AFFIDAVIT OF Angelica Rose_____

State of Washington]

_King_____ County]

I, Angelica Rose_____, attest that my statements are true to the best of my knowledge.

Comment round for ET Docket No. 03-137 and WT Docket No. 12-357.

1. My name is _Angelica Rose_ . My address is__21122 NE 93rd Pl, Redmond WA 98053__.

2. I am small business owner / mother.

3. **(Use concise (numbered) paragraphs to describe your interest and involvement that support your desire to change the FCC RF safety guidelines. We provided some sample text below. Please briefly discuss your personal experience with electromagnetic radiation (EMR). E.g.:)**
   I am an individual who is very sensitive to electromagnetic radiation. I had to hard wire my home for Ethernet because WiFi makes me dizzy, tired, and creates other nervous system problems. Being around cellphones gives me headaches and earaches, even when they are on speaker phone, and if I'm holding the phone it makes my hands shake after a few moments.

4. Dozens of scientific studies have shown negative impacts of EMR on human health, even at low levels of exposure. The most commonly accepted guidelines are the Building Biology recommendations that list 1,000 microwatts/m2 as the threshold for "extreme concern" (http://www.baubiologie.de/downloads/english/richtwerte_2008_englisch.pdf). On May 31, 2011, the World Health Organization's International Agency for Research on Cancer (IARC) classified radiofrequency fields as "possibly carcinogenic to humans." The FCC does not use biologically determined guidelines that affect health, but rather uses a standard that measures thermal heating of biological tissue. The premise that there are no adverse impacts of EMR on the human body until it is cooked is

completely ridiculous.

5. I urge the FCC to adopt new RF safety guidelines that take into account published research on the biological effects brought on by the ability of RF signals to communicate with living tissue, and more specifically, to consider the Building Biology guidelines for human health.

Respectfully submitted by

Angelica Rose
