

The Invisible Rainbow by Arthur Firstenberg.

P306 - *'American stations send a binary code at 50 pulses per second, which is consistent with the frequency of the Hum that most people hear today.'*

P383 - *'... 34 - 36-year-olds in 2017 had a 21 percent increase in cardiovascular conditions, a 15 percent increase in endocrine conditions, and an 8 percent increase in other physical conditions compared to 34- to 36-year-olds in 2014. ... Millennials are the first generation that began using cell phones in their teenage years or earlier, when their brains and bodies were still developing.'*

P391 - *'... we are electrically tuned to the world around us and that the safe level of exposure to radio waves is zero.'*
