Since July 2011 I have been suffering from intense electromagnetic zapping of everywhere I go including on international flights, mostly in a place where I spend long time, working cubical and residence. I'm an USA citizen used to work for AAI Corp. (a sub company of Textron Inc.) located in Baltimore County MD. My long-term residence was also in Baltimore County before I moved back to Pennsylvania in January 2026. Because I couldn't bear the energy pulse radiating and burning my body, I quit the job early January 2012. Since February 2012, I spent most of my time in China until December 2018. In 2019 I started to work as a part-time associate at Cockeysville UPS store.

The most obvious attack occurred in the working cubical located at the 2nd floor of the building 100 inside the AAI Corp. Hunt Valley. There was extremely strong electronic pulse zapping at lower back of my head between oblongata and cerebellum. My legs and arms trembled, the left side of my head was congested and clouded, my eyes and ears felt collision. I went to Patient First Green Spring clinic to have a checkup. I was diagnosed with sensory disturbance. Also, I took the MRI for brain scan. The MRI technician told me there was no abnormal symptom.

The electronic torture followed me to China . At workplace (Tainetech) and rental apartments in Xiamen China. I had been constantly zapped by directed energy beams in various diameters. It's like a person on the stage followed by 2 columns of spotlights except it's not light but directed energy beams.

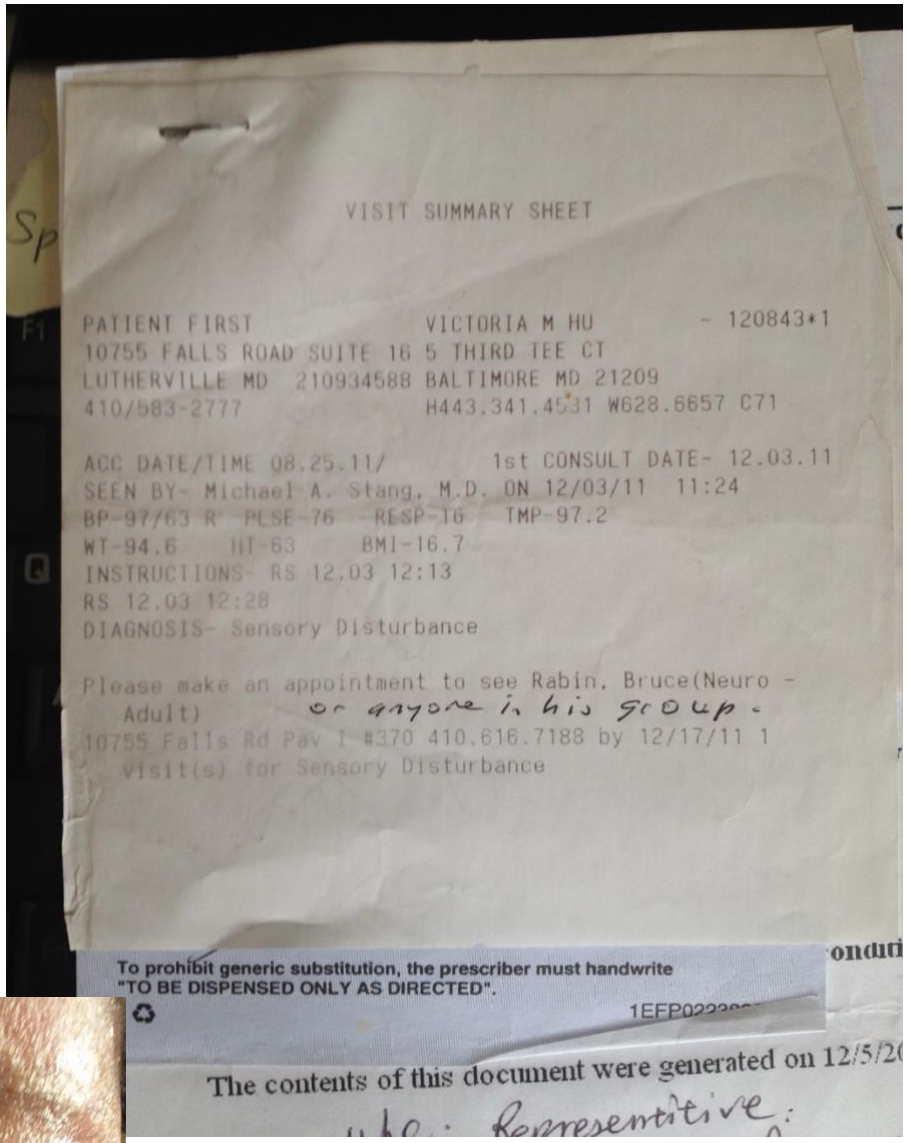

Since 2016, the zapping during daytime has been getting milder, but during nighttime, the zapping has been always intense which burns my body and deprives my sleep.

I have to constantly move around to avoid the burning pulse which causes inflict piercing pain, skin burn, bruise, skin inflammation, skin peeling, body pain, chest congestion, head congestion, headache, strange sneezing, strange coughing, strange bowel movement, sudden heat, the sense of electric flow on skin, etc.

Please stop electronically torture me!

Sincerely
Victoria Hu

VISIT SUMMARY SHEET

PATIENT FIRST VICTORIA M HU - 120843*1
10755 FALLS ROAD SUITE 16 5 THIRD TEE CT
LUTHERVILLE MD 210934588 BALTIMORE MD 21209
410/583-2777 H443.341.4531 W628.6657 C71

ACC DATE/TIME 08.25.11/ 1st CONSULT DATE- 12.03.11
SEEN BY- Michael A. Stang, M.D. ON 12/03/11 11:24
