# COASTAL PINES TECHNICAL COLLEGE
## Reasonable Accommodation Request Form

**SECTION II:**

Please answer the following questions to assist Coastal Pines Technical College in understanding the basis and nature of your request for a reasonable accommodation (attach additional pages if necessary).

**A.** Indicate physical or mental limitation(s) and expected duration of such limitation(s). Please attach additional page(s) if necessary. NOTE: it is not necessary to indicate a medical diagnosis or condition.

The work related and long-term EMF exposure that I am currently experiencing in my office, and inside the buildings associated with Coastal Pines Technical College (measurements provided), causes the following conditions: decreased concentration, memory problems, difficulties with fatigue, burning skin sensations, hives (images provide hearing loss in left ear (physicians note provided), and exascebated Tinnitis in both ears, whenever I feel the EMF waves in my office throughout the day. The measurements and times were provided. Expected duration's Unknown.

**B.** Explain how the disability or limitation affects your ability to perform one or more of the essential functions of the job/position.

Whenever I feel the electromagnetic waves (measurements provided), my concentration is affected. I have a difficult time thinking and feel "dumbed down" or intellectually disabled. This impairment or reduction in function slows my ability to complete my tasks at my normal speed or time. For example, I can write a 15-page research paper in 2 days while at home, but have difficulties creating a paragraph inside my office, as the waves are hitting me in the head. At times this process seems intentional.

**C.** List accommodation(s) needed to perform the essential functions of the job/position. Please attach additional pages if needed.

The requested accommodations are:
1). Allow OSHA to check the area/grounds for EMF exposure.
2). Work from home and commute to the high schools to complete teaching Assignments
3). Paint my classroom + office with EMF Shielding Paint
4) Purchase electronics committed that restrics benzeade, n-hexane, toluene, broinated flame retardents, and chloride organic compounds from computers - Apple products or other brands that manages chemicals effectively
