Dear FCC and members of the Congress

Please don't accept the 5 G technology

From the time that the new technologies 3G appeared
My health is compromised – I am very sensitive to all sorts of the wireless apparatus-
Outside I can't go to a lot of places because there are all the antennas around –
I can't use the usual public locomotion- my life is difficult -
My house is the only place where I can be in security without any radiation and pain-
And you want to add more radiation- where you want to go more 3G-4G and now 5G
There are now a lot if people who are suffering and dying because that radiation. You don't matter about the health of all the persons, the children that already suffer and the newer personas who will suffer.
There is a large and enough quantity of medical articles –thousands! That proved that is harnmfull to the human body (from 0.1microwatt/cm2)! You are killing the humanity –you are responsible of all that- ear the people around.

Please say NO to this horrible thing- think about all the humans who want to be healthy and no suffer more.

irene
