Brief Comment

Being a member of the human race and an american, I am requesting you do some MAJOR investigating into the 5 G wireless (microwave radiation) technology that is being released in America, as well as on any "smart(dumb)" application. (ie: Smart phone, smart meters, smart appliances, etc) This technology is very damaging and will cause highly painful deaths on any living organism. Iam a professional XRay Technologist and KNOW the detrimental effects of this type of radiation on the human body and any living tissues. You are basically allowing an industry to literally FRY, from the inside out, thermostatically; you, your loved ones, children, any living being, as well as myself....without MY CONSENT! I do not own a cell phone or any other appliance that uses microwave radiation technology. I am presently fighting my electric company over not having a "smart meter". This technology actually disrupts my system in many ways, making me very uncomfortable. I do not APPRECIATE being radiated thermostatically, unprotected, and suggest you folks do some major research and or start listening to NON industry, scientific opinions and reports. This is NOT SAFE for ANYONE! Thank you
