Comments on a Notice of Inquiry
ET Docket No. 13-84

Gentlepeople:

Please, please, STRENGTHEN the Standards for human exposure to radio frequency radiation!

When I ride the bus, my teeth hurt because everyone is irradiated as the phone works twice as hard on a moving vehicle and the signal bounces off the metal walls.

Then, too, when I enter and leave stores with "security" devices, I get migraine headaches. I can't shop at them!

Remember, too, even small doses of radiation which may not kill a cell, can maim it, causing cancer.

Radiation is cumulative!

Because you are entrusted with protecting the public, I ask you to take appropriate, responsible action. Tighter standards; we're gone too far already!

Very truly yours,
Rev. Lynne Lohr, M.Div.,
A.P.C.

Notice of Inquiry
ET Docket No. 13-84

Gentlepeople:

Please, please, strengthen the Standards for human exposure to radio frequency radiation.

My teeth hurt when people on the bus use cell phones because everyone is irradiated as the phone works twice as hard to reach the tower on a moving, metal vehicle.

I get migraine headaches from the radiation in store entrance/exit "security" devices.

Even small doses of radiation which may not kill a cell, can maim it, causing cancer.

Radiation is cumulative!

Because you are entrusted to protect the public I ask you to take appropriate, responsible action. Tighten Standards; we've gone too far ahead!

Very truly yours, Rev. Lynne Loh, M.Div, A.P.C.
