Comments to FCC on Notice of Inquiry, ET Docket No. 13-84 by Michael Phalen

Cell tower was upgraded to 4G in the fall of 2010. It is located on the roof of 223 78th street Brooklyn, New York 11209, it is 25 ft from the apt. I went to the emergency room twice for respiratory problems, the tests were negative, (I am 67 years old with no history of respiratory problems and became sick only when I stayed in the apt). Not knowing the cause of the problem I continued to live in the apt, I developed nausea, dizziness, loss of voice and hearing. I was forced to vacate my home of 35 years on May 1, 2011.
