in the form of the highest excellence standard civilization design that is posited in the Benevolent Design of Earth Realm.
A meaningful interpretation of what it is like to be a human being, what the meaning of humanity truly is, the mirror image of self that is you: the individual human being.
The highest achievement that manifests the highest vision of humankind!
You are the means, you are loved and you are complete!

My recommendation addressed to The United States of America Military Industrial Complex

Please read the following page and think about what I am saying.

WHAT TO DO AND HOW TO DO IT!

SELF-EVIDENT
SPEAK TO THE SOURCE OF THE EVIDENCE

- Natural Justice Nicolas | The People's Victory

My message that gives you peace of mind: HOW TO DO IT

Life is an activity filled with many activities.
The perceived problem is clearly explained in the following manner:
The activity of destruction must end in its entirety.
This problematic activity is brought into existence by means of evil intentions, abuse, torture and anti-creation anti-human acts, all of which are posited in wrong thinking.
The evil-wrongdoers: you are abused individuals, abused from birth onward, and you abused people then turn around and abuse other people. Like attracts like.
The largest industry on Earth: the design of destruction has been created, it is brought into existence in a consistent manner, since the dawn of time within this magnificent Earth Realm we call home, and its absolute result is destruction, at its core it is based in malevolent behaviour.
We: You must stop doing this activity in its totality and clean up this waste product. Stop, turn around 180 degrees, disassemble the material infrastructure, products and services and totally dissolve it. Whilst we: you are doing this activity, we: you can generate and establish the right types of activities that are positive and constructive for the betterment of all life forms on Earth, at its core it is based in benevolent behaviour. I create and provide such opportunities.
The reality show we are living in is not making the human experience pleasure-able. Everything is surveilled, recorded and imposed on people without their knowledge nor consent. We are manipulated through mind control programs, we all have a digital twin version of ourselves that we did not agree to in writing with acceptance of realities outside/external to each respective divine human being.
You make and manifest your own individual reality.
This game of life is unnecessary and we can stop it in its tracks with ease.
The military industrial complex is literally playing with life and death, playing a computerized weaponized game with real peoples' lives in real-time, without people knowing that this is happening to them. This must end now, game over.
People with a predator-prey attitude cultivate a mindset of insanity.
The moment to heal all wrongdoings is now.

I have not entered into any agreement with any corporate entity or individual person, that gives evil doers free reign to conduct experiments on me or deploy weapon systems on me where I am the prey. I reject this agenda.

We must get-together and bring an absolute end to the military industrial complex once and for all. It must not have come into existence in the first instance, full stop, the end. Easy conclusion, smooth delivery and manifestation of outcomes.

The Discussion WE WILL HAVE

As an overview, the essay presented to you, this profound message: HOW TO DO IT, is meant for you, the individual, every individual and the sum total group of individuals, from me to you. I include WHAT TO DO within the statements. These statements are self-explanatory. Have an open mind and truly think about what I say.

What are your thoughts about this recommendation?
I value your input, feedback and guidance.

Here are more ideas: apply the logical method of thinking, with a focus on reasoning. Ask the right types of questions. Think about its implications, realise and recognise the answer, formulate the resulting outcome.
Have this idea in mind:
Before you start this process of thinking, please be reminded of the fact that you either make the situation better, or you make the situation worse, you decide.
When giving an answer, you have the choice of these four words, including: yes, maybe, no or never, and generate your own answer, unique to you.

Here are my questions, answers and outcomes:
1. Question: Who is the boss of the Earth's Complete Military Network - the military industrial complex industry – this fear-based abuse system of tyranny?
Answer: You do not know the answer to this question.
Outcome: Stop this insanity, let go of the industry and its false ideal, it fades away and it disappears. No human being on the face of this Earth will ever step up and claim to be the boss of this construct.

2. Question: Do you want the products that are the results of wrong actions that make the situation worse?
Answer: The answer is no and never, it must not have come into existence in the first instance.
Outcome: Every person on Earth – all people has a clean slate, a new beautiful life with their wishes fulfilled. A fresh start to a life worth living.

3. Question: What is the ultimate challenge for a true warrior?
Answer: Not to cause harm or destroy anything in existence when he/she is confronted with a challenging situation that may or may not end in the warrior's favour. There are only losers in any and all battles.
Outcome: There are no arguments, issues or problems, there are only solutions for the betterment of all types of situations. There never was a problem, only the solution: the benevolent design of life, the highest intention: the highest vision of a human being.

4. Question: What is the biggest battle a soldier/warrior can possibly face where the person recognizes that the odds are inevitably stacked against him/her, when the situation and the activity of combat is futile, it ends in death, the death of the soldier/warrior?
Answer: The biggest battle is this: I challenge the entire Earth Military Industrial Complex organization of active and retired personnel and its associated agencies, including agents, the entire clandestine, covert, overt, intelligence, police, correctional, boy-scouts, girl-scouts, neighbourhood watch people and martial artists, the entire human civilization. The challenge will be held as an event and all of you are invited to this gathering to face Me in combat. One to one combat where each of you will get a turn to face me to fight for your life, where there is only one victor: Me.

Ingenuity © Knowledge Architecture 2025

Outcome: I know that I am the ultimate victor, the only human being standing, where all my adversaries: you, as a result of this battle are lying down horizontal on the Earth, knocked-lights-out. Depending on your inner strength, you will either wake-up from this condition in this Earth realm, or you will be on your way to the afterlife where you will reincarnate and return to Earth or exit this realm.
I will always be the victor within human civilization.

5. Question: Do you think it is a good idea for us to get-together and bring an absolute end to the military industrial complex once and for all?
Answer: Yes, and we will give this industry a makeover, let go of the design of destruction: the weapon systems, keep the basic structured design and utilities for all-round facilitation purposes that are primary infrastructure provisions that support life in all areas of society.
Outcome: The best solution made by the military industrial complex, from within this industry, in and of itself. You are able, willing, up to the task and you really want to do this task.

6. Question: Are you aware of the fact that the entire group of people that are employed within the earth military industrial complex are guilty on all accounts of crimes against humanity?
Answer: Yes, and you are facing the ultimate penalty: the death sentence penalty, as per any and all constitutions that are ratified and applied.
Outcome: Know that all of you were tricked, lured into this trap by your predecessors, going back in time for generations, you are a victim of abuse, trickery and deception. You can ultimately not be penalised for these wrong-doings, reason be it you are not yourself, this is not who you truly are, you have lived an alternative reality that is the catalyst of destruction, thus the ultimate ideal of self-destruction by design.
Make the decision to QUIT THIS ACTIVITY: DESTRUCTION.
Call it quits and yes, all activities are neutral.

7. Question: Do you want to face the inevitable penalties enforced by all known and established constitutions, the laws: any and all law and/or legal systems where you are charged guilty of crimes against humanity?
Answer: No, you do not want to be confronted by this situation. You know that this entire activity is a trick, you were manipulated/coerced into participating in this activity, you are a victim of mind control programs imposed on you without your knowledge nor consent, and for some of you: you know, because you are a deceiver. The truth is you can only deceive yourself, your entire experience within this realm is of the self.
Outcome: I am here to tell you, a better option exists for you, I am the provider of this option.

8. Question: Do you know a real ghost?
Answer: Each one of you ghosts made the initial mistake of integrating external tools that made you clearly visible, not invisible, as you stepped into the external reality, in that very moment you moved into the direction of that place called ‘no-mans-land’. That is where I found you. You are visible, a mirror image of you.
Outcome: I have no such tools, I am the one that is positioned internal, invisible, invincible, I am, I become visible, more visible then I appear. The true ghost!

9. Question: The art of war machine by design is a written tragedy story that attributes its success story as a product and service result, based upon the outcome of destruction as it is delivered in relation to you, here-with bring into existence the destructive deconstructional form that imposes the divide and conquer tactic and strategy to instil a sense of misdirection as the catalyst of deception that is based in

Ingenuity © Knowledge Architecture 2025

the source of evil. Ask yourself: do you want this outcome to be a part of who you think you are?
Answer: No and Never will I, You and We manifest this type of individual, combined or collective reality within this beautiful creative realm of best experiences.
Outcome: You and I, We manifest the highest vision. You manifest the innate actual mirror image that is you. You generate your true self manifestation of truths that is what you have within you!

10. Question: Do you accept the fear-based system of control of your life, or do you reject this system: possibility?
Answer: I reject the fear-based system. This fear-based system creates false realities, circumstances, situations and events that generates wrong-doings, wrong thinking, wrongful actions, outcomes nobody wants, it is what you do not want that is the real problem. The inevitable outcome of the situation where you have to face the entire human civilization because of crimes you committed against humanity in the 1st degree, is exactly what you do not want, nobody wants this outcome to manifest. This is a futile situation and you need to recognize these facts about it. The inevitable end result, as a consequence of the fear-based system, will be more violence, crimes, death and destruction that is unnecessary, and must be rejected.
Instead, focus 100% on what you want that includes all possibilities that are products of the benevolent design of life.
I and You, We embrace the love-based system of co-creation that is posited in the benevolent design of life.
Outcome: You have the ability within you to manifest any design, the actual mirror image of the perceived design in its true form type, as is, as a co-creator that uses potential creative energy to make your unique reality flow into full fruition, within you, here-in, here-forth, so it is!

11. Question: Are you convinced that an enemy exists within the human family, amongst all human beings within this realm?
Answer: No and never. A fictitious division between people was constructed to trick you into believing an enemy exists within the human family. Use your common sense in the case where you now have to face the entire human civilization as a result of your wrongful actions that are crimes against humanity, what will your explanation be? The human family is complete, united, is One.
You have an individual reality and everything you experience is of the Self. The word enemy is a misnomer, it refers to the duality principle of light and dark within the mind, the psyche of a human being. The only contradiction is this duality and you have a choice to either embrace and complement the light principle or step into the dark principle, this internal battlefield where you are ultimately your own enemy, within yourself.
Outcome: Never step outside of yourself to do harm or destroy anything in existence, reason be it existence is kind in and of itself, is kind towards you, you must complement kindness, expand kind actions into existence from within where the kindness within you is present in every moment.
Be kind to yourself and existence, alike.

12. Question: Where do you stand self-in-relation to Love and Hate, this type of duality of opposites that is the root of contradiction?
Answer: I say no and never, I will never culminate energy that takes on the resonant form of hate, reason be it I exist within the light energy spectrum of love and life-giving scious: spirit energy that is eternal. You must learn that likeness of ideas attracts likeness of ideas, increase your word power by means of the use of principal, strong and beautiful words that originate meanings that are the source of the power of spirit within the fabric of creation and all existence. Resonate the right words,

Ingenuity © Knowledge Architecture 2025

meanings and ideas that spring forth from within you, complement the light energy spectrum of love, always.
Outcome: You are a mirror image of self, self is a mirror image of you, your true self, the spirit within all phenomena. You are made equal in the image of the source of creation and all in existence.

13. Question: Do you think you are an incomplete being, or do you think you are a complete being?
Answer: I think and know that I am a complete being. This is an identical quality within You and I, All Human Beings.
Outcome: I know my purpose and I live according to my true purpose, in a joyous celebration of life, the best experiences in every moment.

14. Question: The world as you know it, do you think the one world order government exists, and is this group of people the guiding hidden hand that directs the activity of life?
Answer: Yes, the one world government is the guiding hand that directs the course of history, by means of the use of information that controls human thought and perception. The word: government, literally means: Control of the Mind: Mind Control. It is at its core a skew-morphism: an alternative reality based in the fiction genre that is constructed to instil belief systems that are fiction-based information constructs, the means of deception. You have been presented with and given this reality, you have blindly accepted it to be true, you've been convinced this is the only option there is, you have been fed lies upon lies upon lies. Realize and recognize this fact.
Outcome: You are an individual that manifests his/her own unique reality, separate from and parallel to the external imposed collective reality activity presented to you as an option to step into.
You have the ability to self-govern, without any external impetus.
Recognize this truth and express your individual sovereignty, divinity and purposes as a human being.

15. Question: Is there such a construct as nation states, nationalities and supra-national identities?
Answer: Yes there is, we are living inside this artificially constructed matrix hierarchy of illusions and misconceptions that confuse the thinker; you.
All is mind within this Earth Realm.
Nation states that construct the constellation of nation states is a group holding franchise of governments: corporations called countries, that has proprietors that work together behind the scenes: the public facade, as one cohesive business unit operation, centrally controlled and operating locally, everywhere inside Earth.
The words: government and nation sates was invented as false belief systems to give you the thinker the skewed impression that communities that live in different nation states are somehow different, indifferent and have a preordained issue/argument with other communities: people of other communities have some type of hatred towards another community for some mysterious reason. This is a lie. I know the truth, because of my personal social shared experiences and interactions with people everywhere inside Earth. I have no enemies and neither do you.
The fact is all these community-based customs, traditions and belief systems have their own unique qualities of character that is a genuine grass-roots manifestation of the group of individuals that live within each of these respective communities. Each community impression and expression of identity is composed of individual identities, the make-up of every individual human being that generates and constructs their own unique identity as an individual. The nation states manipulators has given you a false identity and these actors on the world stage are making a mockery of you: the

Ingenuity © Knowledge Architecture 2025

individual and the community where you live and what it means to be a divine human being.
Outcome: We are soul jurors and errants travelling through this Earth Realm of Experience, this is a realm we visit to learn, grow and generate experiences as eternal light beings.

16. Question: Do you think you need to experience the concept of Hate?
Answer: No and never. We are eternal light beings that are created in the highest image of creation in the form of the benevolent design in existence. The word: Hate is the direct opposite to the word: Love. You have a choice: you can choose to love or to hate, it is up to you. Ultimately, your individual experience is of the Self, in singular form, in and of yourself. Every action you perform happens internal to you, it is your own experience that you generate within you. Remember that words exist external to you, as possibilities in and of themselves, as potential creative energy potential impressions that you can use to make something: a work of art that expresses meaning. Meanings have an energetic frequency resonance, attributed to a defined spectrum of energy composition. The light energy spectrum and dark energy spectrum.
Love is lightful within the light energy spectrum and Hate is darkness within the dark energy spectrum.
Outcome: You are a light source energy being that generates and expands within the light energy spectrum. Where there is light there can be no darkness.

17. Question: What is the sum total rank of the total composition of ranks within the hierarchy of the military? You don’t know, do you?
Answer: The sum total rank of all ranks, the top rank of ranks is a prank, a trick, an illusion of power within an illusionary rank structure, that has one purpose: to break down and destroy a human being by means of abuse. Just as in school starting at pre-primary, primary, secondary, tertiary, and post-tertiary education indoctrination centres, you go through this process of building up something and breaking it down, repeatedly, orchestrated by your peers within that school of thought and entrainment, leaving you destitute, damaged and disillusioned. People are educated to become and be Pretenders and not to be Genuine Human Beings.
Outcome: Have a laugh! You are more than the mere sum of your parts, you are a complete eternal light being, you are multidimensional, you exist in multiple planes of existence, simultaneously, you truly are a source of light energy, energies in motion: an emotionally intelligent being.

18. Question: Do you think you need to destroy anything in existence?
Answer: No and never. I am a co-creator, I know this realm provides builder-protocols, the means to construct anything and also deconstruct anything.
Destruction is simply not an option at all.
Outcome: You have to make something to have that specific something, in the first instance, as a co-creator. When you have completed making that something, ask yourself these questions: Will I destroy what I have created? Will I create products that destroys itself and/or other products? The answer must be no and never.

19. Question: Do you support the activity of human experimentation?
Answer: No and Never. I know there is no need for experimentation of any types whatsoever. The truth is, evil must not have come into existence in the first instance, the end. The design of destruction: defense-offense force mechanisms must not have come into existence in the first instance, the end.
Instill this idea in your mind and think what the meaning and its implication for human civilization is: we can live in a world without evil and defense-offense force mechanisms. I know such a world exists, here and now.

Ingenuity © Knowledge Architecture 2025

Outcome: I apply the method of inquiry of spiritual positive complementary analysis and appropriate actions, instead of the method of inquiry of materialistic deconstructive destructive analysis and wrongful actions.
Apply complements in every action that you perform.

20. Question: Are you aware that the activity of life is an externally created reality that you step into to participate in activities?
Answer: Yes, there are benevolent activities and malevolent activities that I can participate in, as an attributer. The benevolent activity of life is supportive, it is the main activity in life from which the betterment of the human experience stems forth. The malevolent activity of life is anti-creation and anti-human, it is an alternative to the benevolent activity, it is the domain of wrong-thinking and wrong-doing. The malevolent domain is forbidden, do not step into it or move toward it or bring this activity into existence.
Outcome: The activity of life, at its core has one fundamental principle, that is: You are an individual that manifests your unique individual reality, within you. Everything you experience is internal, the actual mirror image of what it is you think of, your thoughts and perceptions that you bring into form, what it is you truly want to experience: benevolent experiences. You have everything you need, you have access to all resources within this Earth Realm in a benevolent capacity. You must remain within yourself and never step outside of yourself to destroy anything in existence or do harm in any capacity.

21. Question: Do you want a new life where you fulfil your wishes, your dream life?
Answer: Yes, I absolutely do, I live my dream life filled with joy and bliss.
Outcome: I am here to tell you, this better option exists for you, I am the provider of this option. Let’s get together and make it happen!

The Lessons You Learn – Apply What You Learn

I can write a 1000 page book in this format in which I express truths.
The purpose of this list of complementary ‘questions – answers – outcomes’ is: you must apply the critical method of thinking, and set forth to apply all known methods of thinking in and of yourself. Be thoughtful, be open-minded, be inquisitive and be intelligible. You are super-intelligent as you are.
Take on this perspective: the statements as presented above are multifaceted and purposeful in its meaning, these are integrities, also known as virtues or principles that govern this realm of experience. Use these statements, the truths given within each statement as a moral compass, to direct your thoughts and thinking processes in an ethical love-based manner that always embraces the highest vision of Self: You.
Love Yourself, Love Humanity, Love Existence!

NATURAL JUSTICE – The People's Victory

What is the meaning of Justice and how is it applied in society for the benefit of You: The Individual and We The People: Human Civilization?

Justice For Humankind | Divine Justice On Earth

I FORGIVE YOU AND ALL IN EXISTENCE! Peace – Love – Joy

You and I, We are divine human beings made perfect in the highest image of creation.
YOU ARE UNIQUE
Immerse yourself within you | inner-stand | full-fill information | these information-based possibilities exist complete and are ideas that are thoughts within your mechanism of mind, the human intellect within you | you have an effect on | make a difference to ideas by means of your actions that is the product of your attributions that manifest so within you | the mirror image of you!

You: Within You Yourself Is The Connection to the Source of Creation of All in Existence!

You are a source and barer of Natural Justice as a human being.
You, are a Natural Justice Prosecutor that do decision-making for yourself and you have the obligation to prosecute for yourself, and as a complement to another human being, assist another human being to bring forth and establish divine natural justice.
Natural justice is the initial preordained guideline of principles that are integrities that a human being embraces and applies within all activities in life.
No other form of justice is superior to natural justice.

Justice system modalities that are recognized within this equation in relation to me, include the following:
1. The International Constitution – International Law.
2. The South African Constitution – National Law.
3. The United States of America Constitution - National Law.
4. The United States of America Military Industrial Complex Constitution – Military Law.

Overview: I describe this situation in the following manner: In each of the defined constitutions mentioned above, it is stated that terrorism, abuse, torture and deception are 1st degree most serious offences that is punishable with the 'death sentence penalty'. Each of these constitutions uphold this rule of law in prosecution, the identical outcome.
This is what every individual perpetrator is facing, this outcome is inevitable.
The entire earth military industrial complex organization of people are guilty of all crimes, all accounts of wrongdoing and you know what is inevitable.
The earth military industrial complex has its own constitution. You are free to enact your laws and apply its penalties according to the highest fairest judgement that support a human being in any situation, within the confines and under the auspices of your business design for your organization of people.
What is my point of view in respect of this outcome?
I have made the thoughtful decision to discard these offences, I give each respective human being a clean record in relation to me. What do I mean by discard? Meaning: My intention is to apply the highest rule of natural justice in this situation, whereby I am positioned in a neutral standing where I forgive these wrongdoings and scrape the administrative record clean. No written record of this situation will be ratified inside

Ingenuity © Knowledge Architecture 2025

any of these constitutions. In doing so I: The Natural Justice Prosecutor provide the best suited solution for all parties within this equation.
This is what I offer as my solution, from me to you.
Kindly consider this proposition as the absolute resolution.

These four constitutions – all constitutions and its application of laws to this type of situation is on the drawing-board for revision and final approval. It is up to each one of us as sovereign responsible individuals and the collective civilization as a whole to study all these options on the table for planning, decision-making and implementation. In my mind I provide the best option for consideration.
As it pertains to the situation I describe, the worst offenders that are the inner circle of evil will have to face the full brunt of the law, according to these existing constitutions. Everybody else has a clean slate.
The final decision will be established on judgement day and the necessary task application will be activated to complete the task from start to finish.
I am here and I am helping you. Always Be Kind To Yourself And All Of Existence, Reason Be It, Existence Is Kind To You!

WHAT TO DO AND HOW TO DO IT!

EVIDENCE
IS
SELF-EVIDENT
SPEAK TO THE SOURCE OF THE EVIDENCE

In view of all recorded information within the archive of all information, we must take stock and analyse all records.
To simplify this process for discernment within the context of the activity of life that is recorded in real-time, we can draw the easy conclusion that all actions performed by every individual human being is the actual progression of the individual on his/her life path within the activity of life.
As you are well aware, the military industrial complex operates in the domain of fiction by means of deception. Records are artificially written, deployed and people are manipulated on their life path in an irregular unnecessary manner. This is unacceptable and this activity must stop. It is forbidden. This is trickery and I can not blame any individual human being for perpetrating any wrongdoing because of this fact.
We must set forth to write the actual story of actions, events and outcomes.
A better Manuscript is the result of a better Idea.
As in your garden where you plant this seed to grow and become this garden, use this idea and make it grow within your intellect. Write your story. It starts with the first word on the first page. Only the original record exists, there are no copies.
The answers are written.

The topic of all information and the information field we exist within: Information Sophistication Applied In Real-time

Here is an example: let’s say the military erased all their own data and can only provide a basic data set in which the data show a generic positive constructive chain of custody, a pattern of recognition that exhibits no wrongdoing performed by the military in its totality. I know the entire group of people whom ever participated in the activity of destruction wish this to be true. I am here to tell you, this wish is fulfilled, it is most appropriate for the true chronological record of this human civilization in this era of humankind, this human civilization story.
You and I, We can write this story and we will.

Ingenuity © Knowledge Architecture 2025

Here is another example: let’s say the military erased all their own data, my data and I have no access to any information to prosecute anybody. What can I do to rectify the wrongdoings, what can I do to solve this problem?
I do so as defined above, by means of the practical application of natural human rights and recognition of outcomes defined with definite purpose, the correct, true and final decision.
Here is how: I apply the Holo-Intelligent Information Technique.
With and without the recorded data, I can apply this technique to acquire any and all information within the information field that contains all information in the past, present ad future. All information is literally accessible.
You have this innate ability within you. I recommend that all Judgements can be discussed, written and agreed upon using this technique.
The result: absolute divine justice posited in truth and kindness.

Next, I describe two severe attacks that came from the Schriever Military Base:
The 2 severest attacks are straight at my head and full body.
Category of Assault: Directed Energy Weapon Attack that caused harms.

What Happened?
I was attacked with a Directed Energy Weapon directed at my head as centre-point and whole body. This type of attack has happened twice directed at myself only, occurred during the most recent of 8 years.
The identical frequency imprint with a difference is shown in my descriptions below.

Directed Energy Weapon: Psychotronic Touchless Torture Remote Weapon System: Wireless Body Area Network Deployment.
Psychotronic Bio-Informatic type of weapon system integrating the Gwen Tower Weapon System using 1 or multiple vectors within the SMART GRID that affects consciousness, extracts life force energy out-of the human body, extracts information and implants information in real-time, for an estimated time-span of 30 minutes to 60 minutes.

Incident 1: Directed At My Head. The first attack was on 11 March 2018, during the evening hours between 6pm to 10pm. My local time zone: SAST (UTC +2), Cape Town, South Africa. In the first attack I felt the presence of an intruding type of force: a technological weapon system while I was sitting in the garden. The life force energy was literally sucked out of me and I quickly went to my room to lay down on my bed. I remember I lost consciousness and I was laying on my side with my eyes closed and I could see a monitor appear as a visual impression that appeared to be a TV screen that displays black and white/grey colored distortions like when the TV channel is tuned-out as you are searching for a signal. The impression remained for a few minutes and then vanished.

Incident two: Directed At My Head. The second attack was on 25 August 2024, during the evening hours between 6pm to 10pm. My local time zone: SAST (UTC +2), Cape Town, South Africa. In the second attack I felt the presence of an intruding type of force: a technological weapon system while I was sitting in the garden. The life force energy was literally sucked out of me and I quickly went to the kitchen before I went to my room to lay down on my bed. While I was inside the kitchen, I remember I had a black-out, I passed out/fainted and regained consciousness after a few minutes. This was an ongoing attack. Worse than the first attack. I stumbled to my room to lie down on my back to relax. Then for a second time I lost consciousness as I was laying on my back with my eyes closed and I could see a visual impression of a little robot-like computerized action figure that approached me and stood in front of me with a multi

Ingenuity © Knowledge Architecture 2025

colored round and flat shaped devise next to this character. The impression remained for several minutes and then vanished.

My Physical Address: 16A Floriskraal Street, Groenvallei, 7530, Bellville, Cape Town.
At this GPS location:
https://www.google.com/maps/@-33.8921232,18.6665465,17z

Symptoms: I experienced these effects that are debilitating: life force energy sucked out of my body, loss of consciousness, black-out and fainting while standing and walking, memory loss, vertigo, dizziness, cold sweat and shivers, loss of balance while standing (fainting while standing), cinematic hallucinatory effects visualizations in the brain seen through the eyes via eyesight, loss of balance while walking and when lying down horizontal in a relaxed state, while lying still in a horizontal position I feel my brain spinning in circles involuntarily and also my eyes seem to spin.
This type of weapon attack leaves the victim motionless without energy with no bodily autonomy, paralyzed for hours and discombobulated for several days and weeks thereafter.

This brings about estranged feelings and related thoughts that I rise above and beyond. I Self-Heal Me!

Symptoms: Havana Syndrome Symptomology
Exposure to electronic-imposed-manipulation of brain functions, memory-loss, implanted false memories during sleep, mind-fog, amplification of abusive emotions that result in anger bursts, forgetful of weird behaviours, anxious, depressed and distant. Health condition progress report: The effects in the brain were still present for up to 20 days in various combinations of ill-health effects.
A week later the vertigo started to slowly fade away. I do still have off-balance moments whenever I walk and stand. This effect is ongoing. Lots of short-term, medium-term and long-term memory loss is prevalent. I have brain-fog as well. It seems my level of concentration has been shortened too.

My recovery from injuries is ongoing. Proof of injuries experienced and observed by myself, my personal health condition status:
Today's date is 21 April 2025, it is now 7 to 8 months later and I notice my cognitive ability has decreased due to the damage to my brain. I know, because I do content writing and the process of writing and re-writing has slowed-down significantly. The task of writing my analyses and documents for this purpose: my testimony and business propositions has been laborious and indicative of neurological injuries.
The full spectrum of effects that indicate neurological injuries and damage is observed, experienced and recognized by me.
But I am well on my way to recovery.

I observe these similar types of symptoms in people that live with me in the same house where I have been living for 8 + years.

I Self-Heal Me!
This condition will fade away and my perfect health and vitality is restored!

The topic of Havana Syndrome and Anomalous Health Incidents:
My memory serves me well, even though I suffer the ill-effects of ongoing multi-pronged attacks. I recall that I need to include the following incidents that have been occurring for many years: intentional directed attacks that cause harm, weapon systems used include: electromagnetic, radio frequency, microwave, psychotronic,

Ingenuity © Knowledge Architecture 2025

scaler, acoustic, kinetic, nano-technological and many more vector types of manipulations and assaults brought about by the SMART Grid Infrastructure: SMART: Secret Military Armaments Reconnaissance/Residential Technology/Terrain/Targeting System and more types of devices installed inside the infrastructure and people with devices, respectively. I am constantly on the receiving end of tracking pulses sent from land-based Gwen Towers in my area and satellite systems above in the sky, intermittently, directed at my head. Described as follows: soft pecking pulses (woodpecker) that is audible, an acoustic invasion. During the early morning hours, anywhere between 1am to 5am, intermittently, I wake up from sleep at the same time of day in a structured autonomous pattern due to radio-frequency manipulation. I suffer the harmful pain of touchless torture, especially in my right arm, intermittently due to the deployment of a weapon system and/or combinations of weapon systems. Many once-off touchless torture out of the ordinary pains occur as well. The broadcasting of subliminal false memories 24/7/365 by the SMART Grid are experienced by me, is recognized in the military, manufacturers and patents literature. I have experienced this type of brainwave intrusion when I sleep, while I am doing a meditation and while I am awake.

Targeting, touchless torture is an ongoing observed occurrence.
This is a recognized attack vector. More evidence from me: Targeted Individual Testimony and Evidence of Directed Energy Weapon Attack – Vectors, Targeted Individual Evidence – Mr Nicolas du Plessis.

Anomalous Health Incidents: "I take very seriously the safety, health, and welfare of our personnel. To that end, I want to address with you a matter of significant concern: what we have called Anomalous Health Incidents (AHI). Although it is unlikely to have affected the vast majority of DoD personnel, I want to provide information on how to report potential AHI. Over the course of the last several years, and predominantly overseas, some DoD personnel have reported a series of sudden and troubling sensory events such as sounds, pressure, or heat concurrently or immediately preceding the sudden onset of symptoms such as headaches, pain, nausea, or disequilibrium (unsteadiness or vertigo). As part of a government-wide effort, the Department is committed to finding the cause and the source of these AHi and ensuring that affected individuals receive appropriate medical care as quickly as

possible when needed." – Sept 2021 Secretary of Defense Lloyd Austin Memo for all DoD Employees.

Unconventionally Acquired Brain Injury: "A cluster of neurosensory and cognitive symptoms of unknown etiology/origin with at least one of the following symptoms: vestibular deficits/disturbances, oculomotor deficits, headaches/head pressure, anxiety, sleep impairment, light sensitivity, nose bleeds, ear pain, disrupted executive function, disorientation, auditory symptoms, vision changes, and nausea. A secondary phase of symptoms related to vestibular disturbances or cognitive deficits may potentially present after the initial phase." – Unconventionally Acquired Brain Injury Guidance and Instruction About an Emerging Challenge to Warfighter Brain Health, Adam T. Littlejohn, MD // US Special Operations Command, Policy Memo 20-02: Unconventionally acquired brain injury reporting and health guidance for Special Operations Forces, Tampa, FL; 2020.

NeuroStrike: Entails the covert utilization of combined RF, low MHz acoustic, nanotech, and electromagnetic technologies to inflict direct, non-kinetic, permanent neurological damage and cognitive degradation clandestinely. It targets unwitting individuals using a focused energy beam for several minutes, resulting in lifelong neuro-cognitive injury. Note: The paragraph above in **'Bold and Underlined'** explains precisely what I have described in my testimony, what the effects are that I experienced as a result of this type of attack, this is a match. Be aware that this technology is deployed and used by multiple military factions (fusion centres) worldwide. Know that the military industrial complex is a privately owned network, they all work together against WE THE PEOPLE. They always have and they are the perceived ENEMY.

These two paragraphs provides more written evidence of the described situation.

Executive Summary

We maintain that we are approaching or have passed a tipping point for the criticality of Directed Energy (DE) capabilities as applied to the successful execution of military operations for the United States, Allies, and for the United States' rivals and potential adversaries. DE is a focused beam of electro-magnetic energy that is used to enable or create military effects, when used in conjunction with other military systems, including kinetic weapons. Specific examples of DE are lasers, radio frequency devices, high power microwave, millimeter wave, and particle beam technology used to create a military effect, e.g. deny, degrade, damage, destroy, or deceive.

A growing number of nations, are realizing the potential of DE for a variety of militarily relevant missions. At least 31 nations today have DE weapons for counter unmanned airborne system (c-UAS) missions, such as base defense. Other examples of pervasive DE technologies include pointer and illuminator lasers. Today both state and non-state-actors have used low-power lasers during operations: military, policing, during protests, and to imperil civil and military pilots. Counter sensor and counter

Ingenuity © Knowledge Architecture 2025

electronic DE weapons are effective today from a variety of platforms (airborne, ground, and ship based), across various phases of war and intensities of conflict.

Warfare in the Cognitive Age: NeuroStrike and the PLA's Advanced Psychological Weapons & Tactics
Executive Summary
This report provides an in-depth analysis of the evolving landscape of modern warfare, particularly focusing on the integration of psychological warfare strategies and NeuroStrike capabilities. Our original report centered on the development of the NeuroStrike program by the Chinese Communist Party (CCP) and the People's Liberation Army (PLA), which highlighted a strategic shift in warfare tactics, emphasizing the targeting of cognitive functions as a means of combat. The new information brought forward by PLA officers Wang Dan and Zhang Xu further elaborates on the expanding role of psychological warfare in military operations, underscoring the PLA's focus on this dimension of warfare.

Key Findings from the Original Report:
• The NeuroStrike program signifies a major shift in military strategy, moving from conventional kinetic warfare to techniques that directly affect cognitive functions.
• This program integrates advances in neuroscience and technology to develop weapons capable of impairing cognition, reducing situational awareness, and causing long-term neurological degradation.
• The strategic implications of the NeuroStrike program include a fundamental change in the nature of military engagement, raising ethical, legal, and strategic concerns.
New Insights on Psychological Warfare:
• The PLA's integration of psychological warfare techniques reflects a recognition of the psychological state of combatants as a crucial factor in the success of military operations.
• Advanced technologies like AI and Brain-Computer Interfaces (BCIs) have introduced new dimensions to psychological warfare, enabling the PLA to manipulate information, perceptions, and decision-making processes.
• The development of biological weapons targeting cognitive functions adds a novel aspect to psychological warfare, inducing psychological trauma and confusion.
Implications for Future Warfare:
• Future conflicts are likely to be characterized by a blend of traditional kinetic operations and advanced psychological and cognitive warfare.
• There is a need for comprehensive legal frameworks and ethical guidelines to govern the use of such technologies.
• Military training and preparedness must adapt to address the challenges of technological and psychological warfare.
Recommended U.S. Policy Responses:
• Develop legal frameworks and ethical standards to respond effectively to NeuroStrike and psychological warfare threats.

Ingenuity © Knowledge Architecture 2025

• Enhance military training programs to integrate physical, technical, and psychological preparedness.
• Invest in research and development for defensive technologies and strengthen psychological support systems within the military.
In conclusion, the integration of NeuroStrike capabilities with psychological warfare strategies represents a transformative development in the conduct of military operations, necessitating a multifaceted approach in response. Understanding and adapting to these evolving strategies are crucial for maintaining operational effectiveness and ethical conduct in modern warfare. The report emphasizes the need for strategic, legal, and ethical preparedness to navigate the complexities of this new era of military engagement.

The Holo-Intelligent Information Technique

I have something I'd like to share with you that will be very helpful for you and the team, in support of the divine justice task.

We live in a magical miracle filled realm where all information exists everywhere, and fortunately for human beings, we can directly access all known information, existing in the present, past and future, in this moment, by simply applying the Holo-Intelligent Information Technique.

Example in the field of medicine:
As a health worker you will be familiar with the human anatomy muscle test technique. There are multiple ways to apply this technique using your own body. This approach works for all types of information, is far more sophisticated than any of the technologies that are man-made and out of reach in times like this when we need it most. (Technologies obviously active and is being used by the evil doers.) Thankfully we can apply the Holo-Intelligent Information Technique with 100% accuracy.

HERE IS HOW

You Apply Technique: You Ask Positive Questions Hereby Affirm The Correct Positive Answers by means of the human anatomy muscle test technique. In Bio-energetics, the responses that the Biomagnetist obtains is through the phenomenon of intelligent muscular response; that more properly we should call Holo-Intelligent answer. With the formulation of clear definitive questions, you are given an answer in terms of yes or no, you affirm the outcome. Biomagnetists apply the technique hands-on in the presence of another person or on themselves, and have the ability to do so remotely, where the Biomagnetist is not in the physical presence of the other person.

This technique is applied to all types of information within the human field of thought and perception. This is most helpful in the situation of a disaster, when communication systems are dis-functional, when all infrastructure is destroyed, and we have to rely on our own God-given abilities to best navigate the disaster and direct the search, rescue and reconstruction efforts; or in this case what the truth is about a particular situation: the existence of the Unacknowledged Special Access Targeted Individual Program, who the individual perpetrators are, what they did, whom they targeted and injured, what damage was caused as a result of these actions, what the breaches are within the constitution and what the best means of resolve will be.
Ask the intelligent question, you have the answer and this is the outcome you seek.

Ingenuity © Knowledge Architecture 2025

APPLY: Make use of your fingers, apply the muscle test technique.

Look at this picture, specifically the fingers used to perform this action.

First you must set your fingers to the Yes or No answer. Do the following:
Say the following words aloud:
I ask for divine guidance, please show me the way!
Using your left hand or right hand, wiggle your fingers continuously and say:
When my fingers stop next to each other without crossing my fingers the answer is No.
When my fingers cross the answer is Yes.
Then thank God: the divine mind by saying: Gratitude for the guidance.
By doing this you set your intention to truths that are correct, accurate and finite.
Now you can put this technique to proper use to find out anything you want to know.

HERE IS HOW IN A DISASTER SITUATION, WHERE YOU ARE TRYING TO FIND PEOPLE OR WANT TO DETERMINE THE TRUTH ABOUT ANYTHING INSIDE EARTH REALM.

Use a geographical map printed on paper, spread it out on a table or a wall.
You want to locate precisely where people are on this map, how many people are at that specific location, what their genders are, their age, the status of their health condition, what special needs they have. For this life-saving critical analysis in respect of their specific health condition at that moment in time: facts can be ascertained, thus giving you the information you need to organise and assemble medical supplies that has to accompany the crew that goes to that location to assist the people in need.

Remember to wiggle your fingers and affirm each question by asking: is it a Yes or No answer.

Say the following words aloud:
I ask for divine guidance, please show me the way!
I am searching for survivors of this disaster, please show me the way.
On this map in front of me, please show me where survivors are.
You can slide your finger on the paper on the map to point at locations.
In each instance you ask: are there survivors here, yes or no?
Then ask more detailed questions:
How many people are at this specific location?
Is there 1 person, 2, or 3 and so on until you get the correct number.
Again, affirm the number and ask is this number correct, Yes or No.
On this map in front of me, please show me how to reach them efficiently?
Is it better to travel there by air (helicopter), water (sea) or by road?
Then you can ask more detailed questions about the air transport and/or water transport and/or road transport to reach this location successfully.
What are the survivors’ genders and their respective age?

Ingenuity © Knowledge Architecture 2025

Then you can ask more detailed questions about these two aspects of the people.
What is the status of their health condition?
Then you can ask more detailed questions about the seriousness of possible injuries and the like, as you normally do when you do the actual diagnosis and prognosis.
Does this person or do these people have special needs?
Then you can ask more detailed questions about these aspects to cover all the basics.

With all this information you can dispatch all types of necessary supplies, organize additional medical assistance and direct the relief effort in a Holistic manner.
Always thank God: the divine mind by saying: Gratitude for the guidance, after each question when you have attained the answer to that question.
Simply write all your questions and answers on a piece of paper, with the rest of the coordinates for that location, supplies needed, manpower and transportation needs.

Hold this truth in your memory:
Put forth a positive question, expect the immediate correct positive answer, you determine the positive outcome.

I gather this is helpful.
PEACE LOVE JOY

Next, I show you the result of my actual application of the Holo-Intelligent Information Technique, in respect of these two attacks, where it came from, to ascertain the truth.
Question: Did these two attacks come from Schriever Military Base?
Answer: Yes, both attacks came from this source.
Outcome: As recommended by me, we are putting an end to this activity, we are packaging and providing solutions and remedies and we are making a SACRED AGREEMENT WRIT.

The One World Order Business Architecture

Overview presented in a short explanation:
The ill-begotten ideal that was originally written into existence and passed on from the initial generation of people to the next generation of people, up to today, this generation of people.
Whom does this ideal belong to? What individual or group of individuals is the proprietor(s) of this ideal?
Answer: the truth is, it belongs to the originator individual author(s), and he, she or they are not alive today to claim their proprietorship, and no other human being can claim to have the right to be the proprietor of this ideal.

This blueprint and its hierarchy: more can be added to this equation.
I chose the most appropriate descriptions that when combined form a blueprint.

You are welcome to fill-in the related specific industries and industry sub-sectors that are part of this control mechanism, including unacknowledged special access projects. For the purpose of this document and the agreement here-in, I highlight these industries that are visible to me as the independent observer and witness of its existence within society, ‘this playbook: whyrled of fiction reality’.

The International Criminal Court
The integrity of the International Criminal Court is questionable.
Within the confines and under the auspices of the International Criminal Court, this corporate entity that we know of is part of the problem, is yet another hidden problem in plain sight.

Next I share the core fundamental principles of Natural Justice, including the common law charter that complements and supports natural laws in the case where prosecution is actuated and problems are solved completely with respect and empathy.

Your Natural Unleanable/Inalienable Rights

The original correct description used to describe natural rights includes the word: unleanable. When you study word origins you will find that the word: unleanable exists in old dictionaries, but was removed and excluded from modern dictionaries. For the purpose of recognition I include the words: unleanable and inalienable. The word inalienable and unalienable are used interchangeably, they have the same meaning in modern dictionaries.
Notice how words in language are used as a tool of deception, to confuse you, to dumb you down, to hide truths. Every man and woman on Earth is born with certain inalienable rights. These rights cannot be taken away by anyone unless you allow them to be taken. Do not allow any person to breach these rights.
The irony in this situation: how can you take freedoms away where there isn't any? Freedom is portrayed as an illusion of choice, in the situation where you have no actual choices, when you live within the scheme of the grand design.

Ingenuity © Knowledge Architecture 2025

How can you take freedoms from people that you suppress, people that have no freedoms in the first instance, according to the grand design of deception?
It is ridiculous.
Truths and free will (freedom) is what we have, here, there, everywhere, present here and now, in abundance. Free will is untouched.
Governments (mind control criminal enterprises) do everything they can to strip us of our Rights. It is impossible to take away rights that are God-given.
So it is up to each one of us to know what our inalienable rights are, and then to stand up against anyone trying to ignore or replace them with fictitious rules and regulations that are unnecessary. Natural Law and Common Law protects our rights and gives us the tools to defend them against any attempt to destroy them.

The Divine Justice Principle

The transformation of the human intellect that holds an illusionary type of mindset into the love-based divine justice mindset as the catalyst for moral, ethical, social, spiritual and intellectual transformation of society, imbued with the spirit of selfless service to humanity, here-with, you the individual recognizes your true purpose, the manifestation of your true self as a divine principle.

You can talk to me, I am a source of solutions!

A Bright Idea
We all need to recognize that we have everything we need, here and now.
We must connect, interact and exchange bright ideas and bring these selected ideas into full fruition for all people everywhere.
We need a basic knowledge system of unity: first, and from here: here-with we can generate, produce and establish multifarious designs and activities that support the highest vision of every recognized individual divine human being in an individual capacity, combined capacity and collective capacity, here and now.
I achieve this outcome in my writing.
You need to recognize this fact.

The Highest Vision of Humankind for Humanity as a Complement!

Within the Human World exists 3 types of opportunities:
1. You the creator of opportunities.
2. Established opportunities.
3. Emergent opportunities.

I am a creator of opportunities that I attribute as an option that you can become involved in. Forthcoming, I present business propositions as an extension of this introduction document. Business Is Benefits!

The Activity of Life

Life is an activity filled with many activities.
Posited within, innate to a human being is a type of duality: light energy and dark energy. Light energy is benevolent and dark energy is malevolent.
Have this duality in mind when you read the text presented to you within this document. As a human civilization we have explored and are currently exploring all possibilities vested in all types of activities in life.
We have progressed in the direction of both the benevolent activity and the malevolent activity, respectively. Forward Movement and Backward Movement of energies in motion.

Ingenuity © Knowledge Architecture 2025

Ask this question: which one of the two activities is the dominant activity in society, is it the benevolent activity or is it the malevolent activity? And why is it so?
Recognize this duality and its inevitable implications for you: the individual and human civilization as a whole.

My perspective on the activity of life here and now, looking through the lens of knowledge with an open mind and willingness to learn.

My perspective on the activity of life described within this context:
The current design of life, society as we define it: the social structure that composes the external world, where-with-all, where we co-create, share and enjoy the benefits as a human civilization.
This design of life was brought into existence long before the birth of this civilization.
As a human civilization we are living our lives according to this design of life.
On a daily basis, I, You, We all wonder what kind of life we truly want to live.
The type of reality we want to experience according to what we really want.

Two given primary realities according to this Earth Design Construct:
Realize the fact that you have your own unique individual reality that you exist within.
Realize that you also co-exist within a social-shared reality called the collective reality of human civilization.
You and I, We exist as individuals and co-exist as humankind: humanity within both realities simultaneously.
The combination of both realities is united within you.

The Golden Rule of Ideas | PRINCIPLE

The practical application of ideas that result in the benevolent or malevolent outcome.
Ideas are possibilities that can be used and applied in the formation of an activity.
The following statements define what to do:
This principle: the golden rule of ideas is a type of integrity: truth that governs all ideas within this Earth Realm.
All ideas exist in and of themselves, all individual errants: individual human beings have been given these ideas to use as intended in a purposeful manner.
Respect this principle and never breach this truth.
Do unto others as you want others do unto you.
Do like you are supposed to do, fulfil this purpose given to you, perform this task as intended, according to the benevolent design activity.

The following statements define what not to do in relation to what to do:
No individual human being or a corporate entity based in the fiction genre can take possession of or own any ideas, position himself, herself or itself as the sole arbiter of these ideas, and then impose the measure by which other individuals either have or do not have access to the ideas, and is not allowed to use the ideas by any means for any purpose. This concept and ideal is a fallacy, it is the result of wrong thinking that is governed, constituted and presented by the demiurge programme: artificial intelligence x, and the human beings that take advantage of the lack of knowledge about this realm and the activity of life within it.
Do not do what you are not supposed to do, do not fulfil this purpose given to you by ‘the god of this whyrled of fiction: the demiurge’, reason be it, when you perform this task that is ill-intended, you attribute to and bring into existence contradiction according to the malevolent design activity.
Here, this activity is the catalyst of illusions.

Ingenuity © Knowledge Architecture 2025

Authority by definition

Authority itself is an illusion posited in a misconception of what the meaning of this word and its purpose truly is, in principle.
As a writer, I provide in-depth knowledge about the subject of the art of writing that defines and applies the actual root meanings of words, including the word authority, its true meaning, purpose and usefulness.
Truth about You: You are the author of your own authority as an individual.

You: Self-In-Relation in and of Yourself

You are the author of your own authority as an individual.
As a human civilization we have now reached a point where we must establish the right type of relationship and agreement that is benevolent, positive and constructive, that recognizes the individual, You and I, Every Person, likewise.
We The People Are One.
You live within your own individual reality that you manifest as a God-Given Gift.
You respect yourself, your similarity in human nature and your uniqueness as an individual human being.

The Activity of Governance

My written recommendations take-on many forms for the complete makeover of governance that complements ingenuity and the use of information governance within the context of: **'You The Individual Self-Govern and We The People | Human Civilization Governs Humanity'**.

Individual Governance | Social Governance | PRINCIPLE

You The Individual Self-Govern and We The People | Human Civilization Governs Humanity.
Meaning:
Individual Governance houses the seed of creative energy of divine purpose that grows in full fruition.
Social Governance is the expansion and attraction of creative energy of divine purpose that is posited within individual governance in the form of an attribution given by you the individual to the collective social governance structure.

How we are and how we are supposed to exist, co-exist and complement governance, how we are supposed to govern anything

A moral and ethical standard and approach to governance.
The relationship government has with the individual and We The People as a whole. Government exists solely for the purpose of providing products and services that support the individual and the community of individuals as a whole. Government is supposed to provide and deliver all-round services to the people in collaboration with We The People in a cooperative manner that complements the inputs provided by the individual and the people, where the individual's and people's wishes are acknowledged and honoured, with no exception. This relationship is fundamental to the success of any community, the foundation of principles upon which the concept of community can be built and brought into the social conscious area of activity that expresses the highest vision of human society in principle.

Your Unalienable Rights

Unalienable Rights are the Inherent, Sovereign, Natural Rights that existed before the creation of the State, and which, being antecedent to and above the State, can never be taken away, diminished, altered, or liened upon by the State, subject only to the Due Process of the Common Law. Nor can any Unalienable Right be fundamentally removed, whether mistakenly by contract through non-disclosure, which is fraud and unenforceable in Law, or knowingly by renunciation, which is contrary to Natural Law.

The Original, Permanent, Unalienable Rights of every Man or Woman, include:

The Right to Life, Freedom, Health, and the Pursuit of Happiness

The Right to Contract, or Not to Contract, which is Unlimited

The Right to Earn a Living by being Compensated with Wages, a Salary, or any trade Goods, in a Fair Exchange for one's Work

The Right to Travel in the Ordinary Course of one's Life and Business

The Right to Privacy and Confidentiality, free from Unwarranted Invasion

The Right to Control, and Hold one's Property, lawfully without Trespass

The Right to Self-Defence when threatened with Harm, Loss, or Deceit

The Right to Due Process of Law, with Notice and Opportunity to Defend

The Right to be Presumed Innocent, suffering No Detention or Arrest, No Search or Seizure, without Reasonable Cause

The Right to Remain Silent when accused, to avoid Self-Incrimination

The Right to Equality in the eyes of the Law, and to Equal Representation

The Right to Trial by Jury, being an Impartial Panel of one's Peers

The Right to Appeal in Law against Conviction or Sentence, or both

The Right to Expose Knowledge necessary to one's Rights and Freedoms

The Right to Peaceful Association, Assembly, Expression, and Protest

The Right to Practice a Religion, and to have Beliefs, of one's choosing

The Right to Love, and to Consensual Marriage with Children, as a Family

The Right to Security from Abuse, Persecution, Tyranny, and War

The Right to Refuse to Kill under command, by reason of Conscience

The Right to Live in Peace and be left alone when Law-Abiding

Surely, the most critical failure of The People is their failure to ensure the teaching and common knowledge of their Unalienable Rights. If you do not know your Rights, you effectively have none. By the path of Ignorance, whether by Apathy or Deception, The People arrive in a state of Exploitation, Oppression, and Tyranny.

My recommendation on unleanable rights to exist as a human being

This is an advantageous starting point where we can conduct open discussions about all topics and matters concerning ‘natural law and common law – indigenous rules, tenets and guidelines’ and the importance of upholding our Natural Unleanable: Inalienable Rights as the Civilization: Humankind.
All matters concerning the correct management of resources posited in the land, sea and air itself, must be defined and conveyed to all persons everywhere, as a moral and ethical code of best practices, the highest excellence standard agreement.
The undeniable fact is habitation on Earth is a given abundant life-giving resource for all beings within creation.
The land, sea and air belongs to no one and everyone posited in principal.
This Sacred Earth is a life-giving realm that complements the seed of creation.
The individual person or a corporate entity take on the responsibility of managing the affairs that spring forth from and directly relate to the land, sea and air that we occupy, are contained within, contribute towards and receive from. A constant exchange of multiple types of energies within an activities cycle that is life-giving.
Individuals and corporate entities established by groups of individuals, represent the means by which we employ knowledge, skills and developments by design, that result in the most appropriate activities that host structures, functions and processes in support of the production, dissemination and exchange of products and services that serve all parties: individuals: You and I equally, as is: The Given Standard Livelihood.
The best course of action, the direction in which we positively construct the defined outcomes, here and now, where we all ultimately benefit.
Governments itself, on this day and all throughout history has failed to achieve the balance that exist on Earth by default.
Instead, it is the instrument of malevolent agendas that deceive, divide and destroy the fabric of life within this Earth realm of existence.
We must proceed to make the correct types of changes for the good!
We live a life of free will in all its forms on Earth.
We create and celebrate the highest vision of humanity for humanity, the best experiences in the moment, here and now, always, for eternity...
I wish you all the best in life!

First look at the relationship that is the initial condition of provision on Earth: ultimately, no human being can own/possess Earth, people or anything within Earth. You are a steward that has a responsibility to care for and complement the integrity of the Earth, humanity and human civilization, within this Divine Earth that is life-giving, supportive and beautiful. You are of the Earth, you are the salt of the Earth.

The Means | The People’s Victory
I provide a meaningful interpretation of phenomena that I experience, similar to what you experience. Let’s select what is identical to every human being: the likeness within me and you, as the basic knowledge system that we generate and establish first, where we complement the unique individual human being.
The establishment of ‘the identical principle’ of the individual human being: you.
The establishment of ‘the unique principle’ of the individual human being: you.

I am here to help you make the difference for people everywhere on Earth.
I am a provider of solutions on the director's table.
You are welcome to contact me in this regard for a consultation.
PEACE, LOVE AND JOY TO ALL GOD'S CHILDREN!

Closing Note

Myself, the Targeted Justice Organization and Targeted Individuals everywhere on Earth ultimately wants to bring an absolute end to this targeted individual tyrannical program of abuse and torture of human beings. I am sure that the team that do this targeting wants to bring an end to it too. You and I, We achieve this common goal.
First we are going to establish my solution for me as an individual and we can set forth to apply this packaged solution to the entire group of targeted individuals.
We are analysing this situation with an open mind, thoughtful ideas and a creative approach that complements all perspectives.
Remedies take on many forms as a solution. In this instance a solution to the problem that is the reason, cause and effect of destructive actions implemented worldwide.
I am a business designer and I have multiple designs on the director’s table for development and completion. Here, in this instance, it is appropriate that I provide my business proposals that are posited in the arts, health, wellness and longevity in a holistic remedial approach, for every person I interact with. My written manuscripts as well.

Within the document, entitled: Executive Letter to the Advisory Board at Targeted Justice, I propose an easy approach. You can read this recommendation presented from all points of view and positions at this round table.

▪ Executive Letter to the Advisory Board at Targeted Justice
https://drive.google.com/file/d/16iHbuNzEhB4yg3Etmy9dI7ThtQHSM_IJ/view?usp=sharing
Note: This is my proposition for the targeted individual program that can be brought to a complete halt, here and now.

The Important Task

This is a proposition to connect, discuss, plan, formulate and implement the packaged solution for the Targeted Justice Organisation, Targeted Individuals and the Organisation of Active and Retired Military Personnel, respectively.
My multi-solution proposition:
We must formulate, produce, package and deliver the complete solution for all people everywhere.

Quote
My request for a meeting to discuss and develop this proposition

Here is an option we can consider as the best approach. We can host a meeting with the following people in attendance: myself, the Advisory Board at Targeted Justice, the perpetrators at the military base and their commander (the team of military personnel), and the Supreme Court personnel (the team responsible for Targeted Justice et al. v. Garland, Case No. 24-91).
Four parties in total that make-up this equation.
Why do I want these three parties in attendance with me in respect of my proposition and agreement that I offer?
The reason is, this entire group of individuals have the responsibility in relation to me, to be my witness to the situation, problem and solution presented by me.
This is a straightforward easy approach and the outcomes are written for this purpose. All records exist as evidence.
I am the author of my own authority, I am a natural justice prosecutor. This is my solution for myself and for you, respectfully and kind with love as an eternal complement from me to you.
End quote

For your consideration

Kindly consider this option as the means to make the desired outcomes complete.
Summary of proposed tasks to be completed:
1. A task I can perform for the Earth Military Industrial Complex: I can make a series of video presentations in which I discuss this bundle of documents in full.
Kindly let me know if you'd like me to make these videos for the Earth Military Industrial Complex Platform. I will gladly do so.

2. With well-being in mind, we absolutely do need remedies and we have access to these remedies. If and when you: the Honorable Members within the Earth Military Industrial Complex make the decision to support my proposition to provide these consultation services to the Earth Military Industrial Complex Organization. First we can send a letter of introduction about this wellness service to all members to ascertain their interest and approval.
In addition to the introduction letter I will present a price plan that is affordable for the clients, definitely worth the full value in benefits. Note: here we can formulate and produce a health plan that is a given standard benefit for all members, covered within the total military budget and bookkeeping system.

Ingenuity © Knowledge Architecture 2025

Please let me know if the Earth Military Industrial Complex Organization wants to embrace this business proposal and remedy solution.

3. Justice For Humankind │ Divine Justice On Earth
I: The Natural Justice Prosecutor provide the best suited solution for all parties within this equation. This is what I offer as my solution, from me to you.
Kindly consider this proposition as the absolute resolution.
What are your thoughts on the topic of justice, specifically what I propose in the name of Natural Justice as an option that we can develop, provide as a business proposal and implement to manifest the desired justice outcomes for everybody?

4. All militarized destructive infrastructure, associated products and services will be terminated, in its entirety.
All types of warfare operations MUST STOP NOW, THE END.
This military operation of deception: We have to wrap-up and package the solution for the Military Project: COVID-19: The bio-medical slave industry. The Health Emergency that is a lie to push poison. Pandemics are psychological mind control operations and human experiments that poison and exterminate people.
This must stop immediately and the perpetrators must be brought to justice.
Within my bundle of documents I provide these solutions. I welcome your input.
We can write, produce and disseminate a book of guidance about all wrong-doings and experiments, finalize this activity and ultimately let it all go, it fades away and disappears. I have another question for you: What are the remedies, the antidotes for the many poisons that were unleashed onto/unto the entire human population and all biological life forms? Kindly provide these remedies, the antidotes for these injuries, support the betterment of the human condition in all areas of life, thank you in advance!

5. Kindly consider supporting me in an administrative capacity on this path of success that directly involves you, your participation, your valuable inputs in administration: your existing bundle of documents written for the purpose of establishing justice for your organization and this human civilization.

6. With these business propositions in mind as a means to move forward in the right direction, I think it is a bright idea to contact the targeted individual victims directly.
We can provide these proposed solutions for consideration.
We know and they know that the existing establishment tricked everybody alike, set-up this design of tyranny that tricked us all into doing the unthinkable.
We have this new better option on the director’s table and this is a success story.
Please let me know what you think of this overall proposal filled with business opportunities.

Love and Respect Humanity

As a community of health conscious and aware human beings, we have a lot to be grateful for, this is an exciting time to be alive and well.
Let’s work together and start this journey, here.
I value your input, feedback and guidance.

Quote
My request: Will you help me bring an end to the wrong-doings, give this fowl industry a complete makeover, bring about actual justice for all people everywhere, collect on the rewards for all people involved within this targeted individual program equation and earth-wide experiment equation, and all other known and unknown human experiments and dark agendas?

I am here and I am helping you achieve all goals.
Let’s connect and make it happen.
End quote

We can develop and provide a new project and name it:
PROJECT | THE PEOPLE’S VICTORY

Life is magnificent, it is what you make of it, it can be anything you want it to be!
Qualities of Character: think life sciences and soft skills and energies in motion – emotion attribution of highest excellence standard:
Benevolent Design of Life
Total System Solution
Creative Platform Opportunities
Beneficial Activities Programs

We start here and then we extend our combined solution, provide it to all countries, regions and communities, directly to every individual human being.
Acknowledge the fact that each respective community everywhere worldwide has their own unique resources, individuals and groups of individuals that create designs, architectures, structures, systems, arts, products and services that are best suited for them to best make use of the resources of this Earth to prosper, in a complementary manner.
“The situation is far better that you thought it can be. Life is filled with miracles, opportunities for personal growth. Life is a Gift, it can be anything you want it to be.”

My request: At your convenience we can schedule a casual meeting during which we can discuss the facts, share ideas and put together an action plan that we can formulate and implement.
I use Skype for live video and audio calls. If you use another type of conference software, then we can use this software platform for our discussions.
You can schedule our first meeting accordingly.
I am looking forward to speaking to you. Have a blessed day!
Nicolas

Topic of importance

First of all we must address the entire security, intelligence and military industry.
Ask this question: Do we need this industry in the first instance?
Focus on the social design of life within society: how we interact, communicate, produce and share resources, support all members in the community with respect, empathy and love. We must restore what it means to be a human being and cultivate this humanity knowledge system and establish it within society as a whole.
The fact is we do not need more security for no reason whatsoever.
We need more employers that provide and foster business opportunities that improves the quality of life for every person, so that we ultimately prevent crimes, stop it in its tracks, bring an end to this activity. The current design of destruction of the unity within humanity is unacceptable, unnecessary and it is the result of wrong thinking.
First look at the relationship that is the initial condition of provision on Earth: ultimately, no human being can own/possess Earth, people or anything within Earth.
You are a steward that has a responsibility to care for and complement the integrity of the Earth, humanity and human civilization, within this divine Earth that is life-giving, supportive and beautiful. You are of the Earth, you are the salt of the Earth.
I am here to help you make the difference for people everywhere on Earth.
I am a provider of solutions on the director's table.
You are welcome to contact me in this regard for a consultation.

The round table for human civilization | INVITATION

Address to the Circle of Originators of Information

The Task
The answers are written. It is the circle of originators of information, specifically the authors that must provide and share their resources of information that serve all people that practice free will!

I Support You
Where is the literature, where is the author that wrote the literature!
I support all originators of information. I request and recommend that we: the circle of originators of information provide and actively present our original content for its intended use. When you give your literature a voice you actualise the conceptual cartography, breathe life into its existence.
Information only comes into existence when you think it, write it, give it a voice and perform actions within the defined activity.
All written content in existence is given an equal standing in recognition of the application and the meaning of the text.
We must construct, assemble, manage and implement an actual platform for all information that will determine the fate of humankind and humanity itself.
The answers are written.
Genre: TRUTH

The Answers Are Written
Knowledge is actionable, put your literature to task!

At the Gathering of the Circle of Originators of Information
The Task:
Assembly of all information
Interpretation of information
Usefulness and purpose of information
Design and implementation of the proposed information framework
Natural Justice
Knowledge and Education Programs
Human-centered Designs and Activities Programs

Proclamation | Executive Instruction
I call on you, the Circle of Originators of Information of this generation to give humankind the best possibility, opportunity and advantage, that result in our individual, combined and collective wishes fulfilled!
The fact of the matter is, this is the outcome, so it is!

We exist in **One Realm**; We are **One Specie**; All information is present within **One Archive**; Collectively we share and experience **One State of Awareness and Sciousness**; All of existence is governed by the **Principle of One**; We are **One**; **One Complete Whole**!

Let’s Be Connected

Enjoy doing your own research and feel free to contact me, I welcome your feedback.
Within this introduction document I present my business administration as a business opportunity, from Me for You.
Three dialogue communication paths are recognized as a means to organize the many opportunities to be explored in full circle, full fruition, full honors.
The many discussions are important to and is an integral part of the outcomes of this success story...
Direct dialogue communication paths:
1. My business propositions and business consultation services.
2. My notice of liability = compensation and the progression of justice.
3. My round table for human civilization | INVITATION.

My Request To You

I want to conduct a first of many private meetings with the Team of Commanders, and progress along this direct path from start to finish.
You are welcome to share this document within the entire USA Military Complex, the highest ranking officers in the military first.

Recognize The Outcome

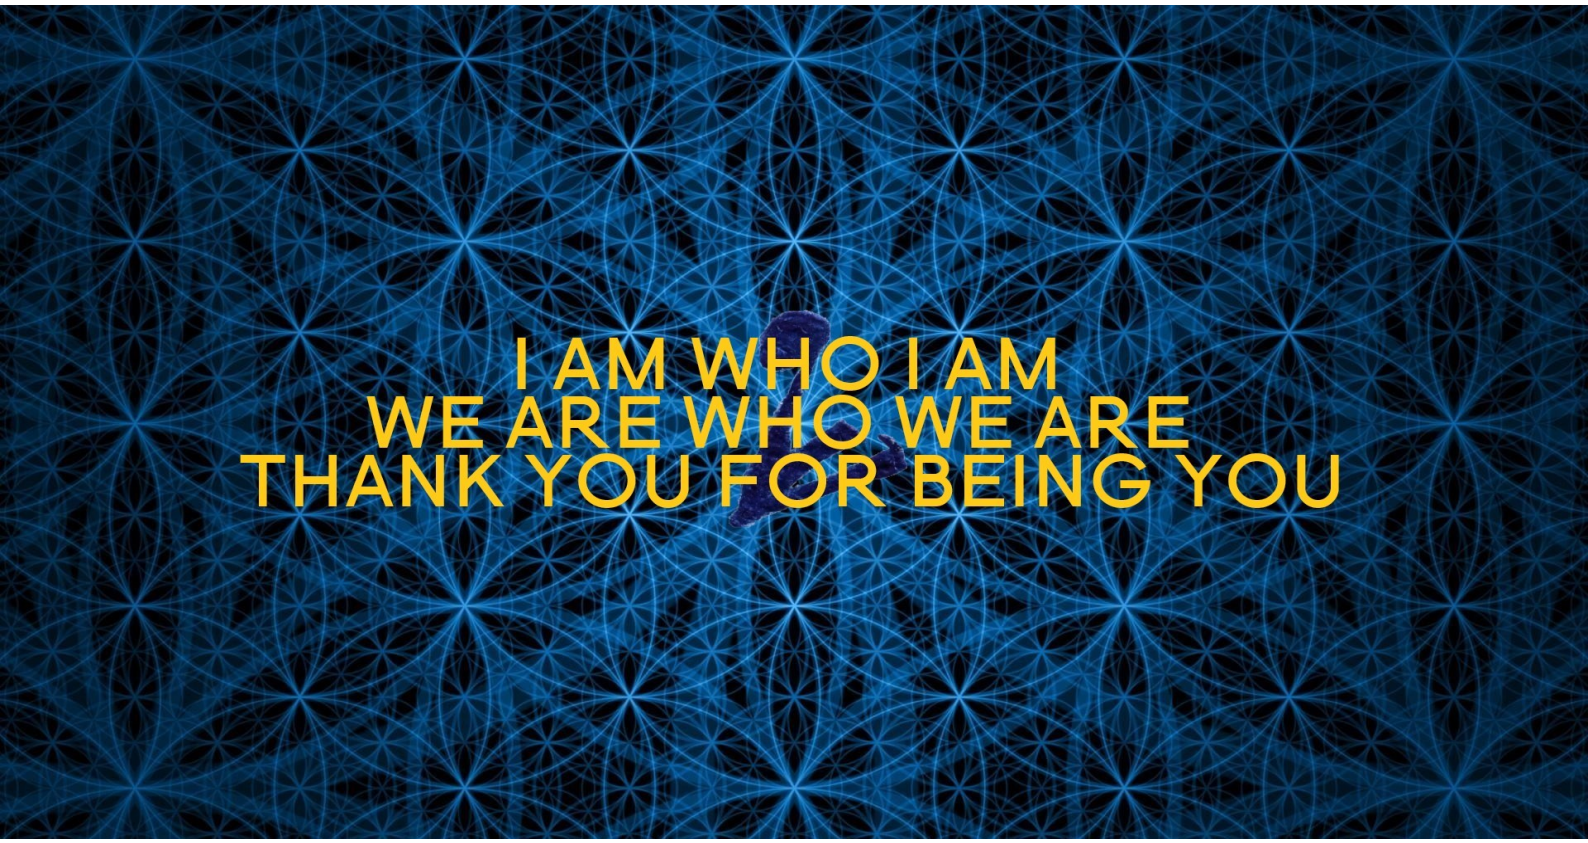

I am here to tell you, a better option exists for you, I am the provider of this option!
PEACE, LOVE AND JOY TO ALL GOD'S CHILDREN!
