AFFIDAVIT OF MANA ILUNA

State of Washington]

_King_____ County]

I, _(Mana Iluna attest that my statements are true to the best of my knowledge.

Comment round for ET Docket No. 03-137 and WT Docket No. 12-357.

1. My name is Mana Iluna_____ . My address is_4415 145th Ave. NE H-2 Bellevue, WA 98007_____.

2. I am a Spiritual Coach and a Yoga Teacher

3. **Please briefly discuss your personal experience with electromagnetic radiation (EMR). E.g.:)**
   I am very sensitive to electromagnetic radiation. Some time ago, I began having symptoms of headaches, dizziness and nervous system problems. Like most people, I had a cordless phone and a wireless modem near my computer. Unfortunately, I didn't know about the risks to my health, posed by these devices. When I measured the EMR emitted by these devices, the readings were greater than 2,000 microwatts/m2 for each of these devices. As soon as I turned these devices off, I immediately started feeling better.

4. Dozens of scientific studies have shown negative impacts of EMR on human health, even at low levels of exposure. The most commonly accepted guidelines are the Building Biology recommendations that list 1,000 microwatts/m2 as the threshold for "extreme concern" (http://www.baubiologie.de/downloads/english/richtwerte_2008_englisch.pdf). On May 31, 2011, the World Health Organization's International Agency for Research on Cancer (IARC) classified radiofrequency fields as "possibly carcinogenic to humans." The FCC does not use biologically determined guidelines that affect health, but rather uses a standard that measures thermal heating of biological tissue. The premise that

there are no adverse impacts of EMR on the human body until it is cooked is completely ridiculous.

5. I urge the FCC to adopt new RF safety guidelines that take into account published research on the biological effects brought on by the ability of RF signals to communicate with living tissue, and more specifically, to consider the Building Biology guidelines for human health.

Respectfully submitted by
