Brief Comment

DO NOT raise the radio frequency (RF) exposure limits. They are already higher than other country. This will be devastating to our lives and all lives on the planet. You are selling us out, and we all know it. I already have electromagnetic sensitivity, and am hearing from other people becoming sensitive every day. This is your doing. You will be held responsible for the negative health effects we all know are happening from man made pulsed microwaved radiation. You have put me in a Faraday Cage. I have had to run away from all I know and hold dear, to stay alive. I am a young healthy person, disabled, due to your oversight based on greed. There are thousands of peer reviewed scientific/medical studies showing negative health effects, but you know this. All our military studies show the dangers, but you know this. www.MDSafeTech.org, www.EHTrust.org DO NOT raise the exposure limits. You NEED to lower them. Anne Mills. Author, ALL EMF*d UP
