AFFIDAVIT OF VIRGINIA FARVER

State of Colorado]

Larimer County]

Virginia Lee Farver, attest that my statements are true to the best of my knowledge.

Comment round for ET Docket No. 03-137 and WT Docket No. 12-357.

1. My name is Virginia Lee Farver . My address is 1214 Belleview Drive, Fort Collins, Colorado, 80526.

2. Artist, Housewife, and Mother

3. I lost my Son, Rich from Glioblastoma Multiforme Brain Cancer on October 11, 2008. Rich, had attended SDSU – San Diego State University and was working and living in San Diego at the time of diagnosis. Dr. Vrijish Tantuwaya, a Neurosurgeon from Poway California told the family that his," Cell Phone was the Cause." Dr. Richard Marschke, an Oncologist in Fort Collins, CO., told the family that," This was NOT genetic."

August 7, 2009 while at home in CO., I found articles about a,' Breast Cancer Cluster,' on the UCSD campus in San Diego. There had been protests on campus 2009 concerning an Elevator which emitted dangerous levels of Electro-Magnetic Fields. This cluster involved 8 women, and many others who were not mentioned. There were many different forms of cancers in the Literature Building. Upon further research the confidential report to the UCSD Administration Dr. Leeka Khiefets (an Industry Darling) was commissioned to write a report. Epidemiological Report- Statistics. Also, Jim Turman from SDG&E was Thanked for his help in his efforts. A COMPLETE CONFLICT OF INTEREST!!

I then found articles about a,' Brain Cancer Cluster,' on the SDSU –San Diego campus. After reading these reports, I ended up on the floor. These were commenting about my Son. There have been 7 people, 6 with Brain Cancer in a Political Science building on campus, Nasatir Hall, Room 131. 3 Men (1 included was my Son, Rich)

were diagnosed with Brain Cancer in 2008. One gentleman died June 18, 2009 from Glioblastoma Multiforme Brain Cancer. Rich, October 11, 2008. The other gentleman is still alive. Professor Laurel Amtower was diagnosed November 2009, died August 29, 2010.

Upon further investigation there is a cell tower directly outside of Nasatir Hall, Room 131. This cell tower is a HPWREN – High Performance Wireless Research and Educational Network, a backbone node to the UCSD Supercomputer Center in San Diego. HPWREN is connected to the PRAGMA GRID, TERA GRID, LAMBDA GRID. Combined the,' SMART GRID. This includes the DoE, DoD, Homeland Security, Emergency Services, NASA (Inmarsat Satellite), Air Force, Navy, DARPA , NIH, and Many HUGE corporations.

I demand that the FCC quite playing a role in this, and update their Standards!! Cell Phones, WiFi, Cell Towers, SMART/ AMI metering are ALL dangerous!! I believe that the FCC, is also a corrupt division of this Government!! I hold the United States Government responsible for the deaths at both UCSD and SDSU!! Most importantly my Son, RICH!!

I want to welcome you ALL to my World. With the release of 4G and these Smart/ AMI meters, we will," All be living in the same amount of radiation during a given day, as these SDSU Brain Cancer Victims." " End-Stages, for this type of radiation!" Isreal, did NOT allow 4G.

Respectfully submitted by

Virginia Lee Farver

FCC Comments from Virginia Farver

SDSU BRAIN CANCER CLUSTER

HPWREN CELL TOWER right outside of Nasatir Hall on the San Diego campus. 8 people, 7 with BRAIN TUMORS. The SDSU Administration released an Epidemiological Report written by Dr. Thomas Mack who works for the State of California. Once this report was released, all investigation stopped.

I lost my young Son on October 11, 2008 from GBM Brain Cancer. Neurosurgeon Dr. Vrijish Tantuwaya from Poway California told the family this this was caused by " cell phone usage." Oncologist Dr. Richard Marschke told the family that this was " not genetic." THIS HAS DESTROYED MY LIFE, AND THE LIVES OF MY FAMILY!!!!

UCSD BREAST CANCER CLUSTER:

This cancer cluster involves 15 people, 8 women diagnosed with Breast Cancer. EMF's from Electrical Equipment located near an Elevator in the Literature Building on campus was to blame. Once an epidemiological report was released, all investigation stopped!

KELLY ELEMENTARY CANCER CLUSTER

CARLSBAD:

This cancer cluster involves several kids diagnosed with different cancers including leukemia's and brain tumors. There are High Tension Electrical Power-Lines that cross the school property and surrounding residential neighborhoods. Within a 4 mile radius of this school there are 59 CELL TOWERS and 218 ANTENNA's. The same State employee - epidemiologist who wrote the report for SDSU, also wrote the report for the Kelly Elementary school district. A COVER-UP!

ALL CELL PHONE MANUALS already say to avoid putting these devices near the heads or bodies. WHERE ARE THE WARNING LABELS?

This issue needs to be addressed ASAP. Especially with the DEPLOYMENTS of ' DUMB' meters. This is no longer a matter of ' IF ' but ' WHEN ' this will effect you, or your loved ones!

Please, we need to change our standards to protect our population!! This can no longer be avoided, especially when many other Countries are now addressing this!

Sincerely,
Virginia Farver
