Don't the Rest of Us Matter?

What about the rest of us that are slowly being robbed of any kind of healthy life because of these so-called Smart Meters?
I am being robbed and cannot get any help from the Utility that Installed this Meter on my home. (without my knowledge or approval). I have contacted TECO many times over the past 3-4 years and all I get is a Deaf Ear. I cannot get any sleep that is not ruined by the Radiation that is constantly bombarding my entire home. I have Tried sleeping on the Couch, in another bedroom and even resorted to going to bed after 1-2 am and taking a Sleep Pill. Even switched my King Size bed to an All Wood type …mattress and all. No box springs, either. All to no avail. My kitty refuses to even come into my room now…and I think it is because of the Radiation. He used to come to sleep with me when I called him and said , "It's Bedtime" . Now he Refuses to even come into my room. (He turned 11 years Today. And this is unlike him.)

What can I do? I cannot afford to move…and if I could…where would I move to? I am an 85-year old woman and certainly not all that well off. No one to help me, either which makes it even more debilitating to my peace of mind and my well-being. I do not take any medications…other than One Sleep Pill OTC kind bought at Walgreens**. I still get woke up several times a night by the Continual Pulses. The Headaches are very painful. Dry eyes are really bad. Vision being affected.**

Please help me. I am in fairly good health. Other than the Upset this Meter is causing me, I would have no complaints. I have always taken good care of myself. My three wonderful sons are all Grown and Gone…and far away. I am Not the Complaining type so I really am unsure how to handle this situation. People all over this country as well as the world, are complaining about these Unwanted Meters. Check on what I am telling you. Don't just take my word. Type in "Smart Meters" on your Internet Search engine and be Amazed what you will find.

Sincerely.,
Thank you for listening. I am about ready to Give Up.
