Governor Jerry Brown
California Department of Public Health

SUBJECT: SmartMeter Health Complaint

Dear CPUC – Consumers Affairs Branch,

I am writing because since June 2011, I have been very ill. The illness came out of nowhere and hit me like a ton of bricks. I haven't had a single day since, where i wasn't suffering some degree of headache, mostly intense throbbing migraine-like pain, and less frequently, unconscious with pain. I am nauseous, extremely dizzy, and have suffered regular insomnia. I have also begun to have heart palpitations and chest pain, I am so sick that I had to leave my job and am on disability. All of my doctors are stumped because there is nothing showing on any of my blood tests or MRIs. I have finally begun to put the pieces together and have figured out that the illness began when my Smart Meter was installed without my consent. This is a human rights violation and I am angry and feel violated. Four counties have already banned Smart Meters and I hope that San Francisco will be next or I may be forced to move from the home that I love.
